LINCOLNTON, N. C., JUNE 5, 1891

PROF. THOMPSON IN DEMAND.

An effort is being made to secure the services of Prof. D. Matt. Thompson as principal of the King's Mountain High School.

We have no doubt that the King's Mountain people would be glad to have Prof. Thompson, but it will take time before he can be prevailed upon to take charge of Piedmont Seminary again.

Before he accepted the Superintendency of the graded schools of Florida, he had been principal of Piedmont Seminary for about seven years.

Again, you talk about booming up a town and about inducing people to come here to live, and you must know that men of families are going to look into the schools of the towns before they decide to locate.

Our heart is in this matter of a thorough and flourishing academic school here, and if the people of town and county will unite on the question we can have one of the best schools in the State.

has resigned in order to accept the chair of History recently established. His successor is shortly to be re-elected.

Prof. Holmes' department is also to be provided for as he has accepted the office of State Geologist.

Shelby Votes For Graded school.

SHELBY, May 30.—After a hot exciting campaign Shelby voted today 185 to 96 levy special tax of 25 cts. for graded school purposes.

Weekly Weather Crop Bulletin.

CENTRAL OFFICE, RALEIGH, N. C. The reports of correspondents of the Weekly Weather Crop Bulletin issued by the North Carolina Experiment Station and State Weather Service, for the week ending Friday, May 29, 1891, show that general rains have fallen over nearly the entire State except in the southeastern portion of the Eastern District from Newbern to Southport, where the drought still continues.

Showers are probable in that portion to-day (Saturday). The area of excessive precipitation covers nearly the entire central portion of the State. During the first part of the week, while the weather was warm, the rainfall was very beneficial, but during the latter part the temperature fell rapidly, with north to north-east winds, retarding growth of crops.

WESTERN DISTRICT. Lincoln, Lincoln county—Season fine. Good stand of cotton now but much of it late. Old Fort, McDowell county—Too much rain; cold and wet. Crops not doing so well.

THE GAINESVILLE GRADUATED SCHOOL. The closing exercises of the Gainesville Graded School were in every way quite equal to the expectations of the teachers of the school, as well as of the general public.

Mr. LeRoy Long is reading medicine under the directions of Dr. R. A. McLarsh, of Triangle, lost a fine mule a few days ago.

SALE REAL ESTATE. BY virtue of a decree made at Spring Term, 1891, Lincoln Superior Court, in case of W. J. McGinnis vs. Lavinia Leathman and others, I will sell at public auction at the court house door in Lincoln, N. C., on Monday the 6th day of July, 1891, the following described property, to-wit: A tract of land lying in North Brook township, Lincoln county, N. C., adjoining lands of John Boies and others.

Too cool and cloudy for cotton. Oats and potatoes doing well. Mt. Pleasant, Cabarrus county—Rain is hindering work on farms. Rainfall 3.18 in. Bat Cave, Henderson county—There has been rain every day in the county for the last seven days.

Mrs. Fannie G. Warlick.

The saddest duty which falls upon a newspaper is to chronicle the death of a member of the community, especially when that member is as highly esteemed and loved as the subject of this notice.

After a brief illness, Mrs. Fannie G. Warlick, wife of our townsman Wm. Warlick, departed this life Wednesday morning at 10 o'clock. She was a native of Wood county, Texas, a member of one of the oldest Texas families, and a near relative of Gov. Henderson.

THE GAINESVILLE GRADUATED SCHOOL. The closing exercises of the Gainesville Graded School were in every way quite equal to the expectations of the teachers of the school, as well as of the general public.

Notice of the death of Mrs. Warlick appeared in the COURIER two weeks ago. Mr. Wm. M. Warlick was at one time editor of a paper at his place.

Obituary.

Mrs. Sabra R. Bailey, wife of Sames W. Bailey, died in Charlotte N. C. the 25th of May, 1891, aged 22 years. For nearly two years she had been in delicate health, but was able to attend to her ordinary affairs till taken with grip about two months ago, and while yet enfeebled by that disease, she was attacked with measles, which with other complications ended her short career.

Mrs. M. G. BAILEY.

THE GAINESVILLE GRADUATED SCHOOL.

The Entertainment at the Opera House Friday Night.

The closing exercises of the Gainesville Graded School were in every way quite equal to the expectations of the teachers of the school, as well as of the general public.

Though the entire program was well rendered, especial praise must be given to the cantata, Floral Praise, beautifully sung by thirty young ladies and little girls. Spring was finely personified by Miss Frankie Shaanon, who sang uttringly in a sweet voice, her very lengthy part of the cantata. One of the most beautiful parts of this piece was a solo sung by little Bessie Sheats, who in very truth looked like a "buttercup in her little yellow hat."

Mr. LeRoy Long is reading medicine under the directions of Dr. R. A. McLarsh, of Triangle, lost a fine mule a few days ago. Morrison & Reinhardt are adding new machinery to their cotton factory, and will soon have their large factory building filled to its utmost with the latest improved machinery.

if not superior, to any graded school in the State. The citizens of Gainesville should be proud of such a school. The teachers are entitled to all praise for their efficient services.

