MISS DORA LOVE DEAD

Second Death Added to Toll of Horrible Automobile Collision of Three Weeks Ago—Was Sister of Miss Bessie Love, Who Also Met

Her Death in Same Accident. The second victim was added to the toll of the horrible auto collision at the Icemorlee crossing on the night of Dec. 17, when Miss Dora Love died at her home in Icemorlee Sunday morning at 2 o'clock. She had been lingering between life and death for several days and her death was not unexpected. It was thought at first that she would ultimately recover, but some time ago a reaction set in and it was then realized that her condition was serious. Miss Love was the daughter of Mr. Jonah Love and was eighteen years of age. bore an excellent reputation and held

same auto collision, is very tragic. They, in company with Misses Mittle Davis, Letha Davis, Jane Funderburk and Messrs. Green Paxton and John Baucom, were returning home in a jitney, owned by Messrs. Furr Bros., and driven by Mr. Brown Helms, when the car ran headlong into a freight train standing on the Icemorlee crossing. The car was spending a few days in Wingate reand John Baucom, were returning Icemorlee crossing. The car was demolished and Miss Bessie Love Letha Davis and Mr. Green Paxton were injured.

Miss Dora Love was sitting in the front seat, next to the driver, in the ill-fated car. Miss Jane Funderburk was sitting in her lap, the force of the collision throwing her against Miss Love, inflicting internal in-

According to the Monroe correspondent of The Charlotte Observer, Mr. Jonah Love, father of the two girls, received \$4,700 from the Seaboard for damages. The other in-jured also received settlement for

Mt. Prospect News. Correspondence of The Journal.

Mt. Prospect, Jan. 6.—Mr. J. A. Plyler and little son, Joe Jr., of Gastonia spent last week with Mrs. M. A. Plyler Mr. Plyler moved from Little of Wadesboro, I said that he this county to Gastonia eleven years and I had the same birthday and He owns a nice home near Gastonia and is doing well.

The Basket supper given by the Betterment Club last Monday night was quite a success. The neat amount living were born on the same date, of \$43.85 was raised. A large crowd I hate to bungle and botch so. I'll was present and the behavior was

almost perfect.
Mr. W. F. Starnes after spending days with his people here, returned Correspondence of The Journal, Tuesday to Durham to resume his work a Trinity College.

Mr. and Mrs. Milton Spencer and children and Miss Ethel Spencer of Gastonia visited Mrs. H. L. Yarborough last week.

Miss Nancy Lathan, who has position in the millinery department at Belk Bros, is spending some time Va. with her people here.

Miss Myrtle Yarborough is visiting Miss Annie Lee Plyler of Marshville

The Betterment Club will meet Friday afternoon, Jan. 14. Every member is requested to be present. Every have not yet joined the club come and join. Let us endeavor to make our community. What are we going to do with all the golden opportunities to make our community and county a better place to live in, and life more worth living? This matter has been placed in our hands. What are we going to do about it?

The people of the community are very much grieved because of the death of consul Robert Ney Mc-Our heart felt sympathy goes out to the home circle which i saddened by the death of this bright young man.

WROTE TO HIS MOTHER CONCERNING SAFETY

Letter of Consul McNeeley Stating Persia Was Conveyed by Men-of-War Made Public,

Wilmington Dispatch, Jan. 10. The British liner Persia, sunk in the Mediteranean, left London convoyed by cruisers and destroyers and the escort was to be maintained "all the way" according to a letter written by Consul Robert Ney McNeeley, who was lost when the liner went down. The letter was addressed to his mother, Mrs. W. R. McNeeley, at Waxhaw, N. C., and mailed at Essex, England, December 18, the date the Persia left London for Alexandria, Egypt, and was made public here toby Mr. Pratt McNeeley, brother of the late Consul.

We are starting out from London on the Persia, a very good steamer, convoyed by cruisers and destroyers all the way, so it is said passage on this steamer is entirely safe," Consul McNeeley. He added that another letter would be mailed from Gibraltar the ensuing Friday hat Christmas day would be spent at Marseilles.

Jones observed an old lady sitting across the room. For heaven's sake," he remarked to Robinson, "who is that extraordi-

narily ugly woman there?" answered Robinson coldly, "is my wife."

Jones was taken back, buck quickly recovered himself. Well," he said persuasively, "you just ought to see mine."

Brief Locals and Personals from Wingate

Correspondence of The Journal. Wingate, Jan. 10.-Friday was dark and rainy day. Just an ideal day for the spit and argy clubs to

her at the stores, sit around the nuts and lunch on "hump sticks" and hard tack. Yes, all weather is good for some things and for some-

body. Esq. H. K. Helms has recently purchased of Mr. John Brown of Hamlet, the house and lot opposite the small red house occupied by Mr. of the Near Eastern campaign for the school and the social lems; christianity and social lems; christianity and social gress; the school and the social Charley Evans, west of the railroad station.

Mrs. Wiley Hefner, and stepdaugh-ter, Miss Nell, spent Saturday in Monroe visiting and shopping.

