"The life long friendliness ex sting between the two races, of which we in the North know nothing practically and are skeptical of in theory." That is it. Not having witnessed the thousands of incidents like the one above related which are daily occurrence down South, Northern people have long been "skeptical in theory" of the "friendliness" of the South for the negro. Those who come South are soon converted, but there are still many Northern skeptics. ## Origin of Newspaper Interviewing.

Commenting on Mr. Wingate's recent letter from Boston, in which M . Whittier's antipathy to inter viewing was set forth with hitherto uppublished proofs, Mr. Stoddard makes this interesting statement in the Mail and Express : - "The art of interviewing, as i's professors are pleased to cail it, is of American or. igin, and its inventor was the late Mr. N. P. Willis, who, when a youngish man, lighted upon it during his sojournings in England, as the editor, or one of the edi ors of the New York Merror, for whose columns he wrote letters descrips but effective. Why He Called His Dog Populist.

Topeka Daily Capital.

A boy in Kansas was pulling a dog along the road by a rope. The boy called to his dog, "Come along, Pop, you ornery cuss."

A bystander asked him why be called the dog Pop.

"For short," answered the boy. "What's his tall name ?" "Populist."

"Wby call him "Populist ?" asked the stranger.

"Well, s'r," the boy said, "because he is just like a Populist. He's the ornervest dog in Kausas. He ain't worth a durn only to set on his tail and howl."

The world is full of strange inconsistencies. There was never so much talk of hard times in North Carolina and there were never so many visitors in the mountains of the State as there were during the past summer; there were never so many excursions nor excursions so largely patronized. The colleges and high schools have opened this fall with a larger attendance than ever before and school attendance is universally a scounted one of the best barometers of the prosperity of the people Some people have money-there is no mistake about that; and when a street fakir comes along with a patent machine for sale, or a peddler with a pack on his back, or a range man, or a tellow selling a two dollar clock for fifteen. there are those who cough up cash who would never be suspected of having a dollar in the world. ~ Land.

S. P. SMITH, of Towarda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken-down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."
