READY WHILE YOU WAIT.

THE RAPIDITY WITH WHICH SOME ARTICLES ARE TURNED OUT.

You Can Have a House or a Shirt or a Set of Teeth Made in an Hour-Quick Trade Methods.

"While you wait!" It is now many years since this expression was made popular by a down-town hatter, who advertised to "block your hat while you wait, for fifty cents," but it still retains its value in a commercial sense, and has been appropriated by the manufacturing world generally throughout the length and breadth of the land. As originally applied to the hatter's busi-ness it was ridiculed, laughed at and criticised perhaps more than any other expression of the kind, unless it be the oftquoted "boots blacked inside," and yet to-day it is an important line in the advertisements of nearly every manufac-turing interest in the United States. Do you want a pair of trousers, a suit of clothes, a shirt, your shoes soled and heeled, a new main-spring in your watch, a set of false teeth, a house built-do you want anything that can be made by the hand cf man-you can get it "while you

wait" · At a certain haberdasher's near Union Square shirts can be had to order, made after any pattern, in any size, guaranteed to fit and ready to wear while the customer is getting shaved around the corner. It is accomplished by having ready-cut sleeves, yokes, bosoms, bands and bodies always on hand. A capable cutter with a few flashes of his big shears will correct the defects of any bi the parts, skilled operators will run parts through the sewing machine in a twinkling, while a patent, washer, rinser, wringer, dryer and ironer will turn the shirts out ready to be put on, and all inside of twenty minutes. In Houston street within the shadow of Police Headquarters, there is a concern that will sole and heel your shoes while you look over the columns of the daily paper, and determine to what place of amusement you will go to in the evening. The tailors on the Bowery who will measure a customer for a pair of trousers, but, trim and make them and press them while he is taking his lunch, are numerous, while those who will turn out a full suit of clothes while the customer is taking in some one of the theatres near by are quite as many.

Dentists, who have in stock all kinds, varieties and qualities of plates, and will tit a patient's mouth with a partial or full set of teeth in a less time than it once took to draw a single tooth, abound on Eighth, Sixth and Third avenues, as well as some of the cross streets. In Chicago there is a dentist who advertises to furnish new and full sets of teeth, guaranteed to give satisfaction, by mail or express, and sends the same to remote points on approval. A firm of builders in Michigan will ship at once on receipt of order any size, kind or variety of a frame structure that may be desired. Parties intending to locate in Florida or at the seashore are especially requested to send for a descriptive circular. These bouses are built in sections and shipped as fliey are built. An hour's work, the proprietors say, will make any changes that a customer can possibly want. Several persons who will summer at Asbury Park and Ocean Grove this year, it is understood, will introduce these ready made homes there early in the season. The same manner of houses were prepared for the late Greely Relief Expedition. The secret of cleaning and repairing watches while you wait is, according to the assertion of the manufacturers, that the entire movement is taken out and a new one of the same kind is substituted. Now that most of the movements sold are made by machinery and of standard sizes, just as the cases of a watch are made, it is easy to see how this can be done. Persons having a Jurgessen or any other valuable movement however, would do well to pause before they have a watchmaker repair their timepieces while they wait. Still, there are parts of a watch movement that can be duplicated almost at a moment's notice without affecting its value, such as pinions, ratchets, gear wheels and screws.

The science of cutting, fitting and trimming ladies' garments has progressed to such an extent that a dressmaker very often makes an entire suit for a customer while she is finishing a shopping tour, and as is oftentimes done by men's tailors, habit-makers cut, fit and make dresses while a customer waits in her parlors. Printers will prepare a form for a job, make it ready and run off an order while a customer writes a letter, and recently the writer had a card engraved and printed while he selected a wedding invitation for a friend .- New York Mail and Express.

The Archbishop's Neat Retort.