Kinetograph is the name Edison has given his latest, and most wonderful invention, upon which he has been working for the past few years. By this he not only reproduces the voices of the actors or singers on the stage but perfect pictures of the actors, the costumes, expressions and every movement of the muscle.

Letter from Lowesville.

For the COURIER. MR. EDITOR:—Little Houston, son of Mrs. L. V. Lowe, died of brain fever May 17.

Miss Laura Black, of Macnephel, died 16th May.

D. A. Lowe & Son are adding 25 feet to front of their store room.

We have been called the laziest man in the county, and can stand that very well, as we have no proof to the contrary, but when that young man of Hager's stoops so low as to circulate the report that we were caught in our meadow last week, and actually go so far as to tell that we were mowing grass, it becomes unbearable and we hasten to advise him to recant before his veracity is called in question.

We have no big fools down here but we have a genuine fool-killer, and if H. W. will send his Howard's Creek fool down we will guarantee a first-class job. Our fool-killer has not had a first-class case in some time, and would gobble down that Howard's Creek fool at one gulp. Send him down at once.

A diagnosis of Mrs. D. P. Kincaid's case by Drs. Johnston, Davidson and Mundy, showed it to be cancer of the liver in its worst form. She is still living.

There, now, H. W., we are glad you called our attention to our having stumbled in our "hen story."

It Swallowed a Snake. In a chicken which was killed at Mr. La Schiff's yesterday, a live garter snake was found coiled up. It was about 12 inches long—Charlotte Chronicle.

That spraying is necessary to save our fruit crops seems to have become the accepted opinion among fruit growers. The agricultural press and the station have distributed full information broadcast over the land. Spraying machines have improved until there are a number that can be relied on to do efficient work. It is now war to the end. But so many will neglect to take any part in the warfare that the supply of insect pests will be kept up from year to year.

Yours for success, BILL SHANKS. Lowesville, N. C., May 26, '91.

For the COURIER.

MR. EDITOR:—Oak Forest Literary Society was reorganized in January 91 and has met regularly once a week ever since. Much good has been accomplished, and still the society flourishes. The boys are so thoroughly enthused that it has been decided to continue the meetings through the summer not withstanding the short nights. We were glad to have Sheriff Luckey with us at our last meeting. His presence and the nice and appropriate little talk he made recalled pleasant memories of the past, when he was one of our most active members. The subject under discussion was, which was the greatest man, Benjamin Franklin or George Washington. Decision in favor of negative. Subject for next debate is, what will cure Bill Shanks' chickens. A friend informs us that Shanks has been boasting of getting a third more eggs daily than he has hens. Hence we concluded that the "old speckled hen" came to her death from the unusual amount of industry she displayed—a disease very uncommon in this community. We think this should be a warning to Shanks himself.

We were surprised a few days ago to see Bill Shanks' horse pass the road without his master. So much so that we inquired of the rider "where is Shanks", the answer was prompt "I left him down in the meadow cutting grass." Had the weather been bad, no doubt there would have been a large quantity of good hay lost. Again be careful Shanks and do not exert yourself too much.

To the members and delegates of the Alliance, commence now and make your arrangements so that you can be with us at the next county meeting. The blackberry bushes bid fair for a large crop, so we can see nothing to prevent a big feast except a little sweetening.

The vocal organs are strengthened by the use of Ayer's Cherry Pectoral. Clergymen, lawyers, singers, actors, and public speakers find this preparation the most effective remedy for irritation and weakness of the throat and lungs, and for all affections of the vocal organs.

STOVES.

WE are in a position now to suit everybody wanting a STOVE. We have just bought direct from the manufacturer a CAR LOAD of Stoves.

There is no one between us and the manufacturer to make a profit. By having a solid car shipped at one time our freights are greatly reduced, and by buying a car load at one time, we get the price reduced. So it is very easy to see that we have bought our STOVES cheap. Therefore we can and intend to sell Stoves as low if not lower than they can be bought in Charlotte or any of the surrounding towns. In a few days we will have in stock eleven different styles or about 100 Stoves, from which our friends and customers can make a satisfactory selection. Our stoves are all of the

Best Quality.

Owing to the way we have bought, we can sell A GOOD NO. 7 COOKING STOVE, WARE and PIPE for Only 9.00.

This \$9.00 stove is a good size for a small family. Larger stoves and Ranges will be sold proportionately low. In this lot we will have a stove with warming closet and porcelain lined reservoir.

We still make Harness and a nice stock of Hand-made harness, saddles, collars, bridles, &c. Remember we carry the most complete stock of

HARDWARE

in the county. Always have on hand extra stove pipe, pots, kettles, hollow ware, &c.

We have a few carts, buggies, and spring wagons which we will sell regardless of cost, as we have no suitable house to store them. Will sell a GOOD OPEN BUGGY for \$35.00. A TWO-SEATED SURRY for \$50.00.

Thanking the public for their liberal patronage in the past, and soliciting a continuance of the same, we are, RESPECTFULLY,

H. E. & J. B. Ramsaur.
