Wedding Bells.

One of the prettiest marriages that has ever occurred in Lincolnton, took place in the Episcopal Church at noon Wednesday. The contracting parties were Mr. Wm. Bryan Grimes, one of the leading young business men of Raleigh and Miss Elizabeth Justice, one of Lincolnton's most attractive and popular young ladies. The church was simply and tastefully decorated for the occasion, and sweet music was rendered by Rev. Vardrey McBee who wore his robes. The ushers were Mr. Harry Martin, of Washington, and Mr. Jno. Scott, of Charlotte, Mr. Archibald H. Davis, of the U. S. Navy acted as best man and entered with the groom from the vestry room. As soon as they and Rev. W. R. Wetmore, who performed the beautiful ceremony, had taken their places, the Maid of Honor, Miss Mattie McBee, followed by the bride on the arm of her grandfather, Mr. V. A. McBee, marched up the aisle. The bride and maid of Honor wore white silk with veils and carried exquisite bouquets of roses. After the ceremony the bridal party repaired to the residence of Mr. McBee and partook of the wedding breakfast. Mr. and Mrs. Grimes left on the 2:10 train for Chicago, where they will remain two weeks before returning to Raleigh their future home. The present were numerous and handsome and attest the high esteem in which the bride and groom are held.

Farmers Who Read.

There are now on the mailing lists of the N. C. Agricultural Experiment Station, which have just been revised, 13,000 names of farmers from North Carolina. The bulletins are mailed free to those request them and show their appreciation by reading them. All the newspapers in the state receive each publication of the Station as it is issued, as well as various news notes which interest the general reader. The bulletins contain matters which are of immediate interest and value to the agriculturists of the State and are written in plain language for unscientific readers. Agriculture is based on science, and accordingly scientific matters necessarily receive attention at the Station. The result of these scientific experiments are not included in the general bulletin issue, but are printed in technical bulletins sent only to scientists, and those who especially request them. Summaries of the technical work appear in the general bulletins of the Station. Publications are sent free to all within the limits of North Carolina upon application; to others a small fee is charged.

Courtesy In A Host.

The independence displayed by servants in America invariably forces itself on the attention of visitors from Europe. A well-known official of the English post office tells a very good story on this point, says the Boston Traveller. Some years ago he visited America on business and while staying at New York he was the guest of a prominent officer of the Western Union Telegraph company, a gentleman whose name is familiar to most Americans.

When the Englishman retired at night he placed his boots outside the bedroom door, where they were duly observed next morning by his host, who asked his wife to get one of the servants to clean them.

"Oh," replied the lady, "he must get them cleaned at the corner of the street, just as you do."

"No my dear," remarked her husband, "I can't ask Mr. — to do that. Just offer one of the servants half a dollar to clean them."

"I have done so," said the lady, "and they declare they won't."

"Well, if they won't I must," and forthwith the American seized his guest's boots and polished them in a highly creditable style.

On the morning of the Englishman's departure his friend accompanied him to the steamer, and just as the whistle was blown to indicate that all but passengers must go on shore, whispered in his ear: "I'd tell you something that will amuse you. I have cleaned your boots all the while you have been in New York."

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.
