Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICANES OF ENOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

sition of that which he or she is expected to swallow, whether it be food, drink or modicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines. Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, brokendown, norvous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is malled free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

side," she said sharply. Well, you don't want to sit in draft either," persisted her husband.

"No: Emile can sit there. She is young. Drafts won't burt her." David Marston raised his paper suddenly to hide the smile that would He was sitting on the drafty side, too, right behind the chair in the parlor car which had raised the disussion. the only passenger interested in the domestle drama. Every man and woman in the car had laid aside paper or book, roused to attention by the plercing tones and dominating bearing of the woman. The shrill speech might have been forgiven on the plea that the husband was evidently very deaf. The manner was less forgivable. Newly acquired riches were stamped all over the tightly laced, middle aged figure. The characterless face, due to much electric massaging, spoke of hours spent with beauty experts. Her frock, wrap and hat shricked, "Paris!" Evidently the couple were going

back to New York after a brief stay at their lodge in the Catakilla, for the limited had stopped at the small town close to fashlonable mountain fastnesses on special orders. "You don't think anything will hap-

There was much craulng of necks as the third member of this interesting party came through the narrow passageway around the drawing room. Her advent promised further entertalnment to travel bored passengers. Only one of the latter did not crane his neck. He simply sat staring at the girl, his hands gripped hard on the arms of the chair. She was a slender, refined looking

girl, dressed in black from her dull calfskin ties to her stiffly tailored traveling hat. At her throat and wrists were fine linen bands. Marston recalled with a shudder that a maid who had opened the door for him at a fash-

the car, and there was smothered laughter up and down the lines. With crimson cheeks, Emily touched the outton, but when the walter arrived it was Marston who took the matter in hand and ordered a dainty luncheon. Mrs. Maguire admitted that for man "in pork" he knew how to order.

It annoyed her that she could not communicate this discovery to her hus band. Later she said something of the sort to Emily, who had brought Mr. Maguire an evening paper picked up at Poughkeepsie.

Emily did not seem to hear the pa tronizing remark of her employer. Her mind had leaped forward to that moment when the train should pull into and the Maguires would enter the carriage held in waiting by liverled servants, and Marston would go his self made independent way. When she returned to her chair, the dull forey dusk was settling down on the river. Pretty soon on the broad six track way trains loaded with suburbanites would be shooting past them, suburbanites going home to cottages and firesides all their own, where women who had never dreamed of artistic careers wait-
