The President of the United States, in his annual message to Congress, recommends and urges the immediate passage of a measure known as the Lodge election bill which involves a radical revolution in the election machinery of this Union, both State and National, and its passage will be fatal to the autonomy of the States and to the cherished liberties of the citizens; and we most solemnly protest against the passage of the said election bill and we most earnestly petition our Senators in Congress to employ all fair and loyal means to defeat this unpatriotic measure, which can result in nothing but evil to our common and beloved country.—National Alliance Resolution, passed at Ocala.

A PHYSICIAN AT GOLDSBORO has decided, it is said, that Dr. Exum is both physically and mentally incapacitated to make the campaign.

HON. A. LEAZAR was nominated at Salisbury last week as presidential elector for this district. In this the convention did a wise thing as Leazar has shown himself to be a loyal Democrat.

WHILE SOME OF THE Third party papers are accusing Cleveland of being too favorable to pensions, the Republicans are charging that he lost 25,000 votes in the last campaign for his opposition to pensions. The Republicans are right when they say Cleveland opposed pensions. Cleveland knew it would be a terrible drain to the South to heap up unnecessary pensions and he said he was the president of the whole people.

SOME OF THESE Third partyites have become so accustomed to talk of Wall Street that they have not yet ceased to speak of Cleveland as being in league with Wall Street, when they ought to know that he was nominated against the protest of a full delegation from New York. Cleveland was nominated independent of New York and of the politicians. Behold how men's prejudices will mislead them.

WE BELIEVE ABOUT EVERY thinking man is ready to abandon the warehouse sub-treasury system. Now they are for a system that

may enable them to borrow money on real estate. Such a system as this will ruin the country, because it would soon place all the land into the hands of "landlords". What benefit could accrue to those who do not own real estate? They could not borrow money. The result would be that those owning land would borrow money from the government at a cheap rate and loan it to non-land owners at a high rate and take a mortgage on the latter's chattels. Would that be to the interest of the poor and the laboring class? Think on these things.

MR. WILSON, THE THIRD PARTY candidate, has been challenged to meet Dr. Crouse and other speakers. He has not yet said that he would, but said he would if his committee thought it proper for him to do so. We respectfully ask that his committee grant him the privilege to participate in a joint discussion. The Democratic speakers stand ready to meet any of the Third party speakers. The fact is if the Third party wants to do the fair thing, let them meet the Democrats and let both sides have a hearing. When Wilson falls into the hands of Dr. Crouse, he will see his fancied financial schemes and sub-treasuries dwindle into insignificance and vanish. The things that he has been trying to paint black by his harangues will become as white as snow under the touch of the doctor's logic. We do not blame Wilson for not being over anxious about discussion, as he has a weak cause to defend.

HON. JNO. S. HENDERSON was nominated for Congress at the Congressional Convention of this the 7th district, by acclamation last week. Henderson is one of the purest and ablest representatives that the State has ever had. He has a fine record as was ever made in the House of Congress. He is a gentleman worthy of the confidence of every southern citizen. It is a shame that any set of white people of this district should presume that they could find a purer, nobler, more honest, abler and worthier representative than Henderson, and especially should they be ashamed of presuming that a man like Shuford is fit to succeed our Henderson. We have learned with pleasure from newspaper reports and from persons present, that in a joint discussion at Salisbury Henderson literally tore Shuford to pieces with arguments. So thoroughly has Henderson succeeded in showing up the facts that Shuford has been bound to confess that his only objection to Henderson is that the latter is for Cleveland! And this is about the whole sum and substance of these Third party leaders' purpose. It is simply to beat the Democrats or to break up the Democratic party. The Republicans say they are going to beat the Democrats "with the People's party". Of course the Democrats are not going to be beaten; but if there is any hope for any such thing it is just as the Republicans say: if the Democrats could be beaten at all it could only be done by the Republicans "with the People's party". The Third party is a Republican annex and when the honest farmers, who have allowed themselves to be led away from the true Democracy, see the facts just as they are, we believe they will return to the fold from which they have wandered. But whether a single Third partyite returns or not, the Democrats are safe as it now stands. Henderson will be returned to Congress by the vote of next November.

