Five years ago I became so nervous that mental work was a burden. I could not rest at hight on account of sleeplessness. My attention was called to Dr. Miles' Restorative Nervine and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with aiways the same good results. A Little Girl Suffocated.

A very distressing accident recured at the home of Mr. N. E Sigmon, of Cline township, Sunday evening. Leona, youngest daughter of Mr. Cline, aged about 81 years, was the victim of the accident. She, with two very small children from the neighborhood, was in a room playing. A quantity of seed cotton was in the room in which the children had dug a hole some two or three feet deep. By some means little Leona fell head first into this hole and was suffocated. The other children knew she was in the hole, but from what we can learn they were so small that they did not realize that there was any danger, and left the room without notifying His nearest friends, who know the and one about the house.

Some time later, as it began to grow dark, little Leona was missed by her parents and inquiries were made about her. Her former companions said she was in the room on the cotton and the searchers went there to find her body cold in death. The hole was not a large one and in falling the arms of the child were pinioned to her side so that she could not extricate herself nor could she make a sufficient outcry to bring assistance. She had been dead between a half hour when her body was discovered.-Hickory Times.
