Thanks, Brother.

We appreciate, very highly, a letter of commendation from a prominent citizen of an adjoining county in regard to the contents of the last issue of The Courier. We will assure the brother that our most earnest efforts will be to fill our columns, from time to time, with matter of a lightened character. We feel that we are placed here for a purpose and we know that we will have to give account some day for the manner in which we have discharged our duty.

Washington Letter.

Correspondence of Columbia. WASHINGTON, D. C. June 17th. ... Secretary Carlisle brought news from Kentucky that was very gratifying to President Cleveland.

WANT THE NEGROES TO GO.

Too Many in S. C. for Harmony and Safety.

We have long asserted and still hold to the opinion that there are too many colored people in South Carolina for the good of both races in the State, under existing political conditions and relations. It is impossible that the colored people can be allowed to exercise the political power and influence in the State to which their superior numbers entitle them, under the Federal Constitution, and their continued presence in the State in such numbers while such power and influence is denied to them by whatever means and while they remain identified with a powerful outside political force, must continue to be a source and cause of serious trouble and injury to both races.

the party holding together. Attorney General Harmon left Washington yesterday for his old home, where he will as rapidly as possible arrange his private business preparatory to his residence at the national capital.

Captain Howgate's second trial for embezzling money from the government while acting as disbursing officer of the Weather Bureau will close early this week.

That is the Way the Kentucky Primaries Have Turned Out. CINCINNATI, Ohio, June 18.—A special to the Post from Louisville, Ky., says that Hardin seems to be in the lead in the gubernatorial fight, but Clay is such a close second that the result is in doubt.

On the currency question, it looks as though the gold people may win as they have up to this time a pretty fair majority over the silver advocates. There are enough uninstructed counties and counties not yet heard from, however, to throw the convention either way.

The Enquirer figures out the result as follows: Votes in convention 879; necessary to a choice 441. Number heard from 627; instructed for Governor Hardin 273; Clay 241; uninstructed 113.

LOUISVILLE, Ky., June 18.—The Courier-Journal gives returns from 115 counties out of 119 in the State on yesterday's primaries. The counties unreported have only 13 delegate votes, being Clinton, Elliott, Knott and Spencer.

The best cure for the conceit of the man who thinks that he can do a given piece of work better than anybody else has done it is to give him the chance to make the trial.

Those interested in the attempt of the republicans to postpone or straddle the silver question will keep their eyes on Senator Dubois at the convention of the republican national league, to be held at Cleveland, Ohio, this week.

State from the political evils it has suffered for 30 years in the open and legal disfranchisement of the negroes, or in the emigration of enough of them to render the suffrage of the rest a matter of no practical or general concern.

New Way to Collect Old Debts.

A new way of collecting old debts is being introduced in Maine towns. The introduction of the scheme is a novelty too. A young woman of alleged great attractiveness is the advance agent, and between her own attractions and those of her scheme she is said to have complete success.

What Do We Weigh?

A French doctor has pointed out that several fallacies are common with regard to the weight of the human body. The man who congratulates himself on his gain of several pounds in weight over a given period may have no cause for rejoicing, for he may be under a delusion.

As a matter of fact the weight of the body is continuously changing, owing to innumerable influences. On a warm day after breakfast a man will lose more than a third of a pound per hour.

Spring Medicine

Is a necessity because the tonic of winter air is gone, and milder weather, increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills.

Beware of Ointments for Cancers Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them.