The story is told that Archbishop Ryan and ex-Attorney General Wayne Mac-Veagh were present at a recent gathering. which included a number of prominent railroad officials. Mr. MacVeagh brought the railroad men and the Archbishop together, ard after the first salutations were over Mr. Mac Veagh turned to Archbishop Ryan and said: "Now, Archbishop, these are gentlemen whose acquaintance it would be well for you to cultivate. If you once get on the right side of them they will give you passes over all their lines;" and then the Attorney General added: "Of course, they will expect in return that you will give them all passes to heaven." The Archbishop's response came quickly and quietly: "My dear sir," he said, "I should be only too happy to give the gentlemen passes to heaven if it lay within my power, but I should regret to separate them from their coun-

Sensation After Amputation.

Another curious case of apparent sensa-tion in a member of the body after it had been amputated comes from Florida. George W. Clay's arm was amputated, put in a box and buried. Soon afterward he began to complain that the fingers of the buried hand were cramped and that there was sand between them. His physician and his sister had the box dug up and opened, and found the fingers cramped and the sand between, just as George had said. They arranged the arm properly and reburied it. Clay said that while they were gone he felt an awful pain in the amputated arm, and then came a sensation of great relief, and there was no longer the old cramped sensation in the hand.—Detroit Free Press. FROM THE STAGE TO THE PULPIT.

Frank R. Lucky, Once an Actor, Now a Divinity Student, Tells His

From the New Haven News. Frank R. Lucky, an ex-actor, who recently abandoned the stage to study for the ministry, and is now a member of the Yale theological school, told the story of his life to an interested audience at the city massion on Meadow

"In the early years of my life," said the speaker, "the idea that I would like to enter the dramatic profession was ever present to my mind. It was my one great ambition to be an actor. My idea of the stage was a high one. I thought I would restore the broken image, restore the stage to its lofty place, and all I did was shaped to that end. I went to a university to educate myself, and all my studies were followed up with this object in view. I graduated from the university in 1882, and in the fall I went upon the stage, playing at the Grand Opera House in New York. After a time it began to grow on me that After a time it began to grow on me that the surrounding influences were operating on me and were gradually perverting me, and this feeling continued to grow on me. I began to feel a dislike—I didn't enjoy the life as I had expected to. I was brought up in a very moral family atmosphere, and was never contaminated to a great extent by evil influences of the attention. ences of the stage. I do not intend to discuss the morals of the stage here, as I have not the time, nor could I do them justice. But they are rotten. No man can go on the stage and be pure. I am not going deep into this thing now, but it is a fact. You cannot lead a consistent Christian life and be a member of the dramatic profession. I could feel the perverting influences of this life gradually insinuating themselves into me. I even got so that I didn't mind going into barrooms, for actors spend most of their time in barrooms.

"I did not leave the stage because I was a failure. No, I put all my soul into my stage work, as I would into the ministry or into anything I undertake, and I rose step by step in my profession until I became stage manager of one of the best companies in the country. But this is how I came to give it up. One night while I was playing in the Union Square Theatre I went home to bed. I was in good health, and there was nothing the matter with my digestion. Well, I went to sleep and slept soundly. But in the middle of the night I was awakened by the voice of God saying to me: If you should die to-night what would become of your soul?' I answered, 'Lost,' and then I went to sleep again. It was no dream, though you, if you were there, might not have heard the voice. I heard it and knew it was the voice of God. I sat up in bed, and know that I was awake. This voice kept coming to me day after day, and night after night, until I couldn't get away from it. It pursued me like a Nemesis, and I had to find an answer. Finally I said to myself that by the grace of God, after I come back with the company, I will never set my foot on the stage again. I was a poor man. I had not saved any money. Actors are great spendthrifts, and are said to be very charitable, but it is the wrong kind of charity. It is that that gives without

sense or discrimination. "But I knew the Lord would take care of me. And the next week I had a letter from home, telling how a friend of my father's, in inquiring about me and hearing that I, like other actors, would not be busy during the summer, offered me a place at Nantasket Beach. While there I had but little to do but commune with God, and this communion shaped my life. Then I wrote to President Dwight, and, as I fortunately had a collegiate education, I came to the theological school. While searching among my papers the other day I found an old phrenological chart. I do not believe altogether in phrenology, although there is much in it I think worthy of attention. When I was 16 years old I had my head examined, and the phrenologist said to me: 'Your place is in the ministry.' At that time I had no thought of the ministry; my whole ambition tended toward the stage. Now, isn't that a curious coincidence, if it is a coincidence? That is my story. I told it only for the lesson that can be drawn from it.

