

The Gathering Season

Now is the Time when Our Farmers
are Receiving Their Money from
Their Hard Year's Work.

We have had the lean season, and now the fat. Of course the lean season will return. The prudent man will think of this and "lay by in store" for it.

Put some money in the bank now to use later. If you want to draw it out any time you can do so, or you can leave it in for a time and let it draw interest for you.

There are many people who have not got a bank account. They should try it. Your money is safe and you can get it any time.

We do not claim to do the biggest banking business in North Carolina, but we do as safe and satisfactory business for our customers as any in the United States.

After all, isn't that what you are looking for? Try us.

PERFECTION
SMOKELESS
OIL HEATER

A "warm" breakfast—the kind that sends you out ready braced for a good day's work—should be eaten in a warm room.

You lose half the good of the meal if you are shivering in discomfort while you eat it. A Perfection Smokeless Heater makes breakfast a cozy meal for the whole family.

No smoke or smell with a Perfection. Easily cleaned. Easily moved from room to room. An ornament anywhere; a luxury in the bedroom; a necessity in the sewing-room or the bathroom.

Dealers everywhere; or write for descriptive circular.

Rubber Tires.

A courageous and joyful attitude toward the difficulties and trials of life is often more stimulating and helpful to others than we imagine. A little six-year-old boy, talking recently about a sunny visitor who had just departed, and of her courage and cheerfulness amid many trials, added this striking comment: "Yes, I like her; she just goes over bumps as though her heart had rubber tires."—Rx.

Temperance

(Conducted by the National Woman's Christian Temperance Union.)

LIQUOR SELLER IS GREEDY

Industry is Not Only Non-Productive of Good, but Produces Dangerous Class of Non-Producers.

The liquor seller knows full well that were it not for the nickels and dimes of the workmen—which aggregate in a year many more dollars than the spenders are apt to think—many a saloonkeeper might shut up shop, many a groggery be turned into a grocery. It is the hard-earned money of the day laborer, the mechanic and the clerk which, pouring steadily into the till of the liquor seller, makes whisky trusts and beer syndicates possible.

And what does the liquor dealer give in exchange for the workman's earnings of which, with other merchants, he greedily claims a share? Food, clothing, shelter, happiness, improvement? No. He gives in exchange that which robs him of all these. He gives his customer that which makes him poor indeed, in that it reduces the capacity of hand and brain (as employers are finding out to their cost) and produces a mental and moral degeneracy which renders "labor" less competent to protect itself against the autocracy of "capital."

We claim that no industry has a right to exist which does not contribute in some measure to the general welfare and prosperity of the nation at large. As in a perfect physical organism every organ and every atom contribute to the health and happiness of the body as a whole, so true economic science would declare that every human being should be not only a consumer, but in some degree, at least, a producer, a contributor to the well being of society as a whole.

Now the liquor industry is not only non-productive of good, but it is an actual and an active producer of an enormous and dangerous class of non-producers. The saloon, the gambling den, the brothel, the jail, the poorhouse, the insane asylum, all furnish their quota to the social discord, all add to the sum of human misery, and all are to more or less extent the products of the liquor traffic. And still "the trade" bids unblushingly for its share of the earnings of labor!

BEST WAY IS TO PROHIBIT

People Never Go Right Until They Have Tried All the Ways of Going Wrong, Says Spencer.

Herbert Spencer once said, "People never go right until they have tried all the ways of going wrong." I think this truism is more perceptibly shown in the various methods men have tried in dealing with the liquor problem than in any other way. They have tried the unrestricted sale, and the regulated sale. They have tried low license, and high license. They have tried the segregation of the sale to restricted areas. They have tried the dispensary. They have tried everything in the hope of making the saloon acceptable to the better class of people. And now, they are trying to reform it!

We of the southland, along with thousands of the best people north and west and east, decided long ago that the best method of dealing with the liquor traffic is to prohibit it, just as we believe that the best method of dealing with theft and arson and murder is to prohibit these evils.—Silena M. Holman, president Tennessee W. C. T. U.

WILL BE A NOTABLE MEETING

Ninth Triennial Convention of World's W. C. T. U. to Be Held in Brooklyn in October.

A notable meeting will be that of the ninth triennial convention of the World's Woman's Christian Temperance Union in the city of Brooklyn, New York, October 23-28, inclusive. The World's W. C. T. U. was organized by Frances E. Willard in 1853. Mrs. Margaret Bright Lucas (sister of John Bright, the famous British statesman) was its first president. Then Miss Willard became its leader, afterwards Lady Henry Somerset, and the present president is the countess of Carlisle. Mrs. L. M. N. Stevens of Portland, Me., president of the United States W. C. T. U., is vice-president. Conventions have been held in Boston (two), Chicago, London, Toronto, Geneva, Edinburgh, Glasgow. The World's W. C. T. U. has sent out 22 round-the-world missionaries, who have carried the gospel of Christian temperance into fifty different countries. These countries have national organizations and most of them will send delegates to the Brooklyn convention.

Unfit Physicians.

Dr. F. A. MacNichols, vice-president of the American Medical association, says in his address, delivered before that body at Atlantic City: "A call was recently made for young physicians to enter the United States army. Eighty per cent. of those examined were rejected as physically unfit." He then asked this thought-producing question: "When four-fifths of the most representative men in America are pronounced unfit for war, what shall we say to their fitness to father the next generation?"
