

# Bohumir Kryl and His Great Band a Feature of This Year's Chautauqua

Twice before Bohumir Kryl has made a tour with his band of the big Seven Day Redpath Chautauqua circuit. Both tours were so wonderfully successful that ever since there have been repeated requests for Mr. Kryl and his band again to go over the circuit. This year, for the third time, the Redpath Chautauqua announces the engagement of Mr. Kryl and his band. Inasmuch as so many Chautauqua patrons know the high quality of music to be expected from the Kryl band there is no question but what Band Day will be one of the big days of Chautauqua week. The band which is to make this tour is composed of from 30 to 35 of Mr. Kryl's best players. Mr. Kryl and his band will appear afternoon and night of the fifth day.

**Say, Folks—  
I was over there  
and I KNOW!**

- I saw the Salvation Army at Chateau Thierry!
- I saw the Salvation Army where the fighting was thickest!
- I saw the Salvation Army where the suffering was greatest!
- They were just plain people--ready to smile--ready to work--to cook a doughnut--or to say a prayer!

The Salvation Army, back home with new inspiration, has taken up its time-worn fight on behalf of the poor, the weak, and the unfortunate in the United States!

## THE ARMY MULE MADE FINE RECORD DURING WORLD WAR

Total Number of Animals Supplied to A. E. F. Was 571,178, Valued at \$144,794,652—The Sam Gompers of Camp Gordon.

The following facts compiled by the Literary Digest gives some idea of the number and cost of mules supplied the A. E. F. Without them some of the feats of the American army would have been impossible.

There were no trotters of the Maud S. class discovered in the horses bought for cannon fodder, but there were some surprises among the mules. At Camp Travis there is one now, a big piebald jack that would be a prize for any circus. Nobody can ride him and everybody can teach him tricks. He is said to make an attempt to give a salute with a sardonic grin and a bow every time he meets an officer and to let out a contemptuous squawk when he is ignored. He works on occasion, but never in harness with a mate, and is ready to box without gloves any man or mule at any time.

Camp Gordon has a mule that knows all the bugle-calls, but pays attention to one only. The reveille may sound, the assembly, the mess, taps, or retreat, but all fall on his wagging ears unnoticed. But let this so called stupid brute at work anywhere within reach of a wireless note of the bugler sounding "recall," there is a bolt for the stable that often leaves the driver behind on the ground and a spurt in high gear over the roads on the camp. The men call this mule Sam Gompers, not out of disrespect for the champion of labor, but in compliment to the mule, because he knows how long a day's work ought to be. Then there is the ice-wagon mule, so called because he needs no driver to start or stop him when the daily mule rations are to be dumped along the row of their feed-boxes.

Some figures are furnished as to the strength of the army of mules that did their bit for the safety of the well-known democracy. The total number was 124,187, including those in France and in the camps in this country. Further:

There were 20,644 members serving under the colors in this country and the Philippines when the war broke out. This is exclusive of 6,989 of his short ribbed brother known as the pack-mule. The draft brought in 7,444 more of the big fellows for service overseas, but bad shipping facilities disappointed all but 975 of the little fellows, which were squeezed aboard. Thus 29,063 native-born long-eared and geared self-starters for all sorts of things saw duty with the A. E. F., with a mortality of about five thousand.

But this does not begin to tell the tale of the heroism of the mule, foreign and domestic. Mules from France to the number of 9,341, with 6,777 from England and 12,941 from Spain, kicked freedom under the Stars and Stripes, because it was cheaper to let them kick over there than to give up more money to indulge the propensities of our home-grown stock and pay their way across. In this way 29,063 allied and neutral mules served alongside the 29,910 free-born hybrids on the fields of France, making 58,973 of the stubborn breed who did not look for greener graves.

The total number of animals supplied to and bought for the A. E. F. including \$9,672 on hand at the start, was 571,178, valued at \$144,794,652, an average value of \$253. It was a great work to supply this beast-power to the army within a few months, and about as hard a task to demobilize the four-legged troops to conserve the interest of the service and save as much of the public money invested in the animals to be sold in the United States, which amounts to \$11,508,389; the horses being worth \$81,654,254 and the mules \$33,851,136. The animals in France and to be sold there number 121,465 horses and 56,207 mules.

Fate and laziness are twin brothers.

Style and Service will be found the Leading Features of our HORSES, MULES, BUGGIES and HARNESS this Season.

Now is your opportunity to buy the best that has been shipped here this year at the most reasonable prices.

This glorious news will spread over the country as the dew covers the grass.

## EVANGELINE BOOTH TELLS HOME SERVICE FUND'S NEEDS.

Evangeline Booth, commander of the Salvation Army in the United States, explaining the purpose of the campaign for \$13,000,000 which will be conducted from May 19 to May 26 for the Salvation Army Home Service Fund, said:

"The Salvation Army has been tolling on the upward trend for more than half a century, doing just what it did in France, all in the same spirit and manner, but you did not happen to hear of it, perhaps.

"The war depleted our forces and our finances at home. There must be not only a rehabilitation now, but we must rise to the new high-tide mark and equip ourselves to maintain here in the United States the contracts we were privileged to make on both sides of the sea because of the war."

The Salvation Army Home Service Fund campaign for \$13,000,000 will be conducted during the week of May 19-26. Its success will enable the Salvation Army to practically double its efforts among the poor.

**SAYS HOT WATER  
WASHES POISONS  
FROM THE LIVER**

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.
