

Long Sought After Tutankhamen Coffin Finally Uncovered

(By Associated Press) Luxor, Egypt, Jan. 4.—The sarcophagus of Pharaoh Tutankhamen has been found in the monarch's tomb in the valley of the Kings. It was announced in a long waiting in a fourth cabinet. The coffin is of white and red granite.

Tribe of California Indians Converse by Whistling Language

(By Associated Press) Berkeley, Cal., Jan. 4.—A tribe of Indians whose members communicate among themselves only by whistling and who can talk to birds in the same manner has been found in the Shastan mountains in northern California. The discovery was reported to A. L. Kroeber, curator of anthropological museum of the University of California by J. R. Saxon of the United States forestry service.

Saxon said that for weeks forest rangers in a remote part of the Shastan had heard uncanny whistling over the service wires that stretch from station to station through the mountains. He went to investigate and after nightfall discovered the tribe.

He found that he left back to stable his horse in a lean-to nearby. When he returned, he said, he found steaming food laid on the floor, and beside it a bed of deer antlers provided for him. But no one was in sight.

For two days, related Saxon, he lived there in this way. When he had the cabin food would be spread for him, but with no amount of whistling could he discover the unseen dispenser of hospitality.

Finally, on the third day, several Indian men appeared at the cabin, and in sign language informed him that he had been their guest.

Canadian Products in 1923 Showed Material Increase

(By Associated Press) Ottawa, Ont., Jan. 3.—The farm and fishery products of Canada, during 1923, showed material increase over the 1922 figures. The value of the Dominion's mineral, forest, agricultural and fishing industries is placed at \$2,420,000,000 in unofficial government estimates for 1923. This represents an increase of \$252,000,000 over the values of the previous year.

Canada is now the greatest single contributor to the world's wheat supply, with more surplus wheat for export than any other wheat growing nation, according to statistics compiled by the international institute of agriculture in Rome and transmitted to the Dominion bureau of statistics.

Swedish Imports Increase

(By Associated Press) Stockholm, Jan. 4.—Sweden's imports for the first ten months of 1923 exceeded the exports by about \$54,000,000, as against an excess of \$10,000,000 for the corresponding period of 1922.

Successful Era of Land Development Promised Haiti

(By Associated Press) Port-Au-Prince, Haiti, Jan. 4.—The Haitian agricultural bill, now pending before the Council of State, is regarded by its proponents as a most important step in the proposal to develop Haiti for the Haitians. Its passage, it is declared, will mark the beginning of a new era in the history of this republic.

The main purposes of the measure are the education of the people in the field of agriculture, and the safeguarding of the natural resources of the island. This instruction will be given in the rural districts and prepare students for admission to the polytechnic institute in Port-au-Prince.

In addition to educational work, the bill provides for agricultural and industrial development, a quarantine and a forestry department. It will be along the lines of scientific and geological conditions on the diseases of plants and animals.

There is to be a director general of the new agricultural bureau, who probably will be Dr. George F. Freeman, an American expert on tropical agriculture. The expenses of the new bureau will be met by a budgetary allotment, voted for this purpose by the Haitian government.

Would Enforce Dry Law With the Army and Navy

(By Associated Press) Washington, Jan. 4.—A series of resolutions presented by representatives Blanton, Texas, provide for the removal of all government officials who violate the prohibition amendment and the return to their countries of all foreign diplomats who transport, possess or dispense liquor in defiance of law and the use of the Army, Naval and National Guard for the enforcement of the amendments.

The Kind of Hog to Produce

The first step in the production of a satisfactory farm meat supply is to produce a quality of carcass that will give a good quality of meat when properly cured.

The American corn crop and the American market have combined to produce the American fat hog type. Our hogs are largely produced on corn which produces a fat carcass of inferior quality, but the packers have had a market for fat pork and herd, largely in the South, and have, therefore, never paid a premium for a leaner and better quality of carcass, such as has been done in other countries.

