Red Cross Notes

Our secretary, Mrs. R. F. Beasley, having heard from Red Cross headquarters, a call meeting of all the leaders of the Red Cross units named in last week's Journal will meet Tuesday morning at 10 o'clock in the hospital building to hear this letter read and decide upon our special work which we hope to begin just as early as possible. Please remember the time and every one be on hand.

We wish to acknowledge with thanks a check for \$5.50 from Mt. Olive Sunday school, sent in by their superintendent. We do commend the efforts of this Sunday school in doing their "bit" in this work of mercy and love, and it is an example worthy of emulation by all the other Sunday schools of the county. The children when they feel that they have a part in doing their bit too. Let's hear from some other Sunday schools.

We do so much need the co-operation and assistance of the women of the county in making this Red Cross work a success. Our efforts will be reported and known as Red Cross work of Union county and not Monroe alone. Now let each individual woman in Union county ask herself "What can I as a woman do" in regard to Red Cross work and let's render all the aid we can as a band of organized women of Union county. I shall appreciate it so much if on the different townships one or two women will take the initiative, write me a card and I shall be glad to assist you all I can in organizing your unit and send you sample of pillow cases, size and quality.

A partial list of Red Cross needs in sewing is given below taken from the official circular issued by the American National Red Cross, Washington, D. C., from whom copies may be obtained:

Sheets—Size, 63 inches; 2-inch hem at top and 1-inch hem at bottom. Material: Heavy bleached or unbleached muslin.

Pillowcases—Size, 34 inches long, 21 inches wide, finished. Directions: Use 42-inch heavy bleached muslin, cut 36 inches long; make 2-inch hem.

Towels—Size, medium. Material: Preferably linen huck.

Turkish Bath Towels—Size, medium.

Washcloths—Size, 19 in. square. Material: Knit crocheted from cotton yarn, or made from old Turkish toweling, heavy towels or counterpanes.

Hospital Bed Sheets—Size, 17. Material: Plain or twilled white muslin, unbleached muslin; or outing flannel for winter use.

Socks—Length of foot, about 11 inches. Material: Woolen yarn, gray, brown, black or dark blue. Ready-made socks, either wool or cotton, are also acceptable. Place moth ball in toe of each woolen sock.

Handkerchiefs—Size, 18 inches square. Linen or cotton.

Substitutes for Handkerchiefs—Size, 18 inches square. Material: Old linen or muslin, hemmed or unhemmed.

Table Napkins—Size, 14 inches square, hemmed. Material: Old table linen or napkins.

Tray Covers—Size, 15 by 22 inches hemmed. Material: Old table linen. Articles made from old linen may be used in an emergency for surgical dressings. The material should, therefore, be freshly laundered and boiled.

Our merchants have agreed to sell us their material at cost and I'm sure your nearest merchant will do the same if you will mention this when you make your purchase.

We want to ask the leaders to organize their units at once, inviting every woman. They can belong to a unit contributing to and assisting in Red Cross hospital supplies without being members of the Red Cross, though we would much rather take their names and 50 and enroll them as Red Cross members too.

Now in order to facilitate the work the officers have given us permission to appoint Wednesday, July 18th, as Red Cross day, and have a house to house canvass for Red Cross hospital supplies and also membership in Red Cross. We want every body in Monroe and Union county to have opportunity and privilege of contributing to this great work.

Do you know that Monroe has only 125 Red Cross members out of a population of 5000 people? Let every person in Monroe and Union county make Saturday a red letter day, and make their service felt in the direction of Red Cross work.

The following young ladies are asked to canvass their wards, giving every man, woman and child an opportunity to do their bit:

Ward 1.—Misses Ruth Russell, Lillieann Carson Yates, Ola Bruner, Mesdames E. C. Ingram and Wriston Lee.

Ward 2.—Misses Mabel Lane, Annie Sanders, Louise Morrow, Caroline Morrow, Mesdames Emsley Griffin and Chas. Redfern.

Ward 3.—Misses Daisy Belk, Annie May Ashcraft, Antonette Beasley, Annie Lee, Mesdames R. F. Beasley and J. D. Warren.

Ward 4.—Misses Olive Abernethy, Mary Griffith, Octavia Houston, Mesdames Walter Henderson and A. M. Secret.

We shall be glad to have these ladies meet with the committee Thursday and help us to plan this work so as to expedite matters.

We want to ask the ladies to bring or send a chair to the meeting Tuesday morning. We shall need chairs if we use our work rooms for headquarters.—Mrs. W. A. Lane, Chairman Red Cross Com. on Supplies.

Notice of Pension Board's Meeting.
The Pension Board of Union county will meet in the Clerk of Court's office on July 23rd and 24th, to consider applications for pensions. All who desire to apply for a pension from the State as a confederate soldier or widow of a confederate soldier will meet the board on the date named, and their application will receive careful consideration.

If any should have any other business with the Board they should meet here on that date as there will be no other meeting of the Board during this year.

By order of the Board,
R. W. LEMMOND, Clerk to Board.

