Failure to remove the screen and to see the fire escape he was earching caused him to rush backward to seek another avenue of es-cape, and he rushed into the very arms of death.

Half an hour or more later his body was found in the room near the door and he was carried to the street. As his limp body came into fresh air his head fell back and his mouth opened in a gasp. He was laid on the pavement and immediate efforts made to ressuscitate him. In 20 minutes the attending physician pronounced him dead.

Mr. Collum's home was in Philadelphia, 1650 62nd street west, and he was a travelling salesman for Landers, Frerey and Clarke, of New Britain, Conn. He was about 28 years of age and is survived by a wife and baby. My Second Day at Gettysburg. (Contined from former issues.)

As to the 53rd N. C. Regt., this day was not so eventful and exciting as the first. Nevertheless it was day of eminent peril; a day of danger, of gloom, of foreboding and anxiety beyond description. Early in the forenoon our regiment took its position on Seminary Ridge just outside the western limits of the town and in rear of one of our batteries stationed on the crest of the Ridge, in an open space just north of a belt of woods and in plain view of the enemy's batteries occupying the heights about three-fourths of a mile in our front. Our duty was to protect our batteries in case of a charge from the lines of the enemy. We were ordered to lie down and protect ourselves the best we could, which we did with considerable emphasis, lying as flat as it was possible to lie on the top side of the earth. And O, how, suppose, a majority of us wished it were possible for us to sink out of sight of the Yanks and out of reach of those infernal, death-dealing shells for I tell you, honestly and frankly, I was scared. Not in all my life have ever experienced a day of such aw ful anxiety. The constant roar and boom of cannon, the bursting and whizzing of shells, the shricks and groans of the wounded, with nothing to divert our minds, nothing to do but lie there expecting every moment was heir presumptive to the throne to be hurled into eternity by some of

She has just moved from that place to Greenville, Miss., which is located in the delta. At the late commencemnt of Mississippi College, just after Miss Coleman had sang, the President, Dr. Provine, presented her with a chest of silver giv-en her by the ladies of the city, and a beautiful loving cup given by the alumni and faculty of Mississippi

The Jackson, Miss., paper, says: Mrs. Coleman is now in Greenville with her husband, Dr. Coleman, and the boy, and their friends in the old ories anent her and her life in the old college town of Clinton.

Nor are these pleasant memories confined to Clinton. Jackson has her full share of them, as Mrs. Coleman was not only a frequent visitor to this city but was a member of the Chaminade club, and a very important member of the circle of musical artists upon whose great gifts the city depends whenever there is need for the especial entertainment along musical lines.

Jackson will certainly miss Mrs. Coleman now that she is too far away to be "called up" over the phone and to make the "quick run" in from our little sister-town of Clinton in times of need and pleasure.

## Children's Day Exercises at Bethel. Written for The Journal.

It was the pleasure of this writer to attend the most interesting Children's Day exercises at Bethel church, near Stout, last Sunday, that he ever witnessed.

A large crowd was present and the church could not hold more than onethird of the people who attended. The children rendered their parts

Headlong From Sixth Story. New York Dispatch, June 28th. An unidentified girl leaped to her

death from the roof of a six-story tenement at 91 Jackson street yesterday. She was about 22 years old and apparently had been pretty.

Henry Miller, janitor, saw the girl on the steps some time before she made the leap. She looked worried and did not reply when he accosted her

Early yesterday Mrs. Miller saw a form fall past her fifth-story window. Looking out she saw the girl lying on a heap on the sidewalk.

Police had difficulty in extricating the dead girl from the grating on which she had fallen. It was bent and crushed. The girl's head had broken two bars. Evidently she had dived head first.

The girl was about five feet five inches in height, weighed 150 pounds and had dark hair. She wore a blue skirt and white waist. On the roof was a Balmacaan coat, in which was found a thimble and a pair of scissors.

No one in the big tenement knew the girl.

Southern Will Double Track Main Line.

Atlanta, Ga., June 26 .- Within five years the management of the Southern railway expects to have a double-track line the entire distance. 649 miles, from Washington to Atlanta. President Harrison has made arrangements for financing this great undertaking of immense importance to the entire south, and it is planned that the work shall go forward as rapidly as it is possible to carry it on without interfering with the heavy freight and passenger traffic which moves over this line. The funds for this work will be provided by the sale of \$20,000,000 of the Atlanta and Charlotte Air Line Railway company, the issue of which has been authorized and ap-

proved by the Georgia railroad commission. Of these bonds \$5,500,000 have already been sold and the proceeds will be used to refund an equal amount of Atlanta and Charlotte Air Line bonds now owned by the Southern railway. This sum will be used by the Southern railway in doubletracking those portions of its line be-

Washington and Charlotte tween which are stil single track. When this is completed attention will turned to double-tracking that be portion of the line between Charlotte and Atlanta which is still single track. This will envolve a great deal of heavy work, especially in the mountains of North Georgia, and will call for the expenditure of be-tween \$13,000,000 and \$14,000,000.

#### West Virginia Becomes Ninth Dry State Tonight.

State-wide prohibition of the liquor business in West Virginia becomes effective at midnight tonight. It brings the total number of States in the prohibition column up to nine. With West Virginia added the list will be: Georgia, Kansas, Maine Mississippi, North Carolina, North Dakota, Oklahoma, Tennessee, West Virginia. These nine States of total prohibition territory, plus the local no-license area, make up 2,132,726 square miles in which 46,029,750 persons or nearly 50 per cent of the country's population live according to the latest figures of the prohibition leaders

The 92,000 majority with which the people of West Virginia accepted dry proposition was relatively the largest ever given by any state. It was approximately 2 to 1 for State-wide suppression of the liquor business. It was a surprise even to the prohibition forces, who were indebt-ed largely to the determined stand many of the large employes took in favor of their cause. The State has population of 1,221,119 by the census of 1910.
