Union Delegation Voted For Suffrage Resolution.

Union county's eighteen votes in the Democratic state convention were cast for the resolution endorsing woman suffrage by Mr. R. A. Morrow, chairman of the delegation, yesterday. The resolution carried by a vote of 585 to 428. Only a few of the Union delegates were present in the convention hall when the vote was taken.

At a previous test on the delicate subject, the Union delegation was split, twelve voting to send a woman to the San Francisco convention as an honorary delegate, and six voting in the negative.

Mr. R. A. Morrow was elected a member of the state executive committee from the seventh Congressional district, and Mr. G. S. Lee, Jr., was chosen an assistant district secretary.

The delegation included the following: E. C. Carpenter, W. W. Pusser, Frank Limerick, George S. Lee, Jr., J. D. Bundy, J. B. Simpson, John D. Futch, John Beasley, R. W. Lemmond, J. C. M. Vann, Raymond Griffin, Henry Belk, I. H. Blair, Sheriff John Griffith, J. C. Sikes, R. B. Redwine and W. O. Lemmond.

The convention endorsed the administration of Gov. Bickett and President Wilson. Delegates to the national convention were instructed to vote for Senator F. M. Simmons for president.

More Registered Heifers For Union County.

The better dairy movement is growing by leaps and bounds in this county. Hardly a week passes but what some progressive farmer buys either a registered heifer or bull. This week is no exception, a total of 15 registered Jersey heifers and bulls having been shipped into the county. Mr. R. B. Redwine attended a sale in Baltimore the first of the week, and bought eleven registered Jerseys, and Mr. Vance Laney of Buford township purchased a registered bull and heifer of the same breed at another sale. Messrs. T. J. W. Broom, Bradford Hinson and Carl Trull returned yesterday from Catawba county where they bought a registered Jersey bull for the following citizens of east Monroe township: Messrs. W. D. Bivens, Edmund Hinson, Bradford Hinson, Jonah Thomas, A. H. McLarty, Jefferson Hinson, Carl Trull, Hampton Presson, Arthur Braswell, and W. B. Williams. Other co-operative breeding associations on the order of this one will be soon organized.

Major Heath Heads Road Commission.

The county board of road electors, at a meeting Wednesday, elected Major W. C. Heath chairman of the road commission to succeed Mr. F. G. Henderson, who resigned last week. The commission, in turn, elected Mr. Fred Ezell road engineer to succeed Mr. Ira Mullis, who also resigned last week. Mr. J. C. McIntyre of Marshville township, and Mr. J. C. Winchester of Monroe, who were appointed members of the road electorate from their respective townships, will serve.

Red Hot Racket Puts on Big Sale.

Many people thought yesterday that Ringling Bros. Circus was coming to Monroe, bigger and better than ever; but today they learned it was the greatest advertising and money saving opportunity of their lives; in fact, it's the talk of all Monroe and Union county. Shoes, clothing, dry goods and millinery is being offered below wholesale prices at Red Hot Racket store in Monroe, opening a big unloading sale Saturday, April 10th. It promises to be the greatest thing of the kind ever known in this part of North Carolina, being directed by the Callahan System of New York, St. Louis and Los Angeles, with Mr. P. P. Winne, a recent hero of the world war, in charge. Mr. Winne left the service only a few months ago and is back with the Callahan Co., which covers the United States with over 200 expert merchandise and advertising men. They are known from Maine to California, and no doubt will attract great crowds to the Monroe sale. One of the Callahans from Los Angeles stopped over a few days enroute east and will appear at the Red Hot Racket store in person Saturday.—Adv.

A New Theory About the Northern Lights.

To the Editor of The Journal:—Mrs. Funderburk seems to be somewhat disturbed about the Northern Lights, as they are commonly called. This same question has been asked lots of times and occasionally by teachers. However, it seems that we have never received a satisfactory answer. Some claim that it is an electrical display and others say that it is a reflection of the sun on the great ice fields of the north. This latter theory seems rather unreasonable to me because the light does not occur at regular intervals. The lights the other night moved from east to west then back to the east which fact made me think it was manipulated by some unseen hand. And when we arrive at this conclusion the question of who does the manipulating arises. It seems to me that this must come from some one of the planets, in other words, Mars. Could it be that the inhabitants of Mars are attempting to signal us by means of electrical flashes? What do you think about it?—W. A. Howie, Mineral Springs, N. C.
