What Stove for Summer?

Nothing adds to kitchen nce in summer weather like a New Perfection Wick Blue Flame Oil Cook-Stove. Anything that any stove can do the "New Perfection" will do, and do it better. Bakes,

roasts, boils, toasts; heats the wash water and the sad irons, and does it without dissipating its heat through the room

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

actually keeps the kitchen cool-actually makes it comfortable for you while doing the family cooking, because, unlike the coal range, its heat is directed to one point only-right under the kettle. Made in three sizes, fully warranted. If not

Absolute Surrender.

A little child was one day playing with a very valuable vase when he put his hand into it and could not withdraw it. His father, too, tried his best to get it out, but all in vain. vase when the father said: "Now, my son, make one more

try. Open your hand and hold your fingers out straight, as you see me doing, and then pull."

oners by our own desires!

The idea of the census originated among the Romans, when a group many functions performed by the high officer called censor received the name of census. It was taken every five years and indicated not only the number of the respective classes of the people, but their domestic positions as husbands, wives, fathers, mothers, sons and daughters. The first modern nation to take up the census was the United States of America in 1790. but this did not include Ireland.

know how good it is from long experi-coce in the use of it. In fact, when in I recollect a B El Paso, Texas, the writer's life was heard that the diamond is the hardedy. We are now engaged in the mercantile business at Narcousses, Fla.

The industry of flint making still thrives in Brandon, England. The flints are sent to Africa and other countries where the guns of one hundred years ago are still in active ser-
