VILLA BANTITS CROSS BORDER AND KILL SEVERAL AMERICANS

bandit, raided United States territory today. With 500 men he attacked Columbus, killed at least 16 Americans and ared many buildings before he was driven back across the international border. Not less than 250 troopers of the

Thirteenth United States Cavalry foltowed the Villa band into Mexico. Reports to Col. H. J. Slocum, commanding United States troops at this point, late today stated that Villa sued. In this engagement an un-named private was killed and Capt. George Williams, Adjutant of the Thirteenth Cavalry was wounded.

The small detachment of troopers under Maj. Frank Tompkins and El-mer Linsley, fighting dismounted, made a determined stand against the renewed Villa attack and at last re-ports were holding their ground.

The raid on American territory proved costly to the bandit chieftain. The bedies of 18 bandits, including Pablo Lopez, second in command, had been gathered and burned before noon and troopers reported an undetermined number of dead still lying in the brush.

Led to the attack under the slogan "Death to the Americans," Villa's followers fought with desperation. Just before dawn they crept along ditches skirting the United States cavalry camp and rushed the sleeping town, firing heavily.

The first volley brought American troopers into almost instant action. While a portion of the raiders engaged the cavalry, others began applying the torch and shooting American civilians who ventured from the buildings. Lights in homes and public buildings immediately became targets for snipers posted at Villa's direction. Other bandits creeping close to American homes, enticed a number of civilians into the open ing. with English spoken invitations. A mak number of fatalities are attributed to

Stores were looted, oil was poured upon frame structures, and the match applied by still other bandits. The postoffice was raided, furniture smashed, but the looters secured only

one small registered package.

The casualties of the Thirteenth Cavalry in the fighting at Calumbus were seven killed and six wounded. Villa's total losses in the day's fight were estimated in excess of 10 killed and twice as many wounded. The American pursuit into Mexico, which ended about 2 o'clock, was reported to have accounted for more than 75

Mexicans killed and wounded. The American losses on the Mexican side was one corporal slain when Villa threw out a heavy guard to engage the pursuing American troop-

That outrage was laid at the door of Pablo Lopez, Villa's second in command. If so the Americans have apparently been avenged, for a body among the invaders slain by the troopers was identified as that of

Lopez. The day's events were accepetd as confirmation of recent reports, that Villa, disgruntled at Washington's attitude in favor of his rival, General Carranza, had determined to bring about intervention if possible, and that this rather than robbery, was

the motive behind the massacre. On Tuesday last Villa hanged three Americans. Yesterday, to a fugitive Mexican who said that to publish his name would mean his death, asserted that Villa addressed his men to the effect that the killing of Americans were justifiable because the United States was responsible for the wretch ed conditions of the Mexican people The ignorant poons received his words with cheers and cries of "vive

Three troops of cavalry were post-d on the boundary tonight. A batand on the boundary tonight. A bat-talion of infantry and a sunadren of the Flight Cavalry from Fort Bliss left El Paso late today to reinforce the troops here. With these forces Colonel Sloucum said he could handle any further attack Villa in despera-ation might decide to make.

Many citizens barricaded them-selves in their homes and fired at the Mexicans as they darted through the streets. The fighting in the town ended almost as suddenly as it began. Many citizens barricaded them Less than two hours after the first the lights are turned on that was fired Villa's buglers sounded the retreat and the raiders began by the American troops.

Washington Dispatch, March 9.

Washington stands squarely behind Colonel Slocum in sending cavalry in to Mexico in pursuit of Francisco Villa and his band of outlaws who raided Columbus, N. M., today murdering American soldiers and citizens and firing the town.

Secretary Lansing tonight inform ed the de facto government of Mexico through Eliseo Arredondo, its Ambassador designated here, that he trusted no objection would be made to the action of the American troops they having followed what is known in military circles as a "hot trail. No orders have been issued for the return of the soldiers and it is not probably that any will be issued for

the present. Shocked indignation occasioned by news of Villa's outrage was quickly succeeded by undisguised satisfaction in offical and congressional circles over the knowledge that after three years of patient forbearance United States troops actually were on Mexican soil to avenge the death of their comrades and bring to justice the outlaws whose depredations have terrorized Americans on both sides of the border.

Reports that the American treopers were in action tenight against a much larger force of bandits, were troops came. It was riddled with heard with anxious interest in official circles.

General Funs-ton has full authority on the border and is making such troop movements as he thinks necessary. Even he, however, is not fully informed as to what Colonel Slocum has done.

A brief report reached the Depart-ment during the day telling of the raid, but afterward General Funsion relayed a dispatch from Brig. Gen. Pershing, telling of a telephone re-port from Colonel Slocum and announcing that five troops had been sent across the border with instructions not to go more than two miles Tonight General Funston sent thi
