—J. W. A. Paine, Esq., of Lincoln county, was brought to the city yesterday to undergo treatment, and perhaps an operation, on account of an internal abscess with which he is suffering. After consulting physicians here, he went on North last night. He was accompanied by his wife.—Charlotte Observer. —Mr. R. E. In fact, improvements are going on in all parts of town. —Died near Denver, last Sunday, March 13, Mr. Jno. Howard, aged about 60 years. He had been in poor health for some time, and was seized with la Grippe, which caused his death. He was a brother of Frank Howard and was a most excellent citizen, highly esteemed by all who knew him. He was a member of the Methodist church. —A negro, named Jule Wilson, was killed last Saturday near Iron Station by the freight train on the C. C. railroad. He was lying on the track drunk when the train came along. He was badly mangled. Another negro, seeing he was drunk, got him off the track just a while before, but he got back on and went some distance and lay or fell down, and when the train came upon him it could not be stopped in time. No blame attaches to the railroad. From an Old Journal. Through the kindness of friends a copy of an old paper, the Salisbury Western Carolinian, published in June 1823, has fallen into our hands. From it we take the following items: "Died at the house of Doctor L. Les Delley, in the town of Havana, in the Island of Cuba, on the 24th of April, 1823, Doctor Wallace Alexander Henderson, eldest son of Maj. Lawson Henderson, of Lincoln county, N. C., who was born in said county on the 2d December, 1799. At the age of ten years, Dr. Henderson commenced reading the Latin language with the Rev. John Robinson, of Cabarrus county; and finished reading the Latin and Greek languages with the Rev. John M. Wilson, of Mecklenburg county. From thence he was removed to Greenville College, in Tennessee, where he obtained a diploma at the age of nineteen. Shortly after leaving college, he returned to Lincoln, and commenced the study of physic with Dr. William M'Clean; which he continued afterwards with Dr. M'Kenzie, of Charlotte. After finishing his course of reading, he went to the city of New York to attend the medical lectures; where, in the winter of 1821—22, from the severity of that climate, he contracted a pulmonary consumption, which, after his return to North Carolina, progressed with such rapidity and violence as to disqualify him from attending to the duties of his profession. He therefore resolved to try the effects of a sea voyage, and a more Southern climate. Accordingly, he left Lincoln on the 5th of Nov. 1822, for Charleston, S. C.; and on the 1st of Dec following, sailed from thence for Havana, in the Island of Cuba. From Havana he traveled to Matanzas, and into the country about twenty miles to the east of that place, where he continued some time; and in March returned to Havana, on his way to North Carolina; where, at the house of Dr. L. Les Delley, he resided till his death,—and where he had placed himself in readiness to embark for his native country." "Maj. Daniel M. Forney, for the Senate, Col. Peter Hoke, Col. Oliver H. Holland, and Mr. Shipp, are candidates for the next General Assembly from Lincoln county." Capt. Alexander is What He Has Always Been: A Democrat. WASHINGTON, March 11.—It appears that Representative Alexander, of North Carolina, without his knowledge or consent has been classed by some of the Third party people as being with them in sympathy and purpose. To the Times' correspondent to

day Mr. Alexander most emphatically repudiated and denounced all such statements without regard to their source or authority. He said: "I have never been anything but a Democrat, nor will any other party or code of politics ever entice me from my allegiance to that party. I belong to the Alliance, it is true, but it does not conflict with Democracy." Mr. Alexander wants the people of North Carolina to understand as distinctly as language can convey the information that he has no sympathy with the third party movement.—Richmond Times. [The Progressive Farmer will please copy.—ED. COURIER.] Notes. Who will get up a Chataqua Circle? Lincolnton might afford one. Reading Clubs used to afford pleasure and profitable entertainment. There are some good libraries in town and our young folks are expected to be informed, but they cannot be so, unless they read. The newspaper everybody reads and most people have time to read nothing else. The Chataqua serves to quicken thought about important historical events, eras and persons, scientific discoveries and beneficent organizations, etc. And by bringing a company together to talk about some important matter, a desire to be informed is awakened which urges research and inquiry, and persons, without neglecting usual duties and engagements, who want to be informed, will find time to read and become more companionable and less egotistical. The novel does not do this, and one whose mind feeds entirely on it, soon loses capacity for investigation and patient growth. Will not some one take this matter in hand and organize it? The 7th of March was the Anniversary of one of the most beneficent organizations in our country. It is not yet a hundred years old, but it deserves the favorable consideration and hearty support of all good men. In a Chataqua circle its object and claims could be canvassed and the great organization popularized in our homes to our credit and honor. I refer to the American Bible Society, founded March 7th, 1804. We cannot be wrong in trying to cherish an intelligent veneration for the men who founded such an institution. It is cause for grateful encouragement to the people of our country to learn that two great States have emphatically taken their stand in favor of closing the World's Fair on the Sabbath. Kentucky and New York have done it. If a few other States will make their appropriations conditional upon such closing, the Commissioners will soon make an announcement on the subject that will send rejoicing through the homes of the people and awaken a genuine American enthusiasm in regard to our approaching World's Exposition at Chicago. Opportunity for a good and helpful discussion of the Sabbath question might be discussed in a Chataqua circle. The organ of the Sabatarians in this country may be disturbing the consciences of some. Some districts of our State are sending petitions to their Representatives in Congress to urge the closing on Sunday. It is well. Let every newspaper give expression of the people on the subject and our representatives will defend them when the matter comes on. This writer believes he properly expresses the sentiment of the people of Lincoln county when he says, let the gates of the Exposition be closed on Sundays. This winter will be remembered as the Frosty Winter. How many beautiful white frosty mornings we have seen! A thoughtful contemporary writes: "How glorious is a winter landscape on one of these just departing February days. Many people admire trees in their summer garb, but they are almost as beautiful single or in mass, on winter days that are bright with sunshine. A distant wood on such days standing in naked and clustered majesty with that sweet purplish air that fills all the intervals and open spaces, is just enchanting. Then every tree is a study, its body and branches standing out bare and distinct on the clear sunny air, and every stem and twig and spray clearly out against the sharp wintry sky. Branches and limbs of every tree are so different that each forms a distinct object of investigation and

