REPUBLICANS AN DEMOCRATS CANNOT HUG AND KISS

And For this Reason Student Says It Would Never Do for a Man and His Wife Both to Vote.

Correspondence of The Journal.

Rockingham, June 27.—Well Pad your gun was true, and I will say it was sure loaded with smokeless powder too, never made a bit of fuss. The syntax of your speech was perfect, but my dear Pad, you missed your guess on suffrage as had as if you had guessed Jupiter was a milestone, instead of a planet of the first magnitude.

To begin with I just want to say that you will doubtless have to make amends to the Daughters of the Confederacy for accusing them of being suffragettes. As Pad led me down the main street in Monroe by the hand, and the tears gushing out of his eyes and streaming down his face and with trembling hand pointed to the Confederate monument and said, "Look what the women folks done," and the look he had on his face was that of woman suffrage, Pad, I will just inform you that the Daughters of the Confederacy are not your kind, for they are doing good and do not want to fool so much previous time away with the ballot. They do not want to vote and consequently are not suffragettes as you tried to picture to me. Oh! you silly girls trying to be free from political slavery. If I may make the assertion you have been free from political slavery nineteen-hundred and sixteen years, you more than that. You have long since been emancipated from political slavery, and you have been placed upon a throne of grace and respect, the most noblest that God and man have ever erected. Now, Pad, your girls and women want to flop right down from their lordly perch right into the muck and mire of partisan politics. May I say it with all due respect to the feminine race and your demands, the price is not too great for any such sacrifice. Man has rescued you from a political hell, and has placed you upon your godly altar, and when you step down or man removes you, God have mercy upon us for the golden bowl of purity will be broken, the silver chard of chastity will be loosened and the reign of a Chaos and an old Knight will have come. Girls, say you have the right to vote, will it be worth the price to abandon home duties, and the wives to give up all thought of a comfortable home, and to go out canvassing for some blockhead politician? Yes, that is what they are doing in those states that Pad mentioned in his letter, and did you not know it, there are many homes that are broken up beyond repair, that was once happy dwelling places, but now cupid stands back horrified for the sacred ties that he constructed are severed forever by your thing called woman suffrage. Disunion in politics will cause a disunion in the homes. That is true of other states, and if you try it the same will be true here. I can say emphatically, and I think it is true, woman suffrage will be detrimental to our State, because it will wreck the most important institutions of the State, the homes. We can have better a debauchery government better than we can have debauchery in the homes. Now, Pad, if you think your women can purify politics I want to tell you that they will never do it. Politics will besmirch them with the most vile flattery and slander that the feminine race ever met with. Why? Because you women will be put on equality with the men, free and equal rights as you say, and that means the respect that men have for you will be covered by your own act. Girls and your champions, this thing that you are clamoring for called suffrage is nothing but an illusion an ignifantus, false light, a mirage that will lead you thousands of miles from home, your God given sphere. It may seem pleasing at first roaming about after this mirage on the political desert, but when the frost of many winters have settled on your head, and you bended with the years and political cares, there YOU will die a slave to politics, uncared for, unloved, not respected, only a suffragette. And you thought that you was seeking or had political freedom. You are the only class that have political freedom. This suffrage question is an intrigue gotten up by some vile politicians, and I am sorry to say that many are falling under the influence, but ah! such a class. Show me a woman that is really in favor of suffrage, and I will show you a woman that has figured in some of the world renowned divorce cases at Reno, Nevada, or Denver, Colorado, literally a woman of the underworld. Pad, this is the kind of women that are the champions of woman suffrage, and the male champions that are canvassing the whole United States and have lost their heads over this question of "Suffrage" are on a whole nothing but libertines. This class are the starters of suffrage.

