An Astounded Parson

Of a certain bishop, famous as the following pleasing tale is told: One day, as this homely parson sat in an omnibus, he was amazed by the persistent staring of a fellow passenger, who presently unbur-dened himself as follows:

"You're a parson, ain't you?"
"Well, yes, that is so."
"Look 'ere, parson, would you

Only Two Judgments of More Than Forty Dollars and the Total Judg-ments Not Greater Than the Acservice and for reasontual Court Expenses able cost you will find

The two weeks' term of court con-cluded last Friday by Judge Adams was a record breaker for the number of small and insignificant cases tried. The largest amount involved in any suit was \$375, and that was a family quarrel, in which a wife suing in forma pauperis se-cured a judgment of that amount against the life estate of her husband, the amount of which is un-collectable. The sum total of all judgments secured, including the one just mentioned, was \$650.17. There were only two judgments that amounted to more than forty dollars. For the trial of these cases the county paid the sum of \$509.75 to the jurors for their services. In addition to this there are expenses for boarding the hung juries, officers' expenses, and so on.

Some of the cases were rare. There was one verdict of twentyfive cents and interest; one for two dollars, another for four-ninety. In this the litigants had to pay lawyers' fees, one paid some twenty dollars in railroad fare and ten or twelve for board.

One case in which a negro had sued for a division of his joint interest with a white man in a buggy beat the record. The darky and the white man had bought a buggy, and the negro put in as his part of the payment a razor which he valued at one dollar and a quarter. He alleged that his white partuer had appropriated the whole buggy and he wanted his part. The jury found that the whole buggy was worth two dollars, the razor was lost, and the county paid twen-ty four dollars jury tax for the trial of the case. It was a great court.
