FIRST DAY OF SCHOOL. 'Member the Clubbin' You Got For

That Punch at Henny? Gee whiz! You are a scrappy And the new boys look admiringly and shyly at you who don't mind a little rough house the very first day. And you get a bit excited and run madly around the yard, yelling wildly and bumping into every boy that you don't know. By the time school opens you have a meeting arranged with a half dozen fellers for Bartlett field at the close of the session. And then comes

"Hey, Miss Denny, am I promoted?" you scream with a score of lows: others. And teacher smiles that superior sort of smile that makes you realize that teachers are different gins. from sisters and things and waves you aside, while the submaster bows her in the front door just the way vour sister's beau meets her. Perhaps teacher is like your sisters and

things.

The bell rings, you fall in line, and to the accompaniment of the piano in room 4 you march, for the last time, you pray, to your old

Henny passes you in the corridor. Staton, R. V. Hamilton. He pushes you. You make a punch at him for old time's sake. The submaster yanks you both out of file and lifts you in the air by one ear while he christens the new rattan. And you set your shoulders proudly. You have reason to do so. You are the first man to get a "clubbing" this year, and that's a whole lot in the Dudley school.

You take the same seat you had last year, and teacher reads from the Bible. Then she calls the roll, and everybody is present except Franky Dexter, and you know all about him. Sure! And you tell teacher how his pa "failed up" and had to leave town-and that will do.

Teacher will now read the list of promotions. But first she wishes to tell every one how much she will miss us and all that sort of guff. Gee! You didn't know teacher felt was then discussed by J. L. Dr. Ragiand Leaves a Word Alout

Dr. M. J. Ragland, who spent last rear here in the work of exterminatng cattle ticks, in the work that the national department of agriculture is carrying on, has gone to Montgomery county for the present. He will be back here about March first.

He asks The Journal to make pubduring his abscence. On all but about 125 farms in the county the ticks have been eradicated. Dr. Ragland says that the ticks may be gotten rid of on these 125 farms very easily. The pastures which have ticks now should be turned out and not used next season. Now is the time to make the change before the ticks are hatched out. All cows should now be taken from old pastures and put into new ones. Then when the warm weather of spring when the ticks are hatched out, comes and the ticks are hatched out, off Rev.
