Sheriff of Union County.

SPAN OF LIFE MUCH LONGER

Science Has Added 15 Years, Says Dr. Victor Vaughn—Future to Class Us as Barbarians.

Atlantic City, N. J.—At the first general session of the convention of the American Medical Association Dr. Victor C. Vaughn was installed as president, succeeding Dr. John A. Witherpoon of Nashville, Tenn.

Doctor Vaughn made "The Service of Medicine to Civilization" the subject of his inaugural address.

"In the last century the average of human life has been increased by 15 years, and this increase could be duplicated in the next 20 years," he said. "If the facts we now possess were effectively employed.

"The further developments of medicine, both curative and preventive, depend on scientific investigations. The public is the beneficiary and should in every way encourage medical research. The federal government and the states should sustain and promote scientific research.

"We boast of a great civilization, but this is justified only within limits. The historian of the future will have no difficulty in convincing his readers that those who lived at the beginning of the twentieth century were but slightly removed from barbarism, as he will tell that the school, saloon and vice resorts flourished in close proximity; that the capitalist worked his employees under conditions which precluded soundness of body; that 10,000 murders were committed annually in our midst, and that a large percentage of our mortality was due to preventable diseases.

"In each state there should be a hygienic laboratory equipped with able men supplied with facilities for the study of sanitary conditions and for the prosecution of scientific research."

gift, and a rare one, to be able to live long and keep actually in touch with progress.

That Mr. Depew possesses that gift nobody will deny, and it has served to make him one of the most popular men of his time.

CHURCH IN CLOSED THEATER

Pastors in Oklahoma Town Take New Method to Close Sunday Show.

Lawton, Okla.—A large number of the churches of Lawton have joined in union service, which began in an airdome, to continue during the summer months. A double purpose was attained in the selection of this open-air playhouse for these church services, first that of a comfortable place of meeting, and, second, of closing this theater on Sunday. The Fort Hill military band gave a concert opening the exercises. Different preachers will occupy the pulpit each Sunday.

Carranza Says He is Ready for Peace.

Washington Dispatch, July 20th.
General Carranza today informed the United States government he was ready to declare suspension of hostilities against the government of Provisional President Carrabal pending negotiations with his representative for the transfer of authority at Mexico City to the constitutionalists.

The constitutionalist chief expressed his views to John R. Silliman, personal representative of President Wilson, and Consul General Hanna and Vice-Consul Robertson, who interviewed him at Monterey. He said he would receive the commission of three appointed by Carrabal to discuss peace.

Secretary Bryan announced the receipt of the message from the American representative with the comment that prospects for an agreement between the two factions now were very favorable.

MAN COULD FLY A PIANO BOX

Practically Everything Depends on the Engine, Declares Lincoln Beachey.

New York.—Any properly built biplane which has a light, powerful engine is stable when in the air, providing it is intelligently handled. The chief reason I have been able to accomplish feats which other airmen never have attempted is the fact that I have had a good machine and have known how to fly it, Lincoln Beachey writes in Popular Mechanics.

Give me a clearance of 500 feet from the ground, a place to land, and then let things happen. If the aeroplane upsots or slides, or the engine dies, and the airman is not asleep, it may be righted with comparative ease.

The master of a good biplane should feel as completely at home in the air as any bird that ever flew. In my recent flights it has been demonstrated that a man-made machine is capable of things which no bird ever attempted. How many persons ever saw a bird try to loop the loop, do a backward spiral or revolve like a top and fall earthward tail down?

It is true that my latest craft was built for the specific purpose to which it is being put. But for general flying a good biplane of the same fundamental type should be equal in stability. It is only touching the extreme to assert that with an engine of sufficient power an airman could fly a piano box. By that I wish to impress the statement that the airman of today has absolutely everything he needs with which to fight the laws of gravity. Because of this the aeroplane already occupies the place of a necessity, commercial and otherwise, for the present and future day man. It is only a toss ahead to the time when the aerial express will be no more a novelty than overland limited trains are now.

CANINE HAS \$200 FUNERAL

Sixteen-Year-Old Bull Terrier Buried in Cypress Hills Cemetery in New York.

New York.—Wreaths of flowers covered a handsome oak coffin in which "Tuck Lents Crawford," a sixteen-year-old bull terrier, was buried in Cypress Hills cemetery. Nearly two hundred dollars set aside ten years ago by the will of Harry Lents, at one time a New York sporting man, was used in defraying the cost of the funeral. The dog had been Mr. Lents' pet.

The burial was supervised by Mr. Lents' sister, Mrs. Carolina Crawford, owner of Crawford Inn, Paterson. She tried to have the animal interred on her property, but the Paterson health authorities objected. She then purchased a grave in Cypress Hills and took the coffin there in an automobile.

RUB-MY-TISM

Will cure your Rheumatism, Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects Etc. Antiseptic Anodyne, used internally and externally. Price 25c.

The first cost is the biggest cost of the Ford—and the smallest cost of any other car because of the after expense. The Ford is the one car you can drive at less than "horse and buggy" rates. Thousands drive the Ford at less than two cents a mile. It's the "cost-to-keep" that counts.

Runabout \$543; Touring Car \$593—f. o. b. Monroe, complete with equipment.

Why Not Own a Farm?

We have organized an association with the purpose of making it possible for every man who farms in Union county to own a farm. You can buy a farm with rent money. Let every young man who is going to farm and every farmer who doesn't own the land he works come to see us and we will help him to get one.

Any one who has farm land for sale at "live and let live" prices will do well to see us.
