DOWIE GOES TO THE WALL.

Receivers Named For Zion City, Which Has a Population of Ten Thousand and is Said to Represent an Expenditure of Twenty Million Dollars.

Chicago Dispatch, 1st.

Financial difficulties which began during the crusade of John Alexander Dowie, the self styled "Elijah II" and his restoration host to New York a month ago and which have been rapidly increasing since Dowie's return, culminated tonight in the Federal Court's taking possession of all the property controlled by Dowie in Zion City, Ill. This town, which was founded two years ago by Dowie, has a population of over 10,000, is the general headquarters for Dowie's church, and is said to represent an expenditure of $20,000,000.

Frederick M. Blount, cashier of the Chicago National Bank, and Albert D. Currier, a law partner of Congressman Boutell, were appointed receivers of the property. Their bonds were fixed at $100,000 by Judge Kohlsatt of the United States District Court, who made the appointment in the petition of several creditors. The receivers left for Zion City tonight to take possession of the property.

Bankruptcy proceedings against Dowie were based on the allegation that he is insolvent and that while in this financial condition he committed an act of bankruptcy by making a preferential payment, on November 2nd, to the Streeter Lumber Company for $3,770. Dowie has been hard pressed by his creditors, especially since it was announced that his recent mission to New York had proved unsuccessful, financially.

Dowie is known to have accumulated a large sum at the head of the Christian Catholic church, the assets of the organization being estimated at between $20,000,000 and $30,000,000. There was a large outlay of money, however, when Zion City was started. The lace and candy industries were started and as both of these ventures have never been a paying investment a great deal of money was tied up.

Last Wednesday Dowie's first confession of weakness was made at a rally in the tabernacle at Zion City. "A lot of you people have cash in your pockets," Dowie said, to his followers. "Dig down and get it out. It is God's and we need it in his work. You are cowards if you do not give it up. Deposit it." Dowie talked in the same strain for more than an hour, tears glistening on his cheeks as he told of the financial straits in which the Zion industries found themselves.

Instead of frightening many into depositing, this appeal sent a long line of people to the bank on Friday, where they lined up at the paying teller's window, drawing out their money. Less than $3,000 was deposited in the bank on Friday, while the amount withdrawn was twice as much. Late in the afternoon A. W. Graham of Waukegan tried to withdraw his account of $300 and was told he would have to give 30 days' notice before he could get his money.

Yesterday another effort was made by Dowie to get funds but the depositors who appeared were few and the deposits were chiefly in trivial amounts. Today Dowie asked the members of Zion more urgently than ever for money. He declared that he must have $500,000 without delay. In the efforts to remedy the condition of affairs at Zion City hundreds of letters were sent out daily to Dowie's followers in other parts of the country. In these letters all Dowieites are urged, almost commanded, to sell their farms, stores and everything else and come at once to Zion City and take up the work of the church. It is declared that the employees of the manufacturing industries have not been paid in from four to six weeks. What little they have received is said to have been paid entirely in the Zion City coupon books. Early in the week before last Dowie made a trip through the various shops. He told his followers and others that they must either wait for their salaries or must endure a substantial cut in wages. This was agreed to.

The receivers, with their attorneys and Custodian Redieske, with six deputy marshals, went out to Zion City tonight to serve upon Dowie the notice of the receivership. Redieske and his deputies went to the bank, while the others called upon Dowie at his residence. As the officers were about to demand admission to the bank, a man ran from a rear door. One of the deputies overtook him, and a second man came running from the bank, shouting: "Let me have those papers; I will get away with them." Redieske threatened to place them under arrest unless they returned at once to the bank, which they did. He then placed the bank, and the three men in it, under a guard. While this was taking place at the bank, the receivers and the attorneys called upon Dowie and read to him the petition and order which placed Zion in the hands of a receiver.

Appeals to His Followers to Raise Funds.

Chicago Dispatch, 3rd.

A great gathering of the Dowieites was held at the tabernacle in Zion City last night. It was called by Dowie for the purpose of starting a fund of $1,000,000 with which to pay off all the indebtedness that hangs over Zion City and himself. The outpouring of his followers was not one to bring cheer to the heart of the general overseer of Zion. The tabernacle seats 6,000 people and usually all these seats are taken at special meetings called by Dowie. Last night the hall was not over half filled and the gathering was not as enthusiastic as might be desired by a man who was in immediate need of funds. Dowie gave to his followers a statement of the financial situation of Zion City, told them that the assets were ample, the only trouble being that he was not able to realize upon them at once.

