Ask Dr. Belk What Journal Ads Do.

VOLUME XVI. NO. 28.

MONROE, N.C., TUESDAY JULY 20, 1909.

On To Richmond. THE PULSE OF LIFE

The newspapers published by The Observer Company are made upon the principle of making the best possible newspaper, regardless of cost, and then taking chances on getting back the cost and something more for our efforts.

Whoever subscribes for any one or more of these papers is not lay-ing out an expense account but is making an investment. The news col-umns carry information that is worth money and so also do the advertis-ing columns. The business man who will watch these columns will find many an opportunity to turn an honest dollar in trade and at the same time give the other fellow what he is looking for.

The news gatherers of the company's publications are trained to get and print news of commercial value. New business opportunities, new enterprises, changes and developments in old enterprises where there is opportunity for trade, are all carefully recorded.

Any of these publications are invaluable for family reading. Every-body ought to have a good clean newspaper. It is the equivalent of an education for those who cannot otherwise get school or college training and it is the connecting link between the school or collegiate training and practical life. The modern newspaper is the pulse of the daily activ-ities and those who don't feel this pulse are not fully alive to these ac-tivities. Five Observer publications and prices:

The Best Ice In

The Carolinas!

Is being made in Monroe. It is made

from the far-famed Artesian Water,

which is boiled and reboiled, doubly

distilled and purified for the purpose.

Our new plant is right up-to-date, and

with all these advantages it is no wonder

we are selling it as fast as it can be made.

Local trade supplied by Mr. T. J. Price.

MONROE ICE AND FUEL COMPANY.

Littleton Female College.

One of the most successful and best equipped boarding schools in the South with hot water heat, electric lights and other modern improvements. 28th annual session will begin Sept. 15, 1909.

Reciprocity.

The Savings, Loan and Irust Company, This Bank, at the beginning of its career, adopted the policy of doing the utmost good to its customers within the limits of safety. It has never forgotten to strictly adhere to it in the future.

Safety and Progress is and kidney troubles, induce sleep, impart strength and appetite. Only 50c., at English Drug Co.'s. Our Slogan.

expense of safety, but we want surprising state of affairs with fart understood that we are for progress along all lines.

Talk about safety! The Bank of Union is conducted discreetly and on sound business principles. It is as safe a bank as any man needs, whether State or National.

Deposit your money here and there will be no occasion for you ever to regret it. Our appreciation is strong and abiding.

Respectfully,

W. S. BLAKENEY, President

Exploitation of Agriculture for the Benefit of Manufacturing.

We don't know whether our people are interested in the tariff discussion or not. They would be mightily interested if Congress the domestic tragedy that led to his death Sunday night at the hands of \$5 a year for each family, but an indirect tax of more than \$50 a year (including the extra amount collected by the trusts) collected by the trusts) collected without their knowing it, goes through with less trouble than would a \$5 tax paid personally to the sheriff. This is the evil of all the sheriff. This is the evil of all the sheriff. This is the evil of all the sheriff than take any action of social ethics by remarking that "they didn't know everything down in Judee." It is to be wished that some of those who preach and practice a gospel of mere materialism and greed, and who speak as if the heaping up of wealth by the community or by the individual was in itself the be all and end all of life, would learn from the most widely read and oldest of them. 000,000 pension bill would never in notoriety.
have reached half this sum if taxes "He seeme for paying it were levied direct.

is that it is the exploitation of agriculture for the benefit of manu Smith more than a century ago-that since the downfall of the Roman empire, most governments have given greater encouragement to the factory than to the farm. The government, acting as the spe cial guardian of those very people who cry most loudly against "pa-ternalism," undertakes to provide such tariff duties as will provide "a reasonable profit for American Outlook well expresses it, merely "a kind of bourse, or exchange, where a great number of specia interests are trading with each oth-er to secure for themselves, each

"The hope of this country rests upon the development of rural life," said a gifted and eloquent young man to the writer the other day. "The ruin of all great na-tions of former times has come from the neglect of their rural lasses and the gradual substitution of a tenantry for a large home owning class a condition to which fear we are ourselves drifting.' And yet in half an hour our friend was excusing the action of our Southern Senators and Represent atives who have supported inexcu-sably high tariff schedules in Congress this session.

after its kind, what each wants."

Cancer a Disease of Highly Developed Civilization.

Burton J. Hendrick in the July McClure's

Spread out a map of the world, and mark the countries that have progressed farthest in material well being, in education, government, anitation, and other essentials of modern civilization; those are the countries that suffer most from the cancer plague. In the eastern world, not Asia or Africa, but en lightened Europe; in the western, ties of Alamance, Anson, Cabarrus, not Mexico, Honduras, or Panama. but the United States and Canada vie, Catawba, Guilford, Granville, -these are the countries most Union, Vance, Wake, Warren, cancer assails most violently those Wilkes and Yadkin. The five State peoples that have reached the highexperts are in Montgomery, Stan- est points in civilization. And not only this, but it apparently bears A great territory of this State will heaviest upon the most sanitary be cleared this season. Most of and enlightened parts of these Virginia is clear, except the tide countries. In Europe the nations water region, notably around Nor- that suffer most are not Russia or folk, where there is yet much free Hungary or Italy or Spain, but tivated gracious courtesy, and were he and his wife and baby slept in range, where, of course, no work Germany, France, Sweden, Norcan be done, as cattle cannot be way, and, above all, England. In controlled. The smallest kind of a London, the greatest mortality is start has as yet been made in South Carolina and Georgia. Great prog-Hampstead, Marylebone and Chelwhich include the city's wealthiest parts. Similarly, in New York, the Russian Jews and Italians who so largely populate the crowded tenement sections are comparatively immune, whereas the more sanitary parts of the town are favorite breeding places. Where diseases of known contagiousness, like tuberculosis, typhoid fever, diphtheria and pneuconia, most abound, cancer seems to find a less strong foothold than in other more salubrious sections; as by some mysterious and inex-orable law of compensation it fluds

its way mainly into the homes of the prosperous and enlightened.

Sees Mother Grow Young. 'It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Me. "Although past 70 she seems really to be growing young again. She suffered un-told misery from dyspepsia for 20 years. At last she could neither eat, drink nor sleep. Doctors gave her up and all remedies failed till maintain this position and it will Electric Bitters worked such wonders for her health." They invigorate all vital organs, cure liver
