FOR SALE FARMS

134 acres 2 1-2 miles north east of Monroe on Olive Branch road. 75 acres in cultivation; 2 good houses; good pasture and water. Easy terms.

100 acres, 4 miles east of Monroe on Wadesboro-Pageland road. 80 acres in cultivation; 9 acres in timber, balance in pasture. New 8-room dwelling; Deleo lights; 2 large barns; 3 tenant houses; store building. School and church within one-fourth miles. This farm is in high state of cultivation and fine community.

107 acres on Secrest Short Cut road, 4 miles from town. 50 acres in cultivation; 3 springs; fine pasture; good five room dwelling; new barn and granary; fine cotton land. Can be bought at a bargain and on easy terms.

240 acres, 3 1-2 miles from Waxhaw. 100 acres in cultivation; 2 tenant houses; good well and spring; 30 acres in pasture under wire; fine cotton lands and plenty of wood. This is a bargain.

30 acres at Unionville, 28 acres in cultivation; 10-room dwelling; good barns and store. Fine school and churches.

140 acres within 1 mile of Wesley Chapel school and churches. 80 acres in cultivation; 30 acres in pasture, well watered; four tenant houses with barns and outbuildings; makes a bale of cotton to the acre. Can be bought on easy terms.

80 acres on new highway, 2 miles from Waxhaw; 50 acres in cultivation; 20 acres in pasture; plenty of cordwood; 4 room house; barns and fine well. The best land in this section.

52 acres on Secrest Short Cut road, 3 1-2 miles from Monroe. 35 acres in cultivation; fine bottom land; meadows and pasture with springs and branch; good 5 room dwelling; barn, corn crib and wagon sheds; young orchard and vineyard; near church and district school. Can be sold on very easy terms.

56 acres on Willoughby road, 3 miles from Monroe. 30 acres in cultivation, balance in pasture under wire; fine spring and well; plenty of cordwood; bottom land and orchard; 6 room dwelling; barn, garage, store and tenant house; land is equally divided by public road.

41 acres on Willoughby and Rocky River roads 4 miles from town. Dwelling under construction; some fine land at a low price. See us at once.

57 1-2 acres at Stouts, 7 miles from Monroe, near graded school and church; 35 acres in cultivation; 4 acres of fine meadow; 5-room dwelling; 4-room tenant house; granary. Fine sandy loam soil in high state of cultivation and price very reasonable.

70 acres near Wilmington-Charlotte highway, 6 miles from Monroe. 35 acres in cultivation; 7 acres fenced for pasture with spring and running water; fine young orchard, apples, peaches, pears and cherries; 1 mile to church and school; 3-room house; new barn; cotton house; good well. This is good strong land and makes more than a bale of cotton to the acre and is priced low for quick sale.

FLOW PREDICTS A RECORD COTTON CROP FOR UNION

He Also Says Boll Weevil Has Been Reported From Three Sections of the County.

Barring insect damage, with late cultivation, proper seasons and a favorable fall, this county will produce a record crop, predicts Mr. George E. Flow, in his latest cotton report to the Memphis Commercial Appeal. Condition of crop on July 19th was seventy per cent. The presence of boll weevil in three different sections of the county is reported, says Mr. Flow. His report in full, in question and answer style, follows:

Q. Was weather during the past thirty days generally favorable or unfavorable?

A. Was favorable.

Q. Too cool?

A. No.

Q. Too hot?

A. No.

Q. Sunshine deficient?

A. No.

Q. Too much rain?

A. No.

Q. Too dry?

A. Slightly.

Q. What, expressed by percentage, if any, acreage planted or in cultivation June 20th, has been abandoned?

A. None.

Q. Has plant good tap root?

A. Yes, but a very recent formation.

Q. Is boll weevil damage great or small?

A. Some damage, but small to date.

Q. Any other insect damage?

A. No.

Q. State nature and cause of any unusual damage?

A. None.

Q. What, if any, has been the chief drawback?

A. Late, cold spring.

Q. Compared with last year is prospect better, about as good, or poorer?

A. About as good.

Q. Has crop improved or deteriorated since June 25th?

A. Improved.

Q. What, expressed by percentage, compared with the normal for that date, was the condition of the crop on July 19th?

A. Seventy per cent.

In commenting on conditions, Mr. Flow said: "Rains have been general over the county for the past week, and this fact, coupled with fine cultivation, means rapid growth. Barring insect damage, with late cultivation, proper seasons and a late and favorable fall, this county will make a record crop. The labor problem seems solved so far as this crop is concerned. Boll weevil has been reported at three points in the county."

Be sure to see the A. B. C. of Love at the Pastime Theatre Thursday.