source of pleasure from the great variety of aspect. If there is one scene in nature that will bring back to jaded nerves and feeble pulse the joyous thrill that nature gave in youth and health, it is a winter morning sunshine on winter landscapes here in our glorious climate; then everything seems to whisper glory, glory, glory; and the heart, too, responds glory." The beautiful verse of Addison will amid such scenes often lift the heart and moisten the eyes: "When all thy mercies, O my God! My rising soul surveys, Transported with the view I'm lost In wonder, love and praise." "The quickening and controlling elements in modern civilization are Christian ones, often hidden from those who respond to them, and who deny and repudiate that very religion which is their real source; these forces are guiding, coloring, giving tone to feelings, manners, thoughts and conduct of men who are ignorant that they are what they are, because of that very revelation they deny, but whose atmosphere they breathe and whose influence they cannot escape." R. Z. J. How to Help your Town. The following suggestions as to how one may help his town are offered by an exchange: Talk about it. Write about it. Be friendly with everybody. If a poor man starts a project help him. If a rich man starts a project encourage him. Don't talk the town down to strangers. Sell all you can and buy all you can at home. If you are rich, invest in something; employ somebody. If a project to improve the town comes up, don't hoot—investigate. Don't curse the town if you are not making money; perhaps it is your own fault. Don't let your personal antipathy get away with your business judgment. If you have not the energy to go ahead follow the men who have. Be courteous to strangers who come among you, so they will go away with a good impression. If you don't like your own town well enough to speak well of it, get out of it and make room for better men. Always cheer on the man who goes for improvements. Your portion of the cost will be nothing but that which is right. Do not kick at any proposed improvements because they are not at your door, or fear that your tax will be raised fifty cents. Don't be afraid to stick your hand down in your pocket for money to help a public enterprise. You owe something to your community for being so kind as to patronize you. ONE WORD. I come to you with a small affair that you may need. In England, the continent, and many foreign countries, myself and wares are well known. Many American families on their return from abroad bring my articles with them, for they know them pretty well, but you may not be one of these. Confidence between man and man is slow of growth, and when found, its rarity makes it valuable. I ask your confidence and make a reference to this journal to indorse that confidence. I do not think it will be misplaced. I make the best form of a cure—an absolute one—for biliousness and headache that can be found in this year. The cure is so small in itself, and yet its comfort to you is so great—20 minutes being its limit when relief comes—that it has become the marvel of its time. One and a half grains of medicine, continued with sugar, is my remedy, in the shape of one small pill, known to commerce as DR. HAYDOCK'S NEW LIVER PILL. It is old in the markets of Europe, but is new to North America. The price is as low as an honest medicine can be sold at, 25 cents. Send a postal card for a sample vial, to try them, before you purchase. DR. HAYDOCK, 63 Fulton St., N. Y. March 18 1892. The LINCOLN COURIER can be had for \$1.25 a year, cash in advance. Hartzoke and others vs. W. H. Hoover Adm'r of the Estate of Daniel Hallman, dec'd. State of North Carolina. To Wesley Swain GREETING:—Whereas, since the probate of the will of Daniel Hallman, dec'd., M. M. Hoover and his husband, S. L. Hartzoke heirs at law of Daniel Hallman, dec'd., filed in this court a caveat to the probate of said paper writing as pronounced by Andrew Hallman and others; and show: 1. That such paper writing is not the last will and testament of Daniel Hallman, dec'd., and that at the time of the alleged execution of said instrument and at the time same purports to be executed the said Daniel Hallman was insane and utterly incapable of making a will or disposing of property intelligently. 2. That at time said paper writing was executed said Daniel Hallman was of unsound mind and not of disposing memory, and the said Andrew Hallman, the proponent and others, siding and abetting did unduly influence, over persuade and compel the said Daniel Hallman, and by this treatment cause him to sign said paper writing offered as his will, by the proponent, when in truth and fact he did not intend to make said will and was incapable of making same. 3. That the said Daniel Hallman had made his last will and testament several years prior to the time he became of unsound mind and memory and had filed it in hands of his friend for safe keeping until it should come into effect,—which will made a very different disposition of his property and such will can be set up by the witnesses to same. You are therefore notified to be and appear before the Judge of our Superior Court at a Court to be held for the county of Lincoln at the Court House in Lincolnton on the fourth Monday after the first Monday in March 1892, and make yourself proper party to said proceeding if you choose. You will further take notice that if you fail to appear within the time required by law, the executors will apply to the Court for the relief demanded. Given under my hand and official seal this 10th day of Feb'y 1892. C. E. CHASE, C. S. C. Lincoln Co., N. C. Feb 12 1892 6t