England's internal affairs quiet, pending the reassembling of Parliament. There will be a full dress debate on the compulsion bill tions throughout the State that can Tuesday, with David Lloyd-George, Minister of Munitions, and Arthur who has just resigned from the Cabinet, as the probable star speakers. Sir Henry Dalziel, who has been one of the most consistent critics of the Government also will give his reasons why he supports the Covernment on this

The Labor party will meet early in the week to consider its position. Unless, however, opposition to the bill develops, a strength of which there is no indication now, there seems small liklihood that the Government will feel any need to appeal to the

Peculiar Resolution of a Business Man

"I am not making but one resolution this new year," said an energetic business man recently, that is to take better care of my health and take time to live right -that is to give my body the treatment it deserves.

"I'm just ebeginning to realize," "that it is more than a personal matter as to whether we have good health or not. It is such a foolish idea, that old notion that we get sick because we can't help it. Pro-bably we couldn't help it years ago when we didn't know anything about the causes of diseases nor the ways 90 years. A week ago, apparently of preventing them. Then, in our tired of life, he cut his throat and ignorance, we just simply took every disease that came along and said God sent them.

Today it's different. Science has tuaght us bettr. Health is as much an intellectual matter as is character. moral obligation. The trouble few are willing to pay the price. takes time and effort. Most people run their lives in such a slip-shod fashion that they haven't the time to eat properly, to think properly, nor to rest properly. They have no time for exercise, no time for mental recreation, no time for taking care of themselves. The only thing they do find time for is to die before their time because they couldn't find time to live right.

'As for me," said the speaker, intend ot use the same amount of in telligence in keeping up my health this year that I shall use in keeping up my business. One is as much my

Alister, president of the conference, Dr. Melion Clark of Greensboro, N. C. and a number of other speakers of ability and reputation. The central idea of this conven-tion is going to be the welfare of the

child, and the purpose of the convention will be to set forth certain propaganda and a definite program on this subject and to provide means whereby such propaganda can out to all institutions and organizacontribute anything to the welfare of childhood and to secure adoption vention will mark an epoch in the progress of the welfare of childhood in North Carolina. The value of this convention is going to depend largely upon whether or not the representative earnest thinking people of the state attend its sessions. It will be an education in community service. Charlotte is making elaborate preparations for the convention. promises to be the largest and best convention that the conference has ever held. All who are interested in community progress are invited.

BUILD AN ARMY THAT CAN WORK AS WELL AS FIGHT are employed.

Invincible Amreica; a Plan of Con- Killed Because He Drove By Another structive Defense — How United States Can Have a Large Army of Emerson Wright of Trained Men Without Waste of Men and Money.

The question of preparedness occupling the uppermost thoughts of the sixty-fourth Congress, now in for Laud Quick, session. Various plans have been did the shooting. suggested as substitutes for President Wilson's original scheme, but that given notoriety by Senator Works is interesting. It was suggested by Harry G. Traver, an editorial writer, and follows:

There are two sides to the army we should maintain a hundred thousand men in practical idleness, waste their time on useless effort, waste the money spent on their equipment and maintenance, and develop a large class of men who have few ideals except to kill the enemies of their country.

The advocates of a large army ask How can we be prepared to defend our great country with its thousands of miles of coast line, our cities, and our homes without keeping up a large army and a proper reserve who were buried this morning at are trained to fight? How can we. Wright cemetery near his home. they ask, ignore the fact that great nations call treaties "only scraps of How can we defend the doctrine? How can we paper?" How can Monroe doctrine? maintain our national dignity when such great disputes arise? How can we defend ourselves from a foreign foe who may land on our shores with a great army when we have barely 50,000 men today who could take the field? That number is scarcely nations now engaged in the death struggle in Europe. As for the proocean, distances today are so short fought twice as far away from Europe as the distance across the At-

and in the regular army have labored faithfully against serious difficulties to build up dependable organiza-Service to be Held January 23-26. tions, and in many cases they have succeded. In the Civil War and in the Spanish-American War there the Allies of the Gallipoli Peninsula have now been abandoned with the wounding of only one man among the British and French, according to a British official statement issued to night. the church and social service; the against the seasoned and well-trained troops of other great nations be nothing less than criminal slaughter. To send the regular army is ail out of the question, as it contains at fare, with numerous sub-divisions of present only 86,000 men in all, most of whom are necessary to defend the insular possessions and to man the fortifications and army posts.

Now the regular army already costs \$100,000,000 per year, or \$1. 160 per year per man, which is from two to four times the cost per man of the army of any other nation. The militia, too, is very expensive, though it is not completely trained nor equipped for active service. To increase the regular army and militia to what is considerd adequate size, and to place each in a proper condition for service, will cost this country at least \$400,000,000 per year, or more than any other country on earth. To remedy the existing defects and to meet the needs of the United States for an adequate army without wasting a dollar or a nfan is the object of the new system here offered.

