## THE MONROE JOURNAL

## For the Boys and Girls.

All the county schools that have not already commenced work will open next Monday. County Superintendent Nisbet expects this year to be the best in the history of the
county. He asks The Journal to say that the compulsory attendance law will go into force at once and continue for four months.
He also calls upon the teachers and committeemen to see that the school houses are in good conditions, re paired when necessary, windows put in, floors cleaned, and everything toments made, plenty of wood and sanitary. He says that it was bad enough to ask the boys and girls to attend a school that was unfit, but now that we are to compel them to attend, it would be worse not to havel the house in proper shape. Give the boys and girls their chance in life sending them to schoo
Not only send them the first day but have them there every day while the school lasts. Union county must lead in behalf of the boys and girls.
