

DR. BELK'S KINSMAN IS AN EXTENSIVE TRAVELER

Not Satisfied With "Doing" Europe and America, Mr. Klutz is Going to Asia.

WAS IN ARMY OF OCCUPATION

Mr. Rex Klutz, a native of Chester, S. C., and a relative of Dr. J. M. Belk, who was in Monroe Saturday and Sunday, "not satisfied with the conquering of two continents, America and Europe, nor crying because there are no more to conquer, will leave this fall to 'do' two other continents, Africa and Asia, after spending a few weeks in this section, following his return recently from the army of occupation in Germany," says the Charlotte Observer.

Belgium Is Recovering.

That Belgium is recovering from the effects of the war more rapidly than any of the dozen countries of Europe visited was the statement of Mr. Klutz, who announced that crops will be harvested from many of the battlefields in Belgium, as well as in France, although a number of the battle scarred areas have been kept intact.

Mr. Klutz visited a number of places in Germany and has a picture of himself standing in front of the former home of the erstwhile Kaiser Wilhelm. He spent a month in Poland and visited Holland, Czechoslovakia, Austria, Switzerland, Italy, spending some time in Rome, and touched at Monte Carlo on his return a few weeks ago.

"Venice was the only place I did not find Ford's abundance," said Mr. Klutz, adding that in that city of water streets is the only place the American John Henry cannot cover ground, being without water equipment.

"The American dollar is worth several times its value in most of the European countries," Mr. Klutz said, stating that the money exchanges made it very valuable, quite in contrast to the diving propensity of the dollar in its value in this country.

Goes to Palestine.

Mr. Klutz was in France most of the time until the armistice was signed and then was selected as one of the 260 American soldiers to go to Edinburgh university, where they spent one term. While there, Mr. Klutz went almost all over Scotland, England and Ireland, visiting all places of interest possible. He was very enthusiastic over the warm reception given him and other Americans by the Scots, stating that everything imaginable was done to make their stay pleasant.

After the term at Edinburgh, Mr. Klutz was returned to the army of occupation at Coblenz, Germany, where as a sergeant he served as assistant to the senior chaplain at the American army station.

The ground that Mr. Klutz has covered and many places of interest he has visited caused him to decide to go to Palestine as a teacher and athletic coach. In his effort to travel and see more, he said yesterday afternoon before leaving for Monroe.

Esq. McWhirter Pays Compliment to the Union County Woman Suffrage Leader.

Although constitutionally opposed to woman suffrage himself, Esq. Henry McWhirter, of Jackson township, while in Monroe Saturday, paid a compliment to Senator J. N. Price for sticking to his convictions in the recent suffrage fight in the legislature. "Jim Price," said the Jackson statesman, "is like the Baptist in the story told by the preacher. 'A Presbyterian' said the preacher, 'is always slipping around, like the minx, looking for a place to start a new church. The Methodists are like the squirrels, always jumping from one limb to another; but the Baptists have the nature of a possum. Like the possum when he gets his feet and tail intertwined and wrapped around a limb, all he can do is move his head.'"

A Plan to Save the Wool.

To the Editor of The Journal:—The wool sales planned for Asheville, Greensboro and Washington have been cancelled because of the fact that, on July 1st, England released to the open market two billion pounds of wool, formerly stored in Australia, and because of the further fact that the manufacturers and dealers in this country have a large stock of wool in their warehouses, there seems to be no demand for this year's wool crop.

Arrangements have been made with Chatham Manufacturing Company, Elkin, N. C., to manufacture all wool into blankets on the following basis:

For each ten-pounds of clean wool shipped send five dollars which is to pay for cost of manufacturing blankets and for the warp needed in making them. This is based upon clean wool, free from burs, dirt, and excess twine. Payment for making these blankets can be sent on receipt of statement from Chatham Manufacturing Company after blankets are made. The present wholesale price on these blankets is \$10.50 per pair. They retail for \$15.00 to \$20.00 per pair, and can be readily converted into cash among your friends and neighbors, as well as use them yourself. This will allow you about 55c per pound for your wool.

Farmers who desire their wool made into blankets should get their wool off at once. By all means ship it this week. There will be a man from the Bureau of Markets at Elkin to grade this wool for the farmers upon its arrival.

Prepay express upon all packages. Put your name and address upon card and place inside the bag of wool. Will be glad to assist you in shipping if you will notify me and bring to Monroe. Remember it is important to get the wool off at once.—T. J. W. Broom.

Why Autos Are Made in Detroit.

(From The Type Metal Magazine.) The bulk of the automobile business of the United States is concentrated in three middle-western states—Michigan, Ohio and Indiana.

Just why this great industry came to choose this section of the country for the location of its factories is an interesting story, and it has a moral.

Industries founded on new inventions have a way of starting small.

Alexander Winton, a Cleveland man, was really the first to put the automobile on a commercial basis. While others were still experimenting he began manufacturing.

He sold his "wreath" car to J. W. Packard, a piano manufacturer of Warren, Ohio. Packard saw great possibilities in the business, and began casting about for financial backing. Detroit offered the most encouragement, and he went.