PROF. GEORGE WASHINGTON HAHN has seen fit to return his last copy of the LINCOLN COURIER to the editor marked "refused". We knew the COURIER had been getting in some heavy work recently. We knew that the force of its arguments and its statements of facts would be hard to withstand by a Third party leader; but we did not think that there could be any danger of its getting too forcible to be withstood by Prof. Hahn. But it verily appears that in order to avoid being convinced and brought into the Democratic fold, Prof. Hahn was obliged to cease scanning its columns. The fact is the COURIER is getting to be quite a dread in certain parts of the county to the Republican party and its annex. We know there are a few honest men in the Third party who do not think that their party is a Republican annex, but that does not hinder it from being so. Republicans do not hesitate to make bold the fact that the Third party is their only hope in the State. One wing of the party is bent on beating the Democrats nationally with the Third party, by not putting out a State ticket, while the other wing is bent on beating them both na-

REPUBLICAN CONVENTION

A Republican convention was held here last Saturday. The meeting was called to order by J. A. C. Barkley. Postmaster J. B. Fortune, of Shelby, was introduced to the audience of about 100, made up of Republicans, Democrats and Third partyites. He alluded to his having been a candidate for congress, and said the boys over the mountain beat the boys down here and gave the nomination to another. He said he thought there ought to be an ordinary man like himself sent to Congress occasionally to look after minor matters. For instance, the government, he said, ought to furnish a safe for each post office and other things that are supplied by postmasters. He said the Alliance went into the Democratic convention and fused with the Democrats and outfused them, and nominated Mr. Carr.

Mr. Fortune spoke in favor of an

international money conference. He said Cleveland had lost in the last campaign 25,000 votes on account of his opposition to pensions; and we believe Mr. Fortune let the truth out before he knew it, when he said that.

He said the Republicans had the balance of power in Cleveland Co. and that they were going to make use of it.

In the first part of his speech he tried to prove that a protective tariff did not effect the price of things. A little later on he proved how it did effect the price of certain articles, but omitted to mention the most important goods effected and how much. He proved that the tariff enabled manufacturers to build up, and at the same time that it did not effect the price of goods! How in the name of the commonest horse sense can the tariff protect the manufacturer without increasing the price of goods? Can a business be protected and not be protected at the same time by the same law? If the tariff protects manufacturers it must necessarily do so by increasing the price of goods manufactured. No man with three grains of sense can help but see that fact. How men could possibly be blinded by such a bundle of inconsistent arguments, or rather assertions, as Fortune delivered himself of last Saturday, is more than we can comprehend. We do not believe he succeeded in the least in fooling anyone.

Mr. Fortune is, perhaps, a jolly, clever citizen, but alas, such doctrine as he is teaching! However his speech fell flat here.

One thing more we were about to forget to notice. He took the greatest pains to speak encouragingly of the Third party and its candidates. He poured out words of honey all through his speech to the Weaverites. The love that the Republicans are manifesting towards the Third party is unbounding. And yet you ask one of them if he is going to support Weaver or "Congressman" Shuford and he will tell you nay quick enough. Such hypocrisy was never before witnessed. In the Third party, the Republicans have an annex of which they are exceedingly proud, but they will both be defeated.

After Fortune's speech the convention adjourned till after dinner. When they had again come together, Dr. C. L. McCaul was elected permanent chairman and W. C. Malen secretary.

Dr. C. L. McCaul and W. C. Malen were appointed delegates and Adolphus Shible and T. F. Stacy, alternates, to the State convention. Jno. P. Mullen and "Jake" Williams delegates to congressional convention, with Caleb Hoyle and W. H. Ormswell as alternates. After some consultation, they then appointed J. B. Shelton and Levi Sain to senatorial convention, with Jno. A. Leonard and L. A. H. Wilkinson as alternates. The delegates were unopposed. Several Republicans have told us that the Third party is foolish to think the Republicans would support their ticket. The Republicans say that they are at sea as to putting out a county ticket. Their purpose is to use the Third party to beat the Democrats, and they are not exactly decided yet which is the best way to do it. In the meantime, it behooves the Democrats to get their eyes open and save the State from Republican rule.

Prof. George Washington Hahn has seen fit to return his last copy of the LINCOLN COURIER to the editor marked "refused". We knew the COURIER had been getting in some heavy work recently. We knew that the force of its arguments and its statements of facts would be hard to withstand by a Third party leader; but we did not think that there could be any danger of its getting too forcible to be withstood by Prof. Hahn. But it verily appears that in order to avoid being convinced and brought into the Democratic fold, Prof. Hahn was obliged to cease scanning its columns. The fact is the COURIER is getting to be quite a dread in certain parts of the county to the Republican party and its annex. We know there are a few honest men in the Third party who do not think that their party is a Republican annex, but that does not hinder it from being so. Republicans do not hesitate to make bold the fact that the Third party is their only hope in the State. One wing of the party is bent on beating the Democrats nationally with the Third party, by not putting out a State ticket, while the other wing is bent on beating them both na-

tionally and in the State by putting out a State ticket. For the proof, we simply refer to the Raleigh Signal. Both wings are courting the Third party and feeding it with boozing words: Farmers, beware of the trap they are trying to get you into.—Prof. Hahn will please pardon us for getting off the subject that gave rise to this little editorial. More important matters came to our mind and we forgot about our friend Hahn.