"In forming my plans I didn't take God into consideration or I could not have gone on the stage. I want to bring out the fact that character is born from the choice of a good or bad aim. The evil elements of the stage were forming for me a wrong character from a wrong

December, 1880, wrote O. L. Hathaway, Fall River, Mass., "Was greatly afflicted with rheu-matism: tried St. Jacobs Oil; all pain left me." October 19, 1886, he writes: "Have not been roubled with rheumatism since."

A Sonoma Eagle.

The Santa Rosa Republican says: peculiar story is told of an eagle which had been watched for thirteen consecutive years by the residents of a quiet valley not many miles from this city. The same eagle has for the above named period of years built her nest in a cave and there reared her young unmolested. She will regularly in the spring come from some unknown place, lay her eggs and hatch her young. After the young are old enough to take care of themselves she leaves them in the valley and flies away, and is not seen again in that neighborhood until the following spring has come. Where she goes to and where she comes from no one is able to tell. The young seldom follow her off, but stay in the valley and are shot or stray away. In the spring, when she comes to build her nest, she will fly directly over the cave for several days; the meaning of this nobody is able to tell, but the supposition is that it is to find out whether the cave is occupied by varmints or birds of her own nature. Each day she can be noticed lowering down toward the ground, until at last she reaches the cave. After this, perhaps, she is not again seen for a week; when she will come out in search of food:

Man Wants a Tonie When there is a lack of elastic energy in the system, shown by a sensation of languor and unrest in the morning, frequent yawning during the day and disturbed sleep at night, Hostetter's Stomach Bitters infuses unwonted energy into the enfeebled and nervous, endowing them with muscular energy, an ability to repose healthfully and digest without inconvenience. Nervousiless, headache, biliousness; impaired appeti & and a feeble, troublesome stomach, are all and speedily set right by this matchless regulator and invigorant. The mineral poisons, among them strychnia and nux vomica, are never safe tonics, even in infinitesimal doses. The Bit'ers answers the purpose more effectually, and can be reited upon as perfectly safe by the most prudent. Fever and agu, kidney troubles and rheumatism yield A Rochester baby has two tongues. Of course it is a girl.

In General Debility, Emaciation, Con-sumption, and Wasting in Children, SCOTT'S EMULSION of Pure Cod Liver Oil with Hypopho phites, is a most valuable food and medicine. It c:ea:e: an appetite for food, strengthens the nervous system and builds up the body. Please read: "I tried S: ott's Emulsion on a young man whom Physicians at times gave up hope. Since he began using the Emulsion his Cough has ceased, gai ed flesh and strength, and from all appearances his life will be prolonged many years."-JOHN SULLIvan, Hospital Steward, Morganza, Pa.

LIVER, BLOOD AND LUNG DISEASES.

LIVER DISEASE

AND

HEART TROUBLE.

Mrs. Mary A. McClure, Columbus, Kans., writes: "I addressed you in November, 1884, in regard to my health, being afflicted with liver disease, heart trouble, and female weakness. I was advised to use Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery, and four of the 'Pleasant Purgative Pellets.' My health began to improve under the use of your medicine, and my strength ery, and four of the 'Pleasant Purgative Pellets.' My health began to improve under the use of your medicine, and my strength came back. My difficulties have all disappeared. I can work hard all day, or walk four or five miles a day, and stand it well; and when I began using the medicine I could scarcely walk across the room, most of the time, and I did not think I could ever feel well again. I have a little baby girl eight months old. Although she is a little delicate in size and appearance, she is healthy. I give your remedies all the credit for curing me, as I took no other treatment after beginning their use. I am very grateful for your kindness, and thank God and thank you that I am as well as I am after years of suffering."

