The Farm the Proper Plant Bed for for Manhood and Womanhood. Charity and Children.

A farm, no matter how barren or poor, is a better place to make a man out of a boy than the best regulated cotton mill in the world; and we now amend our statement by saying that a farm is a better place te train a boy than the best regulated bank or store, or office, or even parsonage to be found anyor where. In short, the farm is the Vot have dey got? Paved streets! proper plant-bed for manhood and Und vot have we got? Mut! Now, omanhood. There is no other place like it in this world, and our friend who imagined we were mak-ing an assault on cotton mills miss-er and make a block pavement."ing an assault on cotton mills missed the point altogether. A case has been docketed in the Supreme Court of the United States on appeal of Bob Kirkpatrick of Cartersville, Ga., found guilty of vio-lating the law against the sale of intoxicating liquor within the State. Kirkpatrick was charged with distributing samples for liquor dealers outside of the State. The case was taken to the Supreme Court on the ground that the Georgia law interferred with inter-State commerce in violation of the commerce clause of the constitution.

Colonel Goethals, chief engineer of the Panama canal, in a report to the War Department reitorates the hope he expressed some time ago that he would pass a ship through the canal before the close of the present year. The present plan is to admit the water into Culebra cut carly in October and the completion of one flight of locks at either end of the canal by that same date. The passage of boats then depends upon the condition of the slides and while it is hoped that vessels may pass through by the end of the year, it is impossible to give positive surance.
