entertainment and instruction to tens of thousands of the most substantial people in this nation. Its coming is always one of the events in the yearly program or "agenda" of every city or town that is fortunate enough to be on one of its circuits. And for a solid week it offers a true "university course," in tabular form, of lectures, addresses, music, the entertainments of magicians and others and often the performance of a good play by adequate impersonators. Some of the best lecturers of the generation have adorned the chautauqua platform, and it adds to the reputation of any lecturer or speaker to have been associated with its work. One may always feel sure of being both interested and informed—to come out of the "tent" a better and a wiser man or woman. He will not, like Umar Khayyam, "come out by the same door wherein he went," but with renewed memories of things and feelings, and with freshened emotions and powers, together with a larger store of information. A glance at the program will reveal a rare bill of fare, a full plate de jour. For one arresting item, there is to be a production of the remarkably interesting play, "Turn to the Right."

The chautauqua is an "institution" that merits the support of every community it visits and entertains, and serves to make more desirable as a city of residence and opportunity.

MASS MEETING IN COURT HOUSE SCENE HOT SHOTS

to be a protest meeting against high taxes and public extravagance and not a meeting in which personalities were to be used and corruption charged. He said that the meeting was the natural outgrowth of deflation after high war time inflation. He blamed the Federal Reserve board for this. He stated further that the reduction of every county official's salary to a minimum would not mean a saving of 21 cents in stamps to any one tax payer. He intimated that it would be necessary to go after the matter in an entirely different way. He went on record as opposing any further issue of bonds without a vote of the people.

Dr. Stewart then arose and veered completely from the subject of graft and gave a talk on school books and school teachers. It was his contention that children had to carry entirely too many books to school, that the proper books were not purchased. He stated further that school teachers were not worth what they were getting, and would work for considerably less; that they were going to teach anyhow until they got married.

Mr. W. M. Gordon then offered a resolution to table the motion before the house which was done by vote.

Mr. C. J. Braswell, candidate for the legislature, made a motion that a committee of five be appointed to investigate the various departments of county government. This motion was subsequently amended making the committee consist of three men and the chairman appointed on this committee Mr. J. C. M. Vann, Dr. H. D. Stewart and Mr. T. L. A. Helms. These members will investigate and report at next meeting which it is understood will be Saturday, the 13th.

Charles L. Bowman for Commissioner

As tax-payers of Union, we believe that C. L. Bowman is one of the best qualified men in the county to properly and wisely handle the people's money. He is straightforward, honest and competent, one of the best informed men in the county as well as one of the most conscientious.

And then, too, Marshville township has not had a commissioner since the late A. J. Brooks served on this board about twelve or fifteen years ago, and we believe the citizens of the entire county will recognize Marshville township's just claim to one member of the next board and will elect C. L. Bowman with a big majority.

VOTERS.

H. G. Nash for County Commissioner

As tax-payers of Union county, we believe that H. G. Nash is one of the best qualified men in the county to properly and carefully handle the people's money. He is straightforward, honest and competent, and one of the biggest and best business men of the county, and knows the needs of the people of the county. He is in favor of taking care of the people's money, and of cutting out all useless offices and making our taxes lower.

VOTERS OF BUFORD.
