Our Mary had a little lamb, And her heart was most intent To make its wool beyond its worth. Bring 56 per cent.

But a pauper girl acress the sea Had one small lamb also, Whose wool for less than half that sum She'd willingly 'et go.

Another girl, who had no sheep Nor stockings-wool nor flax-But money just enough to buy A pair without the tax.

Went to the pruper girl to get Some wool to shield her feet. And make her stockings, not of flax, But both of wool complete.

When Mary saw the gir's design She straight began to swear She'd make her buy both wool and tax

Or let one leg go bare. So she cried out: "Protect reform! Let pauper sheep wool free! If it will keep both her legs warm

What will encourage me?" So it was done, and people said Where e'er that poor girl went. One leg was warmed with wool and one With 56 per cent.

Now, praise to Mary and her lamb, Who did this scheme invent, To clothe one-hatf a girl in wool And one-halt in per cent.

All honor, too, to Mary's friend, And all protective acts, That cheaply clothe the rich in wool And wrap the poor in tax.

The reading of this piece of dog gerel was received with shouts of laughter, even Republican Senators leaning back in their seats and give ing unrestrained way to their mirth. To Superintendents, School Officers, Teachers, and the Friends of Education generally-

GREETING:-The next meeting of this Department will be held in the City of Washington, D. C., on the 6th, 7th, and 8th of March, 1889.

Nothing will be leftundone by those in charge to make this meeting of the D-partment of Superintendence take rank with the most notable of its predecessors in the point of attendance, general interest and real p ofit to the Course of Edu cation.

To this end a most cordial and pressing invitation is hereby extended to you to attend and participate in the proceedings.

A strong programme will be prepared, in accordance with which live pubjects in the general field, and in special lines of educational work and thought, will be presented in able papers by prominent men and women, and ample time will be afforded for their thorough discus-

The widest possible representation of geographical sections and individual opinions is earnestly

desired. These Department meetings at the Nation's Capital have been prod: ctive in the past of much genuine good to the cause of Popular Education. Indeed no small part of the progress made within the last ten or fifteen years is traceable directly to their influence. The possibilities in this direction, so far from being exhausted, suggest such meetings as afferling the very best possible opportunities for still further directing aright the educational thought

and activity of the country. It may here be noted that the results of the meetings of the Dra partment are not circumscribed or ephemeral, the proceedings being published by the Bureau of Education and sent gratuitously all over the country as Circulars of Information. It seems but proper and right, in this connection, to record thus publicly the obligations and grateful acknowledgments of this Department, which are justly due to Hon, N. H. R. Dawson, United States Commissioner of Education. for valued assistance, attentions, and

The time of the meeting has been fixed in accordance with suggestions received from many quarters. It immediately follows, as will be seen, the date of the inauguration of the President, and thus affords the opportunity for those who attend to be present also at the ceremonies of that occasion, if they wish, with little additional expense or loss of

time. It is hoped and believed that a material reduction from the current rates of transportation will be secured for those who attend this

Suggestions looking to the efficieucy of the coming meeting will be gladly received. Very cordially yours, FRED. M. CAMPBELL, Pres. W. R. THIGPEN, Sec'y.

A Wise Bill.

State Chronicle COL. PAUL B. MEANS, Senator from Cabarrus, has introduced a bill to amend the Constitution in three particulars, which deserves more than a passing notice. The bill provides for a change in three par-

First. To prevent any member of the General Assembly which creates an office to be eligible or appointed to the first term of that

Second To make the Commission r of Agriculture & constitutional officer of equal dignity with the Secratary of State and other officers of the State and elected by the peo-

THIRD To make the term of office of Governor and other State officers to begin on the THIRD Wednesday after the first Monday in January, so that the General Assembly can count the vote before this term of office begins

This bill has been reported favorably bythe Judiciary committe with a recommendation that it Do pass, and that a sufficient number of the bill, with the report, be printed and supply the Senate and House of Representatives.

The CHRONICLE hopes that there will be no opposition to this wise measure. Its wisdom will commend itself generally to the people, and therefore there is not need that we comment on or commend it.
