

DON'T SURRENDER --- RETREAT A LITTLE, THEN FIGHT SOME MORE!

Everybody Reads Them Here.

If You Can't Do Big Business Do Something on a Smaller Scale--Try a little Ad and help to keep things moving

One Cent a Word.

There are literally scores of things that may be advertised with profit in these columns. Second hand vehicles, farm implements, machinery, furniture, seeds, poultry, live stock—such things as many people have and don't need and others do. You never know who wants them or where you can sell them, without trying. And those who wish to buy articles may often save many dollars by advertising their wants. Many others may have just the thing you want and be anxious to get rid of it at a low price. Both sellers and buyers can find profit in these columns. Count the words and send one cent for each. This is a cash column unless you have a regular account with the paper.

Some Good Advice to Young Men About Smartness.

Correspondence of The Journal.

Wingate, Oct. 5.—Miss Babel Cowan, a former student of the school, is spending some time with relatives in the village.

Mr. I. A. Connell, who moved to Charlotte some time ago, has moved back into his residence in the northern part of town.

Mr. W. A. Free, who has been on the sick list for some time, made a trip to Richmond, Va., last week for the purpose of securing hospital accommodations for treatment. He expects to return in a few days and spend a month in the Memorial Hospital. We hope he will derive much benefit from the course of treatment.

Mr. Eugene Griffin and little brother of Ansonville are visiting relatives in and around town.

A great moving picture show was billed to exhibit its wonders in the Woodman hall on last Tuesday evening, but owing to the meagre receipts in view the operator decided to keep his actors off the screen. We hope no one was severely disappointed.

It is the habit of the writer to endeavor to say something nice about every one whose name appears in his paragraphs. There is one class, however, whose rude, ill manners and ungentle habits seem to eclipse all the virtues that go to make up the true gentleman. I speak of that class of young gentlemen (?) who in an effort to be "smart" and to make a display of their wit (which is only the ape of wisdom) are ever ready, whenever possible, to change the real meaning of any proper and legitimate word or expression into a vulgarism—into low down black guard suggestive of sensuality, and that in the presence of their superiors and inferiors alike (if it can be said that such have any inferiors).

Now, young gentlemen—for I want to address you as such—wherever you are and wherever you may be, let one who has, in common with all good and pious and intelligent christian people, a profound interest in your success and welfare, admonish you to at once and forever abandon this contemptible and low down, ruminous habit and henceforth, for your own sakes and the sake of your father and mother and sisters and all civil people, and for God's and heaven's sake, let your words be pure and chaste and undefiled. Remember, dear young friend, that every thought and word and deed are daily and hourly being woven into character and that these thoughtless and seemingly innocent habits constitute a component part of the fabric and will mar its beauty and lessen its strength just in proportion as you make use of them in the process of weaving.

There are at least two reasons which have prompted the writing of this article: First, the necessity for some one to call the attention of the young to the evils of this and similar unmanly and detestable habits. The second cause that moved the writer to pen these lines is the profound interest that he feels in the young men of today, who are to be our leaders of tomorrow, and in the hope of helping, at least, some to loftier ideals and to a plane of purer and nobler manhood. If only in a limited degree it shall accomplish these ends the author will feel amply repaid for his feeble effort.

CONGRESSMEN ASK FOR MONEY.

Southerners Appealed to the President for Four Hundred and Fifty Millions But Nothing Comes of It. Washington Dispatch, 2nd.

Southern congressmen appealed to President Wilson today not to consent to an adjournment of Congress until the financial situation facing cotton planters is relieved and asked that \$450,000,000 in government funds be raised for loans to planters at three per cent interest. The President promised to discuss the situation with Secretary McAdoo and with other congressional leaders.

The delegation asked that money for loans be raised through the sale of \$200,000,000 worth of Panama Canal bonds, the issuance of \$200,000,000 worth of United States notes and the transfer to the South of \$50,000,000 of government money now deposited in national banks. It was proposed that the loans to the planters be made for periods from nine to twelve months at three per cent interest on cotton at an average price of ten cents a pound.

The delegation contended that under the national bank law banks may be authorized to act as fiscal agents and trustees of the government and under this provision the government and not the banks would be responsible for the money. The Southerners declared that if \$450,000,000 were available the situation would be relieved and a smaller amount would be actually called for.

As a precedent for sending money to the South, the President's callers referred to the deposit of government funds in Dayton after the flood. Representatives Lever of South Carolina and Hardwick of Georgia sought Secretary McAdoo's support for the Senate amendment to the bank law to authorize State banks to issue extra currency under the Freedmen section. Mr. McAdoo, however, reiterated his opposition.

The Cotton Meeting.

Again the rain prevented a large turnout at the cotton meeting held here last Saturday. A fair crowd of people came to the show that day considering the bad weather, and the number at the cotton meeting was as large as could have been expected.

The consensus of opinion among the business men and farmers present was that the only thing that could be of permanent help would be the growing of home supplies and cutting down the cotton acreage by each individual farmer. All speakers opposed the idea of passing a law to regulate acreage.

A committee was appointed to make further plans for an organization and to call another meeting when they are ready. This committee consists of the following gentlemen: W. C. Heath, T. J. W. Broom, J. M. Tomberlin, R. B. Redwine and George W. Smith.
