most, they asserted with one accord "a Victrola and some records." This is the ward which the Monroe chap-Christmas box was sent and now the Cross work have decided to ask the patriotic citizens of the town to contribute of their means and help to gratify this desire of the boys of ward six.

In this word that page of the decided to ask the patriotic citizens of the town to contribute of their means and help to gratify this desire of the boys of two years has been doing war work in Washington.

In this ward there are forty-one inmates, practically all bed-ridden patients with no form of amusement to while away the tedious hours of suffering. They all contracted the tuberculosis while in France, either through exposure or the effects of gas. They are dying at the rate of two or three

Feed Your Cattle Hulls and Save \$12 the Ton

Isn't it pure extravagance to feed your cattle hay, worth from \$30 up the ton, when cotton seed hulls can be bought from \$16 to \$18 the ton?

It doesn't matter if you did raise your own hay. You should determine the cost of it as feed for your cattle by the current market price.

By selling your hay and buying hulls you save \$12 on the ton, which goes to your pocket, and hulls are about as good as any hay raised in this section, too. Had you thought of it?
