If Monroe Bread is not as good or better than the best you can buy, ask for your money back.

If you like it just as well or better than any other bread, we will certainly appreciate it if you will insist on your HOME TOWN MADE BREAD.

Monroe Bread is guaranteed to stand the test.

**MONROE BAKERY**  
MONROE AND WADESBORO.

Raisin and Graham Bread at all times.

**FAME OF U T BELK'S FARM GOES ABRO'D**

Story of How Union County Man Built Up Poor Land is Sent Out From Raleigh

Raleigh, June 27.—A striking demonstration of how to build up poor land by the use of lime and legumes is to be seen on the farm of Mr. U. T. Belk, who lives ten miles north of Monroe in Union county. The demonstration was put on by Mr. Belk at the request of County Agent T. J. W. Broom, and under the supervision of E. C. Blair, extension agronomist for the state college and department of agriculture. In telling about this demonstration, Mr. Blair says that the soil on which it is located is of a gray, floury type, very low in fertility and full of rocks.

The demonstration began in 1921 when Mr. Belk spread two tons of limestone per acre over one-half of his field and left the rest of the field without lime. This was done during the month of May. Soy beans were grown on the land that year, followed by wheat in the fall. It was found that both the crops responded well to lime, and that the wheat was much better where the soy beans were turned under, as compared with where they were cut for hay. Only a small amount of fertilizer was used per acre on the field that year.

"In the Spring of 1922," says Mr. Blair, "Mr. Belk drilled red clover on top of his wheat. By July 10th the clover on the unlimed part of the field was nearly all dead while that on the limed land was doing well. Since that time the clover has marked where the lime was used and weeds have shown where it was not used."

In March of this year Mr. Belk applied 200 pounds of a 10-0-4 fertilizer per acre over the entire field. The clover grew about twenty inches high with an excellent stand where the lime was used. The harvest was over two tons of hay per acre by actual weight, according to Mr. Blair's figures, and the best yield was secured where the soy beans were turned under two years ago in 1921. Mr. Blair found that on the unlimed part of the field there was only an occasional bunch of clover scattered among the weeds. Where the soy beans were cut off the yield of clover was only 900 pounds of hay, as compared to about 1,700 pounds where the beans had been turned under, showing that organic matter and lime were both needed for the most successful growth of crops on this soil.

In reporting the experiment, Mr. Blair says, "Every acre of the good clover on the limed area gathered at least \$18 worth of nitrogen from the air. Had the crop been turned under this would have gone to enrich the soil, but since it was cut for hay no great improvement is to be expected from the crop this year. The second crop, however, should do as well as the first, and as it is to be turned under, it will furnish a larger quantity of humus and nitrogen to the soil. The clover hay that Mr. Belk cut this spring will more than pay for the lime, fertilizer and seed, and the improvement that he may secure in his soil with the second crop will be clear profit."

**NOTICE OF SALE UNDER EXECUTION**

North Carolina, Union County—In the Superior Court.

G. M. Tucker, Plaintiff, vs. Mt. Calvary A. M. E. Zion church and G. W. Hunter, J. S. Massey, Richard Cuthbertson, Wade Cress, B. B. Blakeney et als., Trustees, Defendants.

By virtue of an execution directed to the undersigned from the Superior Court of Union county in the above entitled action, and by virtue of an order made by W. E. Brock, Judge holding the courts of the 13th Judicial District of North Carolina, at the March term, 1922, of the Superior Court of Union county, to which reference is hereby craved, I will on

Monday, the 2nd day of July, 1923, at twelve o'clock, at the court house door of said county in Monroe, N. C., sell to the highest bidder for cash to satisfy said execution all the right, title and interest which the above named defendants have in and to the following described real estate lying and being in the city of Monroe between Church and Morris streets, and on Church Alley, and known as the church lot of the Mt. Calvary A. M. E. Zion church, it being the same property conveyed by W. H. Fitzgerald, to the trustees of Mt. Calvary A. M. E. Zion church on or about the 1st day of January, 1881. See deed registered in the office of Register of Deeds for Union county in Book 12, page 108, to which reference is hereby craved for a more particular description.

This property is sold to satisfy the plaintiff for laborers and material man's lien docketed against said property on the 18th day of January, 1921, and reference is made to the lien docket for a more particular description.

This the 19th day of May, 1923.  
CLIFFORD FOWLER,  
Sheriff of Union County, N. C.

**NOTICE OF ADMINISTRATION**

Having qualified as administrator of the estate of John E. Haigler, late of Goose Creek township, notice is hereby given that persons indebted to the estate are required to make payment of same at once. Persons holding claims against the estate are required to present the same before the 18th day of May, 1924, or this notice will be plead in bar of their recovery. This the 18th day of May, 1923.  
S. E. HAIGLER, Administrator of John E. Haigler, deceased.

*The Monroe Insurance and Investment Company*  
Monroe, N. C.

G. B. CALDWELL, Manager.

With a view of serving the public, we are giving some questions and answers in connection with Fire Insurance policies. We expect to have other questions and answers follow this:

are two policies covering the property, one written by the "A" Insurance Company for \$100,000, and the other written by the "B" Insurance Company for \$50,000. A fire occurs that causes \$75,000 damage. How much of this loss will the "B" company be required to pay?

Answer: \$25,000. (Lines 101 to 105, New York Standard Policy, "Stipulations and Conditions.")

Question 4: At what time of day does a policy take effect?

Answer: Noon (Standard Time). (Lines 106 and 107, "Stipulations and Conditions.")