"The flesh pots are the cause of our coming here tonight," he said. "They are a joke to me. For an hour the dogs have thought they led me. But, beloved, we are going to kick them out now. We will kick them out for all eternity.

"Those devilish parasites, the reporters, came to me today. They wanted to know what I would say to you tonight. Did they learn from me?"

Cries of "No, no."

"I tell you we will run them out of Zion. I knew they were coming before they attempted to pollute Zion. I knew it by the stench that came ahead of them."

It is declared by the receivers for Zion City that the affairs of Dowie are in a worse condition than at first appeared. Receiver Currie said tonight: "I believe that Dr. Dowie will be able to pay off his obligations in time. Just how long this time will be is something that we will not be able to tell until we have made a thorough investigation of all his affairs. I understand that Dowie thinks he will be able to settle all claims against him in the course of five weeks."

Tuesday it was the opinion that the liabilities of Dowie would not amount at the outside to over $350,000. Last night it was admitted by the receivers and their attorneys that the claims against him make a total of $725,000. The receivers today found one of Dowie's banks in operation at Twelfth street and Michigan avenue and they proceeded to put an agent in charge and had the doors closed. Judge Kohlsat later ratified the action of the receivers in shutting down this bank as well as the institution at Zion City. Experts have been set to work on the books of both institutions.

THE NEW WOMAN.

Mrs. Emma Mitchell, 539 Louisiana street, Indianapolis, Ind., writes:

"For the past five years I have rarely been without pain, but Peruna has changed all this, and in a very short time. I think I had taken only two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or backache any more, and have some interest in life."—Emma Mitchell.

The coming of what is known as the "new woman" in our country is not greeted by everyone as if she were a great blessing. But there is another new woman whom everybody is glad to see. Every day some invalid woman is exclaiming, "I have been made a new woman by Dr. Hartman's home treatment." It is only necessary to send name, address, symptoms, duration of sickness and treatment already received to Dr. Hartman, Columbus, Ohio, and directions for one month's treatment will be promptly forwarded.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Hanging at Newbern.

At Newbern, N. C., Tuesday, Chris Dixon was hanged privately. The case reads like a romance with a tragic ending.

Godfrey Webber, a substantial farmer, was shot from ambush near his home November 22, 1901. He lived only a few hours, and while dying expressed the belief that Dixon was the assassin. Dixon was tried and convicted of the crime, the strongest evidence against him being that two pages of a magazine were used in the gun wadding and a copy of the same magazine found in Dixon's house had these two pages missing.

After being sentenced Dixon broke jail and escaped. He was rearrested last October near Chesterfield, S. C., after enjoying two years' freedom. The widow of the man he murdered had become his wife and was living with him.

Dixon's crime, according to the testimony at the trial, was prompted by jealousy. Dixon and the girl who afterwards married Webber were sweethearts before Webber appeared as a suitor. The latter being a man of some means she discarded Dixon and married Webber.

Dixon said yesterday that he did not kill Webber, but furnished the gun for another man to do the shooting. The name of the man referred to, Dixon refused to tell.

Child Loses Eye Playing "Indian."

Charlotte News.

A distressing accident occurred in lower Steele Creek yesterday. The six-year-old son of Mr. Charles Price was out playing with several of his companions. The game was "Indian" and each one was armed with a bow and arrow. One of the little fellows raised his bow and let go his arrow. The dart struck the little Price boy in the left eye and destroyed the sight. The little fellow has suffered very much from the effects of the injury.

A Costly Mistake.

Most Trying Feature of the War.

Our Home.

"How would you like to bundle up and start to the war as we did forty years ago?" said Mr. Jas. A. Marsh to an old Confederate comrade the other day. "When I left my wife and two-year-old boy," he continued, "to start on the journey there was a peculiar feeling of sadness that no one can comprehend who has not experienced it. Men may draw upon their imagination and think they know how it would be, but in instances of this kind the imagination fails, and a man doesn't know how it is until he tries it." This parting with dependent loved ones at home to go into a deadly conflict, the uneasy feeling about the comfort of wife and children, the uncertainty of ever seeing their faces again, made such parting scenes the saddest and most trying feature of the war, and it is natural that in their reflections these scenes come more vividly to the minds of the old soldiers than anything else.

