(By Carl Groat)

Baltimore, July 11.—With no restrictions, Captain Hughes and customs men this afternoon boarded the Deutschland to inspect her for armament. The action was taken on permission of Manager Hilken after Captain Koenig had agreed that the men could not learn the secrets of the ship's construction. "Potentially Warship," Say Allies.

Washington, July 11.—Great Britain and France will do everything in their power to prevent the United States recognizing the Deutschland as a merchantman, the embassies of those governments today admitted. They declare the submarine is potentially a warship, a naval ship being unable to determine whether or not the submarine is armed.

Deutschland Won't Stay Long.

Baltimore, July 11.—Manager Paul H. G. Hilken of the Ocean Transportation Company today admitted that the Deutschland would probably take on a part of her return cargo at Norfolk. He denied, however, that the Bremen, a sister ship, will dock at Rio De Janeiro. The departure of the Deutschland undoubtedly will be within ten days. Information is had that a small fleet of submarine freighters will soon be plying between North and South Americas and Germany.

Hughes' Visit Must Be Enforced.

Baltimore, July 11.—If Captain Hughes, U. S. N., will present proper government credentials to Captain Koenig he will be allowed to board the Deutschland. Koenig declared today that Hughes must be entitled by law to make such an investigation before he would overstep his orders not to permit any one aboard. The cargo is being unloaded today.

Freight Sub. Headed for Rio.

Rio De Janeiro, July 11.—The State Chancellor today was officially informed that a sister ship of the Deutschland is now crossing the Atlantic. It will arrive here in ten days, the newspaper Rua declared.

Deutschland May Leave This Week.

Newport News, Va., July 11.—Plans have been completed for bringing the Deutschland here to complete her loading. It is believed her departure will be much sooner than the North German Lloyd officials have given reason to believe. It may be within the week.

Don't Want U. S. Naval Officer to Examine Ship.

Baltimore, July 11.—Manager Hilken of the Ocean Transportation Company, owners of the Deutschland, announced personally today that the company will object to Captain Hughes, a Navy Department expert, examining the ship.

WARNEFORD, WHO FLEW TO DEATH WITH U. S. MAN, TO GET MEMORIAL

(By the United Press)

London, June 19.—(By Mail)—Fifty-eight Warnefords, from almost every corner of the world, have clubbed together to erect a memorial in Highworth church, Wilts, to Flight Lieut. Warneford, who destroyed a zeppelin, and who was later killed while flying with Henry Beach Needham, the American writer, in France.

Rev. H. L. Warneford, after his nephew's feat, realized that the deed was so striking and had been given such world-wide attention that on the strength of it he might bring the widely scattered Warneford family together. He traced the family back to the year 745. He also traced members of the family to various corners of the earth with the result that the zeppelin bomb has reunited the Warneford family.

BOND SAYS BULK OF LOCAL POPULATION IS GOOD CITIZENRY

Judge Recalls Courtesies Received Here In Charge to Wake Jury

SHADOW OF A MOB'S ACT

Floats Over Lenoir and Greene Counties — Conceded, He Contends, Joseph Black Shouldn't Have Been Lynched

The Raleigh Evening Times Monday evening carried the following story:

"Judge Bond, who was at Kinston recently, and made the people of North Carolina sit up and take notice, is in Raleigh, opening court here today. While speaking at length upon the growing disregard for the law during his charge to the grand jury, he paid his tribute to the people of Greene and Lenoir counties and expressed his regret that the people who were, in fact, not good citizens, should have acted so as to invite the investigation which had assumed a phase of absolute publicity.

"Judge Bond stressed the importance of letting things be done according to law. 'The man who committed the crime,' he said, referring to William Black, 'is now in the death house awaiting execution, while the man who was lynched by an excited mob, it is now conceded, had done nothing for which to be lynched.'

"The judge was careful to call attention to the courtesies he received from the people of Lenoir county. He has not been in Greene, but he said he greatly deplored the fact that a mob should float a shadow over the better classes of which the main bulk of the counties is constituted.

"The judge repudiated the idea that the people of either county are lawless and expressed the hope that the small number who took the law into their own hands should be brought to justice."

Chapel Hill, July 10.—The announcement in the Sunday papers, under a Durham date line, that Jimmy Hickman, left fielder for the Asheville baseball team, would probably coach the University of North Carolina baseball team next year has no basis in fact, according to Graduate Manager Charles T. Woolen of the University.

By HENRY W. WOOD, (United Press Staff Correspondent)

Paris, July 11.—Twenty-two villages, fortified to the highest degree by German efficiency, have been captured by the Anglo-French since the great offensive began ten days ago.

Peronne, now a bare mile from the French advanced lines, is the next important prize toward which the French are advancing. It is almost within the grasp of General Foch's army.

British Storm and Take a Village.

London, July 11.—The British last night carried by storm Contalmaison village, northeast of Albert, about which furious fighting has raged since the offensive opened.

Germans Foresee Failure and Peace.

By CARL W. ACKERMAN, (United Press Staff Correspondent)

Berlin, July 11.—The Allied offensive will end in defeat within a few weeks and be followed by negotiations for peace, is the opinion of well informed Berliners. The people are unanimous in believing the attempt to force the German line is doomed to failure. Feeling prevails that when the extent of the British losses is known in England, coupled with the fact that the German lines are intact, the British public will demand peace.

CLAIMED CHILDREN UNLAWFULLY HELD; HABEAS CORPUS WRIT

Armed with habeas corpus writ, Sheriff Taylor went to Pitt county today to secure the persons of Ross, Roxy, Gladys, Albert, Ruby and Emma White, children of a widow living on the farm of Steve Harris in Sand Hill township. (By the United Press)

Rome, July 12.—Kaiser Wilhelm and Emperor Franz Josef have sent an urgent request to Czar Ferdinand that he dispatch Bulgarian troops to the Galician and Trentino fronts to help check the Russian and Italian offensives, said Geneva dispatches today.

A delegation of Austro-German diplomatic and military officials personally carried the message to Sofia Sunday. They told Ferdinand that continued Italian and Russian successes would bring Roumania into the war on the side of the Allies, and that Bulgaria then would be squeezed between Roumania on the North and the Allied forces in Greece on the South, and crushed.

Ferdinand replied that withdrawal of the Bulgarians from the South would invite immediate attack from Salonika. He promised, however, to submit an appeal to the Bulgarian staff.

The steady advance of the Russians in southeastern Galicia has caused the withdrawal of several Hungarian divisions from Trentino.

CROP-MOVING MONEY HAS SERVED PURPOSE

Washington, July 10.—Secretary McAdoo today ordered withdrawal from Federal Reserve Banks at Richmond, Atlanta and Dallas \$5,000,000 each, placed there last September to assist in moving and marketing the crops. product you sell is not ice cream but a compound ice cream or something sold as a substitute for ice cream, provided for by the ice cream regulation," says a statement just issued. "The regulation provides for the sale of products that are not standard ice cream. If the regulation is not complied with the officials will take it to mean that you are selling your product as ice cream."

Ice cream cannot be made from milk. To make ice cream requires not less than three or three and one-half parts of cream to one part of milk. The proportion of cream and milk that can be used depends upon the richness of them; that is, upon the milk fat that they contain.

Inspection will be made soon and places where ice cream is made or sold must be clean and in a sanitary condition.

As yet no prosecutions have been made of the ice cream dealers, but they have been given ample opportunity to comply with the law, and in the future violations will have to be reported to the courts.
