Bull Dog Electrocuted.

The first trial of Ohio's electrocution machine just set up in the State prison here, was made last evening, a large bull dog being the victim. He was strapped in the chair exactly as a man would be and the hair shaved from his body where the electrodes were applied Fifteen hundred volts were turned on. Death was apparently instantaneous. The machine will be tried in the presence of the prison managers with a mule for a victim next Tuesday.--Columbus (O.,) Dispatch, 26.