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

I Coughed

"I had a most stubborn cough for many years. It deprived me of sleep and I grew very thin. I then tried Ayer's Cherry Pectoral, and was quickly cured."
R. N. Mann, Fall Mills, Tenn.

Sixty years of cures and such testimony as the above have taught us what Ayer's Cherry Pectoral will do.

We know it's the greatest cough remedy ever made. And you will say so, too, after you try it. There's cure in every drop.

BUREAU COTTON CROP REPORT

Quantity Ginned to November 14. Over Seven Million Bales Actually Accounted for—No Estimate Given as to the Amount That Remains Unginned.

Washington Dispatch, 2nd.

The census bureau today issued a report on the quantity of cotton ginned from the growth of 1903 up to and including November 14, showing the total commercial bales of 7,070,437.

Of these 6,519,332 were square bales and 510,555 Sea Island crop bales. There were 29,506 ginneries operated this season up to and including November 14.

The cotton ginned in 1902 as reported by the census bureau was 5,928,872 commercial bales up to October 18, and 9,311,835 commercial bales up to December 13. Counting round bales, the number this year is 6,815,692. In this report no account has been taken of the quantity of linters obtained by the cotton seed mills by reginning cotton seed, but statistics of such cotton will be included in the final report for this season.

This report will be followed by two others showing the quantity of cotton ginned from the growth of this year, and to January 16, 1904.

No estimates are given of the amount of cotton remaining unginned. The census agents were asked to submit these estimates, but the census bureau has not even computed them as returned, turning them over to the bureau of statistics of the Department of Agriculture to aid that office in the annual estimate of the cotton crop to be issued tomorrow. The reason for this as announced by the census bureau, is that when the final reports were received a year ago "it appeared that the estimates of the agents made in October were six and four-tenths per cent. short of the actual crop grown." A margin of error so large as that is equal to the difference between a short crop and a normal crop and under the peculiar conditions existing in two cotton markets today, the census bureau does not feel warranted in publishing any figures in which so large an element of error may exist again. The policy of co-operation between the census and the Agricultural Department is adopted on the recommendation of Secretary Cortelyou of the Department of Commerce and Labor, to avoid conflicting reports as far as possible.

The census bureau announces that it ought to be possible in the January 16 report "to cover practically the entire cotton crop of 1903-1904, and this will be two months earlier than we were able to do a year ago. It is to be regretted, in view of the cotton situation, that no canvass corresponding to the one now reported was made by the census office a year ago."

As to the call for estimates of cotton unginned in the several counties, although it was not intended to use them in this report, the bureau says: "We desire to ascertain by a practical test, whether it is possible for the special agents to make such estimates, at different periods during the progress of the harvest, which can be relied upon as sufficiently accurate to be of value to the public. It is possible that with their increasing experience these agents can come nearer to the fact than in 1902. We can definitely ascertain the fact when the full returns of this season are received and the results compared with their estimate."

The statistics of the cotton ginned to November 14 follow, by States: Alabama 743,538 total commercial bales, embracing 691,153 square bales and 52,385 round bales, active ginneries 3,797; Arkansas 406,393 total commercial bales, embracing 378,663 square bales and 27,730 round bales, active ginneries 2,468; Florida 39,144 commercial bales, embracing 22,379 square bales and 16,765 Sea Island crop bales, active ginneries 264; Georgia 992,653 total commercial bales, embracing 938,535 square bales, 36,633 round bales and 19,485 Sea Island crop bales, active ginneries 4,913; Indian Territory 172,793 total commercial bales, embracing 132,954 square bales and 40,199 round bales, active ginneries 185; Kansas no returns; Kentucky total commercial bales 308, all square bales, active ginneries 2; Louisiana total commercial bales 510,494, including 462,477 square bales, and 48,017 round bales, active ginneries 2,098; Mississippi total commercial bales 792,890, including 888,545 square bales and 41,345 round bales, active ginneries 4,107; Missouri total commercial bales 22,294, embracing 18,309 square and 3,985 round bales, active ginneries 70; North Carolina total commercial bales 407,199, embracing 407,122 square bales and 77 round bales, active ginneries 2,652; Oklahoma total commercial bales 116,639, embracing 100,399 square bales and 16,340 round bales, active ginneries 227; South Carolina total commercial bales 625,611, embracing 621,306 square bales and 4,305 Sea Island bales, active ginneries 3,147; Tennessee total commercial bales 163,188, embracing 149,726 square and 13,462 round bales, active ginneries 256; Texas total commercial bales 1,932,549, embracing 1,700,072 square bales and 232,477 round bales, active ginneries 4,412; Virginia total commercial bales 7,744, all square, active ginneries 108.