MR. PETER M. RHYNE was here last Saturday to represent Gaston county at the Republican convention. Here is a piece of news he made bold to relate to us. He said: "We are going to beat 'em in Gaston." "Beat whom?" we asked. "Beat the Democrats." We asked "with whom," and he replied "with the People's party." Those are his exact words. The conversation occurred in the court house just as the convention was assembling. What do the "People's party" think of the fact that they are being used as a tool to "beat the Democrats" and elect the Republicans? That is just what the Republicans are counting on doing. Pete Rhyne is a revenue "Store Keeper" and has been for a long time and is, therefore, a pretty good representative of Gaston Republicans. How these Third partyites, who claim to be opposed to the present system of the national government, can reconcile themselves to the plan of joining in a movement to perpetuate that system is more than any reasonable mind can comprehend. The Third party simply amounts to a Republican annex. The Republicans are rejoicing over it and they are going to use it for all it is worth to break the "solid south," and they hope to open the way for their future success. Mention Third party to a Republican and you bring a smile every time. They have no more use for the Weaverite principles than has the "man in the moon," and they have no notion of voting with them. The Democrats who have left the faith of their fathers and the eternal political truths of their party as they are revealed in Democracy, will regret the step they have taken sooner or later. It is surprising that they cannot see the folly of their course. Many of them are seeing it, and many more of them will see it, we believe, before the election.

Tried and Found Wanting.

The Democratic party of Tennessee tried Gov. Buchanan and found him wanting. Therefore the Democratic party did not renominate him, and Buchanan runs as an independent, appealing especially to the Third party to support him. The recent labor troubles in Tennessee have demonstrated Buchanan's unfitness for the position of Governor. His timid policy has not only caused much needless bloodshed, but it has given the State a bad advertisement, necessarily injurious to its material prosperity. Capital will be slow to venture in a State where lawlessness has been allowed to reign for months unchecked. If Buchanan had manfully ordered out the military at once and thus checked the insurrectionary miners in the beginning of their violent measures he would have nipped their riots in the bud. He was fearful of the political effect. He displayed his real character, and the result that he is denounced by all classes.—Richmond State.

Dr. Exum, Third party nominee for Governor of North Carolina, was arrested a few days ago, tried and fined \$7 for using profane language in the presence of ladies in the post office of Goldsboro. It is further stated that he will be indicted for perjury. Again the News exclaims: "God save the State," from Exum.—Charlotte News.

Congressman Henderson on
The Financial Record of
The Democratic Party.

Last Saturday we republished from the Salisbury Herald, the following extract from Congressman John S. Henderson's recent repeated applications for the number of the Chronicle containing the article. We reproduce it. The Salisbury Herald reports Mr. Henderson to have said:

"The principle question before the people of the United States was the financial question, and upon this the democratic party stood squarely by the people. He defied any man in the house to point out any bad financial law upon the statute books that was put there by democrats. \$374,000,000 of greenbacks was in circulation to day that would have been retired but for the vigilance of democrats. \$8,000,000 of silver dollars, "the dollars of our daddies," were coined from 1792 to 1873, when silver was demonetized. The demonetization of silver was a swindle and was passed without notice to the people, or Congress. No man could denounce this swindle more strongly than himself. The 44th Congress—the first democratic Congress since the war—passed a free coinage bill, but it died in the Senate. The 45th Congress passed a similar bill, which also passed the Senate, but was vetoed by President Hayes. So strong was the sentiment of the people in favor of this measure that it was passed over the President's veto. Under the operations of this law—the bland act—\$450,000,000 has been put in circulation. Every cent of this is democratic money and is circulated among the common people. Not a dollar of it would be in circulation to-day but for the strength and vigilance of the democratic party. \$800,000,000 in greenbacks and silver is in circulation to-day, that would have been retired but for the strong democratic opposition to the republican schemes. The republicans elected a majority in the fifty-first Congress and repealed the Bland act and suspended the coinage of the Bland dollars, in the place of which they required the secretary of the treas-

ury to purchase \$4,500,000 worth of silver bullion each month and issue treasury notes therefor. \$100,000,000 of these notes are in circulation. The republicans had tried to stop the circulation of these, too but democrats had prevented it. It is due only to the vigilance of democrats that over \$900,000,000 of the \$1,600,000,000 in circulation to-day is not retired and the amount reduced to less than \$700,000,000. The people want and need more money. He was always willing to vote for an increase of the circulating medium, and will do so again if re-elected. The republican party is pledged to retire \$900,000,000 of the \$1,600,000 in circulation, and if the people elect a republican Congress and President this year, the Sherman bill repealing the act of 1890 will be carried into effect. The people are complaining of hard times now, but times will be harder indeed if the republican scheme of contraction is carried out. It is strange, when people are suffering from bad laws of one party for them to turn round and pass a verdict of guilty upon another."

Best Cure For
All disorders of the Throat and
Lungs is Ayer's Cherry Pectoral.
It has no equal as a cough-cure.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P. M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Center, Kans.

La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. Williams, Cook City, S. Dak.

AYER'S
Cherry Pectoral