Now show me a woman that is not in favor of woman suffrage, and I will show you a happy wife, a mother, a sweetheart, the ones that are making the most of life, the leaders in the best societies, the women that are solving the economical problems of household duties, the women that are solving the servant problem and one that can spread an influence over you and me without the ballot. The Daughters of the Confederacy, Pad, Yes, Pad, it has been said, and truly said, that the hand that rocks the cradle rules the world. But you women are not contented with the power of ruling the world (I mean you as a woman, Pad). Women and girls, will it not be much nobler for you to let politics alone and devote your time more to those scientific cooking problems that you know nothing of whatever? As Hannibal gazed upon the bleeding head of his dead brother whom the Romans threw over in his camp, he prophetically exclaimed, "Carthage, I see thy fate!" He thinks today as I look on this mad rush of womanhood to gain this thing my friend Pad calls "woman suffrage," America I read thy fate, and ah! such a fate!

Probably you suffragette if you think of it may call this thing "equal rights" a renaissance of the twentieth century to participate for ever woman out from under your political bondage, but it will not do it, you are free now, free as the equinox winds that blow over the distant seas. We need a renaissance in this age all right, but not of this nature. The old civilization contains treasures of permanent value which the world could not spare, which the world will never be able or willing to give up and that is PURE womanhood. America must not sacrifice that. I verily believe that suffrage will be recorded in the history of America as Scholasticism was in Europe. It will only have the same effect that scholasticism had on Europe. The principle of scholasticism was just grand and many believed in it, until it fell into the hands of the vile and scheming scum of creation. So is woman suffrage. The principle is all right if you will omit the political side. I was glad to read in Dr. Steward's speech to the ladies that he believed in the principle of woman suffrage in the degree that he discussed. I believe every one will permit suffrage to that extent, but for the sake of heaven stop before reaching the political hell that is standing open ready to devour the most noble souls that God ever created.

In the eddies of time we are continually hearing of some great device by which to revolutionize the world, but it never fulfills the claims of its champions and this suffrage scheme is the latest agony.

Don't anybody dare say that it is a selfish motive that prompts Scapogot and myself to take the stand that we do, for I can prove beyond a doubt that it would be of interest to us individually to let all vote.

You girls must in order to vote, register TWENTY-ONE years old, pay your poll tax and then vote. Ha! that's easy isn't it? But now your ages you girls know how ticklish you are about telling your age so if you ever voted before you get married we will certainly find out how old you are. But you girls would never get old enough to vote until you got married on account of exposing your age. You see Scapogot and myself have lain aside our selfishness and have come out willingly to defend you against the tempter's snares that are being set by our once, and seemingly your friend Pad. He is your opponent truly and not us, and you girls have taken sides with him. Oh! yes, you are intelligent enough to vote alright, but intelligence can be and has been blighted by improper thoughts and cares. So, this suffrage business is very improper for ladies to have anything to do with, and the cares of home and politics combined will send many a fair creature to a premature grave.

Touching a vital point now Pad, woman suffrage will stop LOVE making and marrying for love. Prove it! Sure. If marrying goes on when you get your suffrage it will be only as a business proposition and no love at all. I can prove it girls. Just suppose, (no but it may be the truth now but it will not show until you get in a position to vote), your sweet-heart is a Republican and you are a Democrat, do you suppose he would come across to your party or you to his. He would not if he was a man. No, neither of you would give up but what you were right. Now a Republican hugging and kissing a Democrat because he loved her is beyond doubt the most astonishing thing that would ever confront the American people. Just the idea is preposterous and woman suffrage is still worse.

Now about disunion in politics and in the homes. If there would be no disunion in politics there would be no difference from the way it is now only there would just be more votes to count and that would be all. And disunion in politics will cause a disunion of man and wife in their private life, so just think for one moment about the ruined homes that are in the suffrage states and then bring it to North Carolina! Oh, heaven forbid!

Ta, ta, until my second round.—The Student.

Col. Roosevelt Would Offer Division of 12,000.

Theodore Roosevelt is preparing to offer a division of approximately 12,000 men to the United States government, accompanied by his application for a commission as major general, in the event of war with Mexico and a call by the President for volunteers, is the report from New York.

Elaborate plans have been made quietly to recruit the organization from picked men throughout the country and it is said that Colonel Roosevelt has worked out every detail that would expedite the mobilization of the large fighting unit. Even the horses and mules necessary are said to have been pledged.

SHOULD SLOAN'S LINIMENT GO ALONG.

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.