The Russian As a Soldier.

"The Russian soldier, as I saw him during the Boxer campaign, impressed me as being a fatalist of a very practical sort," writes O. K. Davis in the December Everybody's. "If it is his time to lose his life he will lose it, and there is little use in trying to save it. He might as well go to one place as another, and it makes no difference whether he goes into a fight or keeps out of it. He travels the line of least resistance, and from this develops a blind, but often unintelligent obedience. That sort of man makes a dangerous fighting machine.

"With all these good qualities, however, there are others not so attractive. Big, strong, patient of toil and hardship, he is also clumsy, stupid, and very slow—a serious fault in fighting men. There was a good exhibition of the Russian lack of speed the day the Pekin relief column marched from Mahto to Changchia-wan. For that morning it had been arranged that a Russian battery and battalion of infantry should form part of the advance guard with the Japanese whom the regular formation of the column placed in the lead. The Japanese were doing their full share, but the Russians could not or would not keep the pace. After repeated attempts to get them to do so, Japan was obliged to ask Russia to withdraw its men and give room to the Japanese so that the required speed could be made. The Russians halted and formed beside the road while the Japanese infantry went by them on the double, and the battery at a trot. From that time until the day's distance had been made, there was no more trouble about the failure of the advance guard to maintain contact with the enemy."

Dr. Jay Sentenced to Thirty Years.

Asheville Special to Charlotte Observer, 1st.

The verdict of the jury in the Jay case this morning was "guilty of murder in the second degree." The verdict was rendered after the jury had been out since last evening. A motion for a new trial was overruled, and Judge Jones remarked from the bench that he thought it would be better for the prisoner to be sent to the penitentiary, and that no appeal be taken. The judge thanked the jury and declared that a just verdict had been returned. Attorneys for the defense have given notice of an appeal over the prisoner's protest. On the way to the jail from the court house Jay told Sheriff Reed that he didn't want to appeal; that he wanted to go on to the penitentiary and begin serving his sentence, so he could soon get a pardon. Judge Jones gave the prisoner the maximum sentence of 30 years at hard labor.

Madison County to Issue Bonds.

Asheville Special, 29th ult.

Judge E. B. Jones of the Superior Court has decided that Madison county must issue $70,000 worth of bonds with which to pay its indebtedness. The county will appeal from the decision of Judge Jones and the case will be heard in the Supreme Court of North Carolina, and unless the decision of the lower court is reversed the opinion of the Supreme Court will mark the close of a legal war that has been for years waged between the creditors of the county and the commissioners of Madison.

Horse Health!

For putting in prime condition any horse or mule the best of all remedies is Ashcraft's Condition Powders. These Powders are wonderfully effective because they create appetite, the digestion is made perfect, worms and parasites destroyed, and the system cleansed of all gross humors. The Powders fatten but never bloat.

Ashcraft's Condition Powders are wrapped in doses. In fact, in their preparation the same care is used that a druggist would exercise in the filling of a physician's prescription. High grade and real merit is the first consideration.

Ashcraft's Powders consist of small doses, prepared from the purest and highly concentrated ingredients, that have been found beneficial to horses and mules.

Ashcraft's Condition Powders—always high grade—are not to be classed with the many bulky, good-for-everything powders now on the market.

Ask for Ashcraft's, the kind put up in doses, and good for horses and mules only.

"Having tried many kinds of Condition Powders, I consider Ashcraft's the best on the market. I take pleasure in recommending them to my friends and customers.—R. CAMPBELL, Hickory, N. C.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