Curates Scarce in England

(By Associated Press) Loughborough, Jan. 4.—Canon Briggs of this town is much concerned at the lack of curates, which he thinks will make the filling of high offices in the church twenty years hence very difficult. The canon says he has advertised for a curate in the local church papers for several months.

Boll Weevil Has Taught Lesson

(By Associated Press) Atlanta, Jan. 4.—"Has taken advantage of boll weevil to blast into the minds of Southern farmers does not pay to swap cotton dollars for bread and meat from the west." former Governor Manning, of South Carolina, stated, speaking in opposition to lower grain rates from the west at the interstate commerce commission hearing.

Several Thousand to Attend Congress of Road Builders

(By The Associated Press) Chicago, Jan. 4.—Highway commissioners from many States of the country, representatives of the Federal department, county road organizations and motor clubs, are expected here January 14-18 for the annual congress and exposition of the American Road Builders Association. Approximately 250 manufacturers of road building machinery have taken space for exhibits.

Together with contractors, material men and others interested in highway construction, preparations are being made for an attendance running into the thousands. The congress will consist of both technical and practical road building sessions, the committee announced. The exposition of State highway officials, in an exhibit, will show the status of federal aid work in the various States.

Paris Looks for Repetition of 1910 Disaster

(By Associated Press) Paris, Jan. 4.—The Seine rose 8.66 inches in the last twenty-four hours. Weather forecasters predicted mild persistent rains today. A repetition of the disaster of 1910 seemed probable, unless there is a drastic change in temperature before night.

HI JOHNSON MAKES BITTER ATTACK ON ADMINISTRATION

Says Administration Has Sought Again to Rope in Unfair Southern Delegate

(By Associated Press) Cleveland, Ohio, Jan. 4.—A bitter attack on the Republican national committee for its action in increasing southern delegate representation to the national convention, a big gun bombardment against the administration for supplying arms and ammunition to the Obregon forces in Mexico, and a thrown mantle to the Ohio Republican State central committee, which endorsed President Coolidge for the Republican nomination, marked the opening address of Senator Hiram Johnson of California in his campaign for the presidential nomination here last night.

Senator Johnson also made a frontal attack in the foreign policy of the administration, reiterated his Chicago speech insofar as it referred to his unqualified favoring of a soldier's bonus, cautioned the people to look carefully into the Mellon taxation plan, although advocating a reduction in taxes in no uncertain terms, advocated help for the farmers by the lowering of freight rates and co-operative societies and finished with a scathing arraignment of those who would have the country join the world court.

He Irritates Them

"I have recently observed that certain people, including the distinguished Detroit manufacturer, have declared that we should have an election this year," said Senator Johnson, "and perhaps at all; and many politicians denounce me because I have interfered with their election plans for a nomination by default to be consummated. I shall not concede that collectors of revenue, United States marshals, postmasters and other officeholders may themselves alone nominate candidates for the presidency."

"The leaders on the other side have demonstrated by their recent actions their contempt for the manhood woman who in reality, constitute the Republican party. Our opponents do not believe in direct primaries and direct legislation. I insist that the Republicans in Ohio shall have an equal right in determining the nominee for President with the Republicans in South Carolina. Obviously our opponents do not so believe."

"Just as pollution at the source of the stream will pollute the whole stream, wrong and injustice in the selection of delegates to a national convention will pollute and taint the very convention itself."

Senator Johnson then reviewed the action of the 1920 Republican convention in reducing the southern delegation and said it was "a step in the right direction" as it is a basis for further reductions. He then told of the recent action of the national committee in Washington "under the order of our opponents" in again giving them the original representation and termed it "scandalous and unfair representation."

"I speak of this outrageously unfair selection of the delegates because there is real service we can render" said the senator.

"Nine Southern States—Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, South Carolina, Texas and Virginia polled 489,000 votes for President Harding. These nine States have 134 delegates. Ohio polled 1,182,000 votes for President Harding and Ohio has fifty-one delegates to the convention."