A Little Fun With the Neighbors.

Charlie and Rosa went out to ride—Charlie said, "Rosa, will you be my bride?"

Rosa said, "Charlie, if you will wait one year

Then I will, if mother don't care."

Charlie said, "Rosa, I love you so well.

How much I love you no tongue can tell."

Rosa said, "Charlie, I don't care if you do;

The truth of it is, I love you."

"Now," said Charlie, "it is no use to wait.

Some folks never get married until it is all too late."

Rosa said, "I expect to get married some of these days;

If my mind don't change I shall not wait always."

Charlie said, "I am obliged to get married—I'm needing a hand.

How can I get along without a wife, I don't understand."

Rosa said, "I don't like to get married just to be a hand.

I want a husband who can till his own land."

Then said Charlie, "You will only have to cook and milk the cows.

I never intend for my wife to plow."

Now said Rosa, "That pleases me.

And I care but little how soon it will be."

Now they whip up and home they go.

They have good news to speak.

"We have something to tell you that you don't know—

We are going to get married next week."

—Ellis Godwin.

Are You One of Them?

There are a great many people who would be very much benefitted by taking Chamberlain's Tablets for a week for disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

An Irishman was telling his friend of a narrow escape in the war. The Irishman said: "The bullet went in me chest and came out me back."

"But," said the friend, "it would go through your heart and kill you."

"Me heart was in me mouth at the time," said the Irishman.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with party or muddy complexions; instead of the multitudes of "nervy wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening, and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

Life Insurance is the flower of love surviving the frost of death.

FOUR WEIGHTY REASONS FOR LIFE INSURANCE.

- FIRST—Statistics tell us that only two men in one hundred succeed in business.
- SECOND—That only one man in thirty has sufficient for old age.
- THIRD—That in the settlement of valuable estates scarcely one per cent reaches or maintains the valuation of the Testator.
- FOURTH—That the number of contested wills is very large.

IF YOU could pay the cost of a life policy and neglected to do so, it's a mean thing for you to go up to Heaven, while your family go to the poor-house. You, at death, move into a mansion, river front, and they move into two rooms on the fourth story back of a tenement house. When they are out at the elbows and knees, the thought of your splendid robe in Heaven will not keep them warm. The minister may preach a splendid sermon over your remains and the quartette may sing like four angels in the organ loft, but your death will be a swindle.

TALK WITH ME BEFORE IT IS TOO LATE.

FOREST FIRES ARE CONSTANT MENACE

PEOPLE SHOULD ORGANIZE TO PREVENT RUTHLESS DESTRUCTION OF PROPERTY.

BIG FIRES HARD TO SUBDUED

Farmers in One Rural District Have Prevented Serious Losses by Organizing.

The following extract from the Mill Springs correspondent of the Polk County News and Tryon Bee again calls attention to the constant menace to life and the enormous damage to property incident to forest fires:

"A destructive fire has been raging on White Oak Mountain for several days. Our people should organize themselves in different ways to prevent such ruthless destruction of our forests by ignorant and evil minded persons. Owing to the strong winds at this time of the year, it is very difficult to subdue such fires when once they get started."

In a recent issue of Farm and Fireside a story appears telling of the organization of a farmers fire league which was organized by a California community and has proved a valuable asset to farmers and property owners in hitherto much menaced locality.

It was at Oakdale, a rural district in California, which was in the midst of a well timbered section where the scenery was very attractive and was a favorite place for campers during the pleasant weather. One fall after an unusual amount of destruction had been wrought by fires the Farmers' Fire League was organized. A social was given, which every one attended and the first funds for the society were raised. Axes, long handled rakes and hoes and other implements were procured and distributed at the various small shacks built as fire fighting stations in convenient places. On a high hill they established a "lookout" and the simplest of telephone systems, also a comprehensive code of signals. At the first appearance of fire notices were given all along the line and league members from far and near rallied at the danger points. When necessary day and night brigades were formed.

The successful work of the league interested others and it has grown continuously since the autumn of 1912 when it was formed and losses by fire since that time have been exceedingly small in the district covered and there is a feeling of security which formerly was absent.

How To Stop Loss of Hair and Start New Growth

If your hair is thinning out, lifeless, full of dandruff, and your head itches like mad, it's a sure sign of the dangerous dandruff germ, and quick action must be taken to save what hair you have and start a new growth. Don't wait until the hair root is dead, for then nothing can help you, but get from your druggist four ounces of Parisian sage—it don't cost much and there is nothing you could use that's any better. Dr. Sangerbund, the famous Paris specialist, discovered that dandruff and falling hair are caused by a microbe—then came the discovery of the value of Parisian sage (liquid form) to destroy this germ, prevent falling hair and the formation of dandruff. A few messages with Parisian sage are all that are usually needed, and very soon you should be able to see the new hairs coming in. Parisian sage is women's favorite hair dressing, because it will not stain and makes the hair lustrous, soft and fluffy. Be sure you get Parisian sage (Giroux's), for this brand is guaranteed. English Drug Co. can supply you.
