

MYSELF AND ME.
GEORGE COHAN.

I'm the best pal that I ever had,
I like to be with me;
I like to sit and tell myself
Things confidentially.

I often sit and ask me
If I shouldn't or I should,
And I find that my advice to me
Is all pretty good.

I never got acquainted with
Myself till here of late;
And I find myself a bully chum—
I treat me simply great.

I talk with me and walk with me,
And see me right and wrong;
I never knew how well myself
And I could get along.

I never try to cheat me,
I'm as truthful as can be.
No matter what may come or go,
I'm on the square with me.

It's great to know yourself and have
A pal that's all your own;
To be such company for yourself
You're never left alone.

You'll try to dodge the masses,
And you'll find the crowds a joke,
If you only treat yourself as well
As you treat other folk.

I've made a sturdy of myself,
Compared with me a lot,
And I've finally concluded
I'm the best friend I've got.

Just get together with yourself
And trust yourself with you,
And you'll be surprised how well
yourself
Will like you if you do.

Sheriff and Squire Fight—Squire in Jail.

In the court of Justice W. R. Guder in Asheville Tuesday, Sheriff Williams of Buncombe and Justice J. A. McIntyre quarreled about a bill of costs and the sheriff struck McIntyre. The later left the room and the sheriff submitted before Justice Guder. McIntyre was summoned to testify but he refused and his brother Justice sent him to jail for ten days for contempt of court.

Husband Fiddled Too Much—Wife Sued For Divorce.

New York World.
Mrs. Ethel C. Larrabee, Jersey City, names no co-respondent in the suit for divorce she has brought against her husband, Albert P. Larrabee. She blames his fiddle.
Mrs. Larrabee is a pretty blonde, 28 years old, and the couple have an 8-year-old daughter, whose custody Mrs. Larrabee demands. They were married in 1903 at Kennebec Maine, and separated at Elizabeth, N. J., three years ago because, the wife says, Larrabee had completely switched his devotion from her to his fiddle.

They had lived happily until he got the fiddle fever. He was at his instrument, she says, during every hour away from business. As to the quality of his playing, the inference to be drawn from her complaint is that he is no Kubelik.
"I never thought," says she, "that beautiful instrument could utter such unmusical sounds. It reminded me of a buzz-saw going through a knot in a Maine sawmill."
When Mrs. Larrabee protested that his music got on her nerves, she says, he took to staying away from home altogether, going where he could get more sympathetic audiences.

Five Acres to the Plow.

It has been reported to the News that Mr. W. H. Tilley of Parrott, one of the largest planters of this section of the state, is making a proposition to his tenants and renters that will not only help them tide over the present situation, but will leave them—and the entire county, for that matter, if his plans were generally adopted—more prosperous when normal conditions again prevail.

Mr. Tilley, it is said, has proposed to his renters to surrender their lease notes if they will agree to remain with him and plant only five acres of cotton to the plow, he agreeing to furnish them with the actual necessities and to take for his rent a part of the crops they grow, such as hay, corn, oats, potatoes, hogs and cattle. The same proposition, the News understands, is being made by Mr. Tilley to his croppers or share tenants. If Mr. Tilley's plan was generally adopted it would put the agricultural interests of Georgia on a much sounder basis and in a short while mean prosperity and independence for every one.—Dawson News.

RECIPES FOR CURING MEAT.

PLAIN SALT PORK.

Rub each piece of meat with fine common salt and pack closely in a barrel. Let stand over night. The next day weigh out 10 pounds of salt and 2 ounces of saltpeter to each 100 pounds of meat and dissolve in 4 gallons of boiling water. Pour this brine over the meat when cold, cover and weight down to keep it under the brine. Meat will pack best if cut into pieces about six inches square. The pork should be kept in the brine until used.

SUGAR-CURED HAMS AND BACON

When the meat is cooled rub each piece with salt and allow it to drain over night. Then pack it in a barrel with the hams and shoulders in the bottom, using the strips of bacon to fill in between or put on top. Weigh out for each 100 pounds of meat 8 pounds of salt, 2 pounds of brown sugar, and 2 ounces of saltpeter. Dissolve all in 4 gallons of water, and cover the meat with the brine. For summer use it will be safest to boil the brine before using. In that case it should be thoroughly cooled before it is used. For winter curing it is not necessary to boil the brine. Bacon strips should remain in the brine four to six weeks; hams six to eight weeks. This is a standard recipe and has given the best of satisfaction. Hams and bacon cured in the spring will keep right through the summer after they are smoked. The meat will be sweet and palatable if it is properly smoked, and the flavor will be good.

Dozen Members of Arctic Exploring Party Perished.

Twelve members of the Stefansson Arctic expedition have perished, it was learned when the United States revenue cutter Bear arrived in New York Monday with 11 survivors of the exploration ship Karluck's crew, rescued from Wrangell Island by the gasoline schooner King and Winge and transferred to the Bear 75 miles from Wrangell Island.

The Karluck was crushed in the ice last January and part of the crew, after incredible hardships and perils, reached Wrangell Island, 80 miles distant, on March 12 with 79 days' rations. These were exhausted about June 4. Death by starvation and cold were ever near the castaways until September 6, when the rescue ship arrived.
