ROUMANIANS COME BACK STRONG; THE TEUTONS ROLLED BACK ALONG BORDER OF TRANSYLVANIA; DESPERATE COUNTERS

In Bad Straits, Balkan Ally's Armies Turn Upon Invaders and Hurl Them Against Frontier—Austro-Germans Reinforced and Attempting to Recover Lost Ground—Pursuit in Dobrudja Continues—Von Hindenburg, Busy Man of War, Finds Time to Run Up to Berlin to Take Dinner With Kaiser—Field Marshal Being Lionized by Populace—Portugal Reported to Have Sent Expedition to Macedonia; French Commander-in-Chief May Have Troops of 10 Nations Under Him

London, Oct. 30.—Von Falkenhayn's invading armies have been thrown back more than three miles by the Roumanians in a battle north of Campolung, says a Petrograd dispatch. The fighting continues. The Teutons have been reinforced and are desperately counter attacking northwest of Campolung and at nearly every point on the Transylvanian frontier. The Teuton invasion apparently has been blocked, at least temporarily.

On the northern front, the Teutons everywhere have been swept back against the frontier. Von Mackensen's pursuit of the fleeing Russo-Roumanians in Dobrudja continues.

Von Hindenburg Home.

Berlin, Oct. 30.—Arriving in Berlin for his first visit during the war, Field Marshal Von Hindenburg, chief of the general staff, was today the object of great demonstrations. He dined with the Kaiser.

Portuguese Troops at Front, Said.

Berlin, Oct. 30.—Portuguese troops are with the Allies in Macedonia, according to the Berlin Tageblatt. If true, General Sarraill is now commanding the troops of ten nations.

German Counters in West.

Paris, Oct. 30.—The French captured trenches northwest of Saily in a renewal of the attack north of the Somme last night, it is said officially. South of the river the Germans attacked Biaches and Maisonette Farm, after an intense bombardment. They were repulsed at most points, but penetrated works on Maisonette farm. Only artillery occurred on the Verdun front.

Hindenburg Says France Wasting Men.

Berlin, Oct. 30.—"The Roumanians are still retreating. Their day of reckoning is coming," declared Field Marshal Von Hindenburg, Germany's War hero, today. "The French showed great tenacity, but are exterminating lives by their present methods. Soon there will be none of them left. A similar offensive next spring will rob France of the rest of her army, and her national strength." Britain has produced no great strategists yet, he declared.

VETERAN ENGINEER SUFFERS A STROKE OF PARALYSIS IN CAB

Atlantic Coast Line Engineer Leens, a veteran who for 24 years has been driving a train from Parmale to Washington, tumbled off his seat to the cab floor Saturday night as the train reached a station some miles out on his run, stricken with paralysis and speechless. He retained the use of only one hand, so severe was the stroke. He was removed to the baggage car and the conductor, who has shared the run with him these four and one-half years, and the colored fireman carried the train in. Leens is known to every railroad on the A. C. L. system, nearly. There is a little flag station that his train passes every day, named for him. Sunday Conductor Ellsworth, who has a son running freights into Kinston, was asked many times the question, "How's Leens?" It was the most important topic of conversation at Parmale. Ellsworth sadly professed the belief that his fellow-veteran would not drive his engine again. His condition was unimproved after 24 hours. The stricken man came to this part of the country from Iowa.

The final week of the campaign in Lenoir county will be a lively one. County Democratic Chairman G. V. Cowper late Saturday announced the following tentative program for the coming seven days:

FOOTBALL'S ACID TEST BE APPLIED SATURDAY

By HAMILTON.

(United Press Staff Correspondent) New York, Oct. 27.—Yale, Harvard and Princeton, the "big three" of the Eastern football tangle, will go into the crucial points of their 1916 careers tomorrow. Yale is due to show its strength to the strong Washington and Jefferson team; Harvard must tackle Cornell, and Princeton will be willing to call it a real day's work if the Tigers are able to take a fall out of Dartmouth.

Inter-sectional battles of more or less importance are found on the 's calendar, with Indiana meeting Tufts, that surprising bunch of veteran eastern warriors in Indianapolis. It will be the second big meeting between eastern and western eleven, Colgate having already lowered the colors of the Illinois huskies. Illinois is considered stronger than Indiana, so Tufts should have little trouble in downing Indiana.

The Oregon Aggies and Michigan Aggies will be at it in East Lansing at the same time Michigan is playing her big battles of the year, the contest with Syracuse.

LOT OF SOLDIERS TO BE KEPT IN COUNTY

Lenoir May Have to Maintain More Than 200 for New Federal Army—Men Go to Reserve After Being Discharged From First Line Organizations

(By the United Press)

That Lenoir county will be expected to maintain a force of at least three officers and more than 200 men as its part of the irregular branch of the United States Army upon the return of the guardsmen now on the border, is probable. With the announcement in The Free Press the other day that the headquarters company of the Second Infantry would be stationed here it became known that two full units of the regiment would be kept in the city. The Second North Carolina has only 850 or 900 men now, making it possibly the smallest regiment numerically on the border. The War Department, it is believed, will upon the troops being mustered out require war strength enrollment in all units. Company B would have to keep considerably more than a hundred men. The headquarters company, comprised of hitherto unassigned details and the band, will have to keep nearly a hundred men on its roster. These men, with the possible exception of a few non-commissioned officers, will have to be enlisted in the county, and have to be fully up to the physical standard.

Upon completing their present enlistments, which include the time served in the National Guard prior to subscribing to the Federal oath, the irregular soldiers will be attached for three years to regiments "on paper" made up indiscriminately of regular and irregular reserves, it is understood. In the event of a mobilization these regiments would immediately spring into being fully officered and with full ranks, drawing equipment stored at army depots, it is said.

MARINA NOT WARNED

Shelled and Sunk—Other Vessels Sent to Bottom in U-Boat Campaign—Determine Horseship's Legal Rights

(By the United Press)

Washington, Oct. 30.—A new submarine crisis with Germany loomed menacingly today, officials here agreed, following report from American Consul Frost at Queenstown, that the Glasgow horse ship Marina had been sunk without warning by shell fire, with two Americans reported among the crew. In fixing the blame for the destruction of the vessel, it was necessary to determine the character and charters of some of the horsehips plying between the United States and England to learn if they were under direct charter of Allied governments. In such case, they as well as the character of admiralty vessels subject to attack without warning, Consul Frost reported. The freighter Rowanmore was sunk by a submarine while attempting to escape. Two Americans and five Filipinos were aboard.
