S. O. Wilson, the Gideonite, and State chairman of the Third party. was brought to trial in Raleigh last Tuesday. He protested inneence but he entered the plea noto contendere (unwilling to contend) and agreeing to pay the cost. The fact is it amounts to the same thing as a submission. The cost in the case is said to be nearly \$100. We will publish the proceedings on the case in full next week.

Colonel Elliot F. Shepard, a dispatch dated from New York meagre ly appounces, dies at his residence in that city at 4 o'clock yesterday afternoon. His death must have been somewhat sudden in its nature as, only a few days since, he entertained Mr. Herbert, Secretary of the Navy, and a number of other friends at dinner. Col. Shepard was proprietor of the New York Mail and Express, founded, if the Observer mistakes not, by the late Major Bondy, and, except its politicswhich are unpardonable-is a vers readable paper. He married a daughter of the late Wm. H. Vanderbilt, and was a man of means and business influence in New York city. - Charlotte Observer.

Hoke as a Venus of Mile.

Wonder if Secretary Hoke Smith remembers the trick played on him by the miller of Motz's mill at Lincolnton when he was accustomed to pay that place a weekly visit holding a bag of corn down an a mule. While waiting on his grist he and two other boys took a swim down the creek to the river. While gone the miller his their clothes and made them believe some one had stolen them. Hoke did some tall pleading with the miller to go after other clothes, but he was entirely too busy to leave the mid. That miller now lives in Newton and his name is Uncle Billy McCashn .- Newton Enterprise.

Correspondence of the Country

Washington, March 27, 1893:-Economy is the watchword in every department of the government and it will not be changed as long as democrats are in control. One of the very first things that President Cleveland impressed upon the minds of the members of his cabithat each of them should be liberal in the use of the pruning knife in cutting off sinecures and useless employes under them. Something has already been done in the curting off line, but what has been done is as nothing when compared with what will be done. President Cleveland wishes the heads of the departments to anticipate the finds ings of the Congressional joint commissioner, which has already organzed, for the purpose of investiga. ing the work of the government departments, with a view to a reduction in the number of employes and an improvement in the present slow and in many instances combersome methods of transacting business, wherever possible. To change the methods will in many cases require Secretary Carlisle learned that an ning with all his might-\$1,800 clerk-a woman-had only during the last twelve months. He this had been allowed. "Because she is backed by Congressmanmembers of the House;" "That is oo excuse at all," said the Secretary; "dismiss her at once, and uns derstand that all the clerks in this department have got to work for

their salaries or get out." Almost as many misstatements have been made concerning the status of the extra session of the Senate as about the intentions of President Cleveland. Long stories have been written, and editors who knew no better have printed them, about the Senate remaining in session against the wishes of the President, and about the annoyance it was causing him. As a matter of fact, the extra session only continues at the pleasure of the President, and as soon as he shall notify the Senate that he has no further communication to make to it, adjoorns ment will follow, onless precedents are all set aside. So powerful is precedent that at this writing it seems probable that the democratic officers of the Senate will not be elected at the extra session, ala though adopted to proceed to elect them. The republicans entered a protest against this proceeding on the ground that it would be a violation of precedent, and the indications are that the democratic Senators will not act against that pro-

The reports for and against the seating of the appointed Senators from Montaga, Washington and Wyoming, were presented to the Senate today. It is expected that the debate will begin at once and that the Senate will hold daily ses. sions until a vote is reached. The

England and France having raiss d their ministers to the United States to the dignity of Ambassa. dors the new democratic representatives of the United States to those countries will, in accordance with a law enacted by the last Congress be Ambassadore, instead of ministers plenipolentiary, as heretofore. This will of course, add no honor to our ministers in the eyes of Americans, but every one at all familiar with the customs and usages of European capitals knows that it will add much to their prestige abroad.

Secretary Hoke Smith's first land decision was against the Southern Pacific Railroad's right to a large tract of land which it has claimed and kept from being opened to settlement. This decision not only opens this land to settlement, but i is a refutation of the silly republican charge that it was cornoration influences which put Secretary Smith into the cabinet.

A Horse's Mad Dash.

PINEVILLE, March 27 .- As Rev. Mr. Bonner was returning from Hebron church yesterday evening with his two little boys, aged six and four years, in a buggy, h's horse became frightened and dashed off with terrific speed, throwing Mr. Beoner and the youngest child out. The horse ran on with the other little fellow on the seat bolding with both hands and the lines daugling on the ground. Some colored people at a church saw the horse in the distance, coming, and ran out to stop it, but the frantic animal plunged at break-neck speed through the terror stricken crowd, one of whom called to the little boy to get down on the bottom of the buggy.