The new system consists simply in developing on a large scale the method found so successful in building the great Panama canal, namely. place the great reclamation projects, the great road-building schemes, the great Mississippie river improvement. and other great and much-needed public works under the control of the United States Army Engineers. Give these engineers an army of young men who can handle a pick and shovel, live in the open, drive mules, load wagons, operate motor trucks, and do such work and live such a life as that required of a soldier. That the Army Engineers built and completed successmully and economically the greatest engineering feat of mouern times at Panama, after other agencies had fallen, is sufficient proof that they are equal to this new task. At Panama it was necessary to hire foreign labor on account of the climate, but in this country the common soldier can do all of the work.

Soldiers will be enlisted with this end in view from the very start. They will constitute a vast industrial army under the control of the War Depart ment; there will be important work to the rawest recruit; and all the men being profitably employed, it will be possible to maintain an army against Sedagora. of 500,000 or more with a mere fraction of the loss and waste that is

common under our present system. These men will be enlisted for a tractive enough to get sufficient good conducted under the regular discipvarious places where the work is bewill be devoted to drill and other mil- East. itary training. On Saturdays extensive maneuvers will be practiced. Here, then, in a nutshell is the men in a few years at very little more expense that the cost of the great engineering works on which the men

Emerson Wright, of this place,

died yesterday following a wound received Monday night when he was fired on while returning home from Bennittsville. Officers are searching for Laud Quick, who, it is charged,

Mr. Wright went to Bennettsville Monday and was returning home Monday night. About eight o'clock two miles west of Gibson, he drove up near a buggy and told the parties that he was in a hurry to get home and would drive by them. Some one question. Peace advocates ask why in the other buggy told him that he would kill the first one who attempted to drive by him. Mr. Wright, course thought he was only joking with him and kept on driving. Just as he got in front of the buggy some one fired four times, the last ball hitting Mr. Wright in the back of tahe neek.

He was hurried to the Hamlet Hospital, at which place he died yesterday morning at 12:30 o'clock. His remains were brought to Gib-

son on yesterday morning's train and were buried this morning at the

THE LATEST WAR NEWS

Fighting of Russians and Austrians As Bloody As Any in the Whole War—Fear of German Move in the

London Dispatch, 10th.

While the Russian front has been quiet during the past 24 hours has been severe fighting in the other

war theaters On the Montenegrin front th trians have been generally suc ful. They have advanced their tions at several important point despite the handicap of snow wa'ntdeep, and are showing themselves just as adept as the Montenegrins in mountain fighting which hereofore has been regarded as the particular

specialty of the Montenegrin soldiers. In Champagne the French have repulsed four German attacks. The Germans, however, have retained a foothold at two places in the French

In Persia, British reinforcemnts on their way to the relief of Kut-el-Amara have met Turkish forces which were compelled to retire after

some heavy fighting.

The Petrograd official communication says that the calm on the Czornowitz front is due to the huge losses and resulting demoralization of the Austro-Hungarian Army. That there some basis for this statement is evident from the estimate of the Hungarian newspaper Pester Lleyd that the losses on both sides of the Bessarabian battles so far exceded 175,000 or more than the total British losses in the whole Dardanelles

campaign. Another Hungarian newspaper states on the authority of a staff report that the fighting on this front has been the bitterest and bloodlest in the history of the war, both sides sacrificing men in a manner without parallel.

Aeroplane Skirmishes

The Saloniki front is chiefly notable in the day's dispatches as the scene of almost continued aeroplane skirmishes, one of which continued for two hours. The Germans have thus far lost six aeroplanes in this region.

The rumor that the consuls of the Teutonic allies arrested at Saloniki had been released appears to have been without formation as it now is announced that they have been transferred to a French auxiliary co-Extensive Turkish represals are already announced of the Central Pow-

Burlington Child Kills Itself.

The eighteen-month-old child of Ray Morton, an employe of the Lakeside mill at Burlington, was instantly killed Monday morning when a gun it was playing with discharged its load into the left eye, scattering the pieces of its head and brains over the room. It is not known just how it happened, as no one was present, but it is supposed that the child got hold of the gun which was left sitting by the bed and was dragging it around the room, as the gun was too heavy for the child to lift, and that the hammer caught in a crevice of the floor. The mother was out milking at the time and ran to the house on hearing the explosion, finding the child gasping its last breath.

Well dressed and securely tucked away in a basket, a baby boy about four weeks old was found on the door steps of Mr. H. G. Lippard, a well known citizen of Woodleaf, Rowan county, Sunday night. There is no clue to the parents of the child which has apparently been abandoned. The child well and strong, bears marks of having come from a good family and was discovered before Mr. Lippard and family had retired for the night. They are caring for the waif. A strange woman was seen near the depot about midnight and it is believed the babe was taken from a passing experiences, but say they bagged train, though the affair is still a

> Cupid, Too, Was Up-to-Date. "Engaged to four girls at once?" exclaimed the borrified uncle. "How do you explain such shameless con-

duct? "I don't know," said the graceless nephew. "I guess Cupid must have shot me with a machine gun."
