## DON'T PUT IT UNDER A BUSHEL.

If the articles you wish to advertise do not justify a large space, this column is the place for them. Don't put your light under a bushel because it is a small one. Don't be, in advertising, like the one talent man—get weak kneed and crawl off because you can't make a big show. Small advertising pays as well as large advertising. Cut the suit to fit the cloth.

For the benefit of our regular subscribers we are still inserting certain classes of advertising without charge. Any farmer subscriber may insert an ad of anything he wishes to buy or sell under this offer. Stock, poultry, eggs, farming implements, tools, corn, fodder or other produce comes under this head. The idea is that there are a great many such articles as this that a farmer has to sell or buy occasionally, but which he would not feel justified in paying for. We wish to furnish an easy means of communication between our subscribers. Nothing, of course, is taken under this head where a man follows a line as a regular business. For instance, if a farmer has a cow to sell, or wants to buy one, for his own use, no charge would be made. But if a man is a regular cow dealer, he would have to pay. This same is true of a man who runs a regular seed business, or keeps stock for public service.

Shoot in the ads and watch what they will do for you. Don't phone them in. Write or call at the office.

English Drug Company sells Mi-o-na with the understanding that if it does not banish all stomach distress your money will be returned on request.

## A COUNTRY GIRL'S CREED.

(By Flora Bullock.)

I believe that the country is a better place for me to live than the city, because it is cleaner, quieter and more beautiful. I believe that I can find no nobler work than to use all the knowledge and skill I can obtain to make my country home a place of happiness for my family and friends.

I believe that the community in which I live is a part of my home and that I should earnestly work with my neighbors to bring more helpfulness and joy into the community life.

I believe that God did not mean to shut me in a house, away from the free air and sunshine. I believe that all the blessings of the great outdoors are intended for me. I believe that for me, too, it is an ennobling privilege to work with Nature—to care for the life-giving soil with my own hands, to sow the seed and help it grow. I believe that all my life I should plan to have some work that calls me every day into the open air.

I believe in learning to enjoy good books, good music and good pictures. But most of all I believe in reading in Nature's unwritten books the wonderful stories of plants and animals; in listening to the music of birds and insects, of wind and rain; in watching the ever-changing pictures of earth and sky. For I believe that God has given all these things to make my country home beautiful and dear to me.

## HOW READERS CAN HELP THE PAPER.

The Journal is proud of its family. There are those who have been subscribers to the paper almost from its first issue twenty-one years ago. There are others who have been reading it only a short time.

Many of these often tell us how well they like the paper and what a service it is to them. We appreciate this very much. The ambition of the paper is to be of the greatest service to the people of Union county.

Those of our readers who feel like doing so could be of very great help by speaking a good word for the paper to those in their neighborhood who have never taken it. There are some such, and when they begin to read the paper they will be surprised at the way they will "take to it." We believe that there is not in North Carolina a two-times-a-week paper anything like The Journal for a dollar a year. Every intelligent citizen of the county ought to take this paper, no matter what others he takes. He will more than get his money's worth.

In asking for a change of address for your paper, please do not fail to give old address as well as the new one to which you want the paper changed. It is necessary for us to have the old address in order to be able to find your name on the list. We now have several requests for change of address which we can't find because they failed to give old address. Don't forget this.

Send in all the items of news you can, or if you wish to write an article for the paper, do so. But please do not fail to put your name somewhere on the sheet so that we will know who is sending the items. Several articles are now lying on the desk and we can't publish them because the writers failed to give their names. Your name will not be published unless you desire it.

And, finally, don't let your subscription get behind.

# Just Received!

Our second shipment of mules in the last three weeks has just arrived. All well broken, good blocky, and just the kind for farmers.
