Her age, prosperous new year. her history as barely mentioned by the papers, and her death, all suggest that there was in her heart a deeper something than a choice and brazen life of shame. Perhaps it was a sorrow over a great wrong, perhaps a sense of shame too great to be borne. People do not kill themselves lightly. Only despair can drive to it, and this giant should have no rightful place in the heart of one so young.

Grover Cleveland is lending encouragement to the petition signers, a class of hefty folks who really need no encouragement. He, John G. Carlisle, and other prominent people are petitioning the governor of New York to pardon one Patrick, a lawyer sentenced to be hanged for the murder of an old man by the name of Rice, who left a will in Patrick's fawor, on the ground that there is grave doubt of his guilt. The alleged criminal has been convicted in two or three trials and has exhausted every resource of the courts, hence his appeal to the governor. It looks like Mr. Patrick will yet die of old

In opening Wake county Seperior court, Judge Ward yesterday appointed a court usher to seat the people. He also appointed sixteen men of property and character to stay in the court room to serve when needed as talismen, thus assuring as good men when talismen are called as when the regular jurors are serving. These two ideas are both good, the second of course being the most important. The other would be a good one for this county if the court room here were such that the audience could bear when they were seated.

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood ; Scott's Emulsion makes the blood pure. One reason why

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least pos-sible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.