"There is not the remotest possibility of a single Republican elector being chosen in any one of these nine Southern States, and yet the Republican national committee recently deliberately increased the representation, contemptuously renege the mandate of the national convention of 1920 and broke faith with the rank and file of the Republican party all over the land. These Southern delegates are selected by commands issued in the city of Washington to a very few federal officeholders in the different States. The action of the national committee is a reversion to the abhorrent conditions from which we thought we had emerged. It is this system upon which we war."

SPANISH QUEEN TOOK PART IN IMPROMPTU CONCERT ON BATTLESHIP

(By Associated Press) Rome, Jan. 4.—Queen Victoria of Spain was the central figure in an impromptu concert held aboard the Spanish battleship "Jaime Primero" just before the royal party left Naples on their return to Spain. The King and Queen of Spain lunched aboard the battleship with the Duke of Oosta, the Duke of Pietola, General Primo de Rivera and others, when someone expressed a wish to hear the crew sing.

An impromptu concert was arranged and both the King and Queen of Spain joined in several choruses. Queen Victoria was invited to sing, and having a fine contralto voice she smilingly obliged, much to the gratification of the assembled guests and crew. Encores were demanded and given and Her Majesty's solos proved the "star" turn of the entertainment.

GREAT BRITAIN ASK RELEASE OF TOMOKA CREW

(By Associated Press) London, Jan. 4.—Great Britain has asked United States for the release from bail of British and Canadian members of the crew of the British schooner Tomoka, alleged a rum runner, seized in November beyond the three-mile limit in New York waters.

An investigation by British authorities, it is stated, showed the Tomoka is of Canadian ownership and was seized outside the three-mile limit. While the British are entirely out of sympathy with liquor smuggling, they feel they have no alternative but to protect the rights of British vessels outside of the traditional three-mile limit, which they say must remain law until a new treaty of extending the limit to hours of steaming distance to shore becomes effective.

Costa Rica Leads World in Telephone Etiquette

(By Associated Press) Chicago, Jan. 2.—Costa Rica is setting the telephone etiquette of the world, according to Frank M. Kenney of the International Western Electric Company, just back from after a visit of seven months to San Jose. He says the Costa Rican gentlemen or lady never answers the telephone that duty is left to a servant.

"Costa Rica has absolutely no use for telephone numbers," said Mr. Kenney. "All calls are made by asking the operator for the other subscriber. Consequently, putting through a call is sometimes a long process—something like diplomatic negotiations, particularly if the servant happens to be out of sorts or the telephone operator is not up on all the social registers of the community. Virtually all telephone calls in Costa Rica are put through between 3 and 5 in the afternoon and very few at night. The Costa Rica business day begins at 7. Eight in the morning is late. Then at 10:30 the shops close for breakfast, to reopen again at 12:30."

Last January, fire destroyed the exchange at San Jose and put all the lines out of commission. Mr. Kenney superintendent of the rebuilding of the entire communication system of the city.

Only to show that Germany has purposefully foiled every one that she could into paying tribute to her in her "poverty" and at the victors' expense.

Germany is not beaten yet and will not be until the nations that attempted to defeat her, force her to come across. We are opposed to helping Germany in any form except on the basis of exchange of gold for materials that we might supply.

We wonder how many toys that our children played with this Christmas that had the "made in Germany" stamp on them and how many of us five years ago, swore by the holy gods that if we ever put a thing into use "made in Germany," that we would wish the wrath of heaven be visited upon us?

God grant that the unrighteous shall be made to correct their erring ways, and until there is an eye for eye, we shall not, as a nation, contribute to the apparently oppressed, until the oppressed has been paid. We can not see righteousness in contributing to the "well-to-do."

Germany, by the enforced inflation, has played the exchange for all that it was worth to her, and the people trading with Germany, having a spark of confidence in her integrity, believing she would uphold and establish her credit, have lost billions on the declining markets, to which end Germany has profited immensely, possibly enough to pay the reparations due France.

We know a North Carolina bond salesman that once offered German marks for sale at a price that would pay about a thousand per cent if they went back to par with a very apologizing advertisement. We but had give us a fortune now not to disclose his identity, for he is a man of high calibre and integrity. This