The Michigan city was ambitious, and the bankers were willing to take a chance on this new industry.

The success of one plant led others to assume risks. Mechanics from these pioneer factories started up for themselves in barns and sheds. Soon the barns grew into steel structures, and then the steel structures began to sprout over acres.

Orders for automobiles came to Detroit faster than was anticipated. The makers began placing orders for parts in Cleveland and other nearby cities where plants were already in operation and equipped for just this type of work.

The automobile parts business in Cleveland is of enormous proportions, and a small percentage of the money that goes to Detroit in payment for cars flows back to Cleveland and other nearby cities in payment for frames, wheels, axles, rims, batteries, forgings, etc.

Akron is the center of the rubber business because a man by the name of Goodrich started a rubber plant there. His success prompted employees to break away and open up for themselves.

The moral is that natural advantages do not entirely govern the development of a city.

Lives and progressive citizenship is the vital factor.

A city that contains a few bold, courageous and brilliant men will succeed in spite of natural handicaps.

ESQ. HELMS CONDUCTS A REAL COURT AT WINGATE

At His Last Session, He Has Chicked Thief, Pistol Toter, and Gun Shooter.

GIVES GUN TOTER A \$50 FINE.

Wingate, August 30.—Because I have been remiss in my correspondence is no reason that Wingate does not loom on the map in glowing colors. Most of my correspondence has hitherto had related to exemplary citizens; but we have a few of the undesirable variety. But on the principle of proving an antidote for every poison, we have a towering jurist, who towers in both stature, jurisprudence and intellect. He is known to profane history as Judge Helms; and attains an altitude of six feet six, and balances the beam at 275 avoirdupois. The first on the judicial mourner's bench was a very dusky son of Ham who confused the title of a henery, and said his right hand knew not what his left did while he appropriated four Rhode Island Reds that belonged to a white neighbor. He will ponder on his absent-mindedness and study scenery in a zebra colored uniform. The next to realize that the way of the transgressor is hard, was caught carrying his trusty gun concealed. Judge Helms, as in the statutes made and provided, relieved him of fifty dollars or a road sentence was imposed. In Wingate the forty-five is not regarded as a necessary article of masculine attire; but if a gun is necessary it must be suspended from the hip like that of the most pronounced movie hero. Another would-be land pirate fired his thirty-two on the streets, contrary to peace and dignity of Wingate and the sovereign State of North Carolina. It was a cast barbed agent of destruction, not half so certain as a brickbat and not nearly so deadly. As a weapon of offense and defense it would be likely to hang fire until the victim would walk out of range and then burst and kill the man behind it. Such a weapon is an accompaniment of the razor, and is the standard caliber of the cakewalk and other festivities of the colored race. A Kentucky feudist, a Texas ranger or the vanishing cow boy would solemnly assure anyone drawing such a gun that if it were to happen in fire, hit the person at which aimed and he would never find it out, the would-be-avenger would get kicked squarely on the pants. This malefactor also found Jordan a hard road to travel, and must drain his bank account or serve the State. . . . Verily the mills of justice, like the mills of the gods, grind slow but pulverize middling fine.

Turning from the erring, let it be known that good citizenship still survives. Wingate Baptist High School opened its portals on last Tuesday under very auspicious circumstances. An excellent faculty, a large student body were in evidence; and it was the pleasure of your ancient uncle to witness chapel exercises on forenoon of August 28th, 1920; and to hear Prof. Beach conduct a very successful recitation in algebra. Another enjoyable feature was the excellent instrumental and vocal music of the opening exercise.

The Wingate public school is booming serenely on, and the work of Misses Barnes, Perry, Chaney and Irvin is giving eminent satisfaction. The arduous features and voracious appetite of the principal is the fly in the ointment; but he means no harm.

Miss Flora Barnes, and Miss Louise Irvin, teachers in the school here, spent Saturday and Sunday with friends near Charlotte.—Corn-cracker.

CONQUERS RHEUMATISM

It is an established fact that one teaspoonful of Rheuma taken once a day for a very short time has driven all the pain and agony from thousands of racked, crippled and despairing rheumatics.

While powerful, trafficking and quick-acting Rheuma contains no narcotics, is absolutely harmless, and must bring lasting and blessed relief or its cost, small as it is, will be refunded. The magic name has reached nearly every hamlet, and there are hundreds of druggists who can tell you of the good it has done in some of the very worst cases.

If you are tortured with rheumatism or sciatica you can get a bottle of Rheuma from the Enallish Drug Company, Monroe, N. C., for not more than seventy-five cents, with the understanding that if it does not rid you of all rheumatic suffering your money will be cheerfully returned.

Mrs. J. B. Coan, Alfalfa St., says: "Some time ago I suffered a good deal with my back and kidneys. A dull, aggravating ache across the small of my back made me feel tired out and run down. In the morning I was drowsy and seemed unrefreshed. I think the water here is what caused my trouble, my head ached and I was nervous, too. The way my kidneys acted caused me annoyance and I finally heard of Doan's Kidney Pills. I got a supply at the Union Drug Co. and I felt a great deal better.