Mrs. I. V. Webber, of Yorkshire, Cattaraugus Co.,

SLICKER Waterproof Coat Ever Made.

Mrs. I. V. Webber, of Yorkshire, Cattaraugus Co.,
N. Y., writes: "I wish to say a few words in praise
of your 'Golden Medical Discovery' and 'Pleasant
Purgative Pellets.' For five years previous to
taking them I was a great sufferer; I had a
severe pain in my right side continually; was
unable to do my own work. I am happy to say
I am now well and strong, thanks to your medicines."

Chronic Diarrhea Cured.—D. LAZARRE, Esq., 275 and 277 Decatur Street, New Orleans, La., writes: "I used three bottles of the 'Golden Medical Discovery,' and it has cured me of chronic diarrhes. My bowels are now regular."

Dyspepsia.—JAMES L. COLEY, Esq., of Yucatan, Housion Co., Minn., writes: "I was troubled with indigestion, and would est heartily and grow poor at the same time. I experienced heartbarn, sour stomach, and many other disagreeable symptoms common to that disorder. I commenced taking your "Goiden Medical Discovery" and "Pellets," and I am how entirely free from the dyspepsia, and am, in fact, healthier than I have been for five years. I weigh one hundred and seventy-one and one-half pounds, and have done as much work the past summer as I have ever medicine that seemed to tone up the muscles and invigorate the whole system equal to your "Discovery and "Pellets."

GENERAL

DEBILITY.

Mrs. Parmelia Brundage, of 161 Lock Street,
Lockport, N. Y. writes: "I was troubled with
chills, nervous and general debility, with frequent
sore throat, and my mouth was traily cankered.
My liver was inactive, and I suffered much from
dyspepsia, I am pleased to say that your Golden
Medical Discovery' and 'Pellets' have cured me of all these
aliments and I cannot say enough in their praise. I must also
say a word in reference to your 'Favorite Prescription,' as it
has proven itself a most excellent medicine for weak females.
It has been used my family with excellent results."

Dyspepsia.—Theresa A. Cass, of Springfield, Mo., writes: "I was troubled one year with liver complaint, dyspepsia, and sleeplessness, but your 'Golden Medical Discovery' cured me." Chills and Fever.—Rev. H. E. Mosler, Montmorence, S. C., writes: "Last August I thought I would die with chills and fever. I took your 'Discovery' and it stopped them in a very short time."

"THE BLOOD IS THE LIFE."

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golder Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Rev. F. Asbury Howell, Pastor of the M. E. Church, of Silverton, N. J., says: "I was afflicted with catarrh and indigestion. Boils and blotches began to arise on the surface of the skin, and I experienced a tired feeling and dullness. I began the use of Dr. Pierce's Golden Medical Discovery as directed by him for such complaints, and in one week's time I began to feel like a new man, and am now sound and well. The 'Pleasant Purgative Pellets' are the best remedy for bilious or headache, or tightness about the chest, and bad taste in the mouth, that I have ever used. My wife could not walk across the floor when she began to take your 'Golden Medical Discovery.' Now she can walk quite a little ways, and do some light work."

Mrs. Ida M. Strong, of Ainsworth, Ind., writes:
"My little boy had been troubled with hip-joint disease for two years. When he commenced the use of your 'Golden Medical Discovery' and 'Pellets,' he was confined to his bed, and could not be moved without suffering great pain. But now, thanks to your 'Discovery,' he is able to be up all the time,

and can walk with the help of crutches. He does not suffer any pain, and can eat and sleep as well as any one. It has only been about three months since he commenced using your medicine. I cannot find words with which to express my gratitude for the benefit he has received through you.

Skin Disease.—The "Democrat and News," of Cumbridge, Margland, says: "Mrs. ELIZA Ann Poole, wife of Leonard Poole, of Williamsburg, Dorchester Co., Md., has been cured of a bad case of Eczema by using Dr. Pierce's Golden Medical Discovery. The disease appeared first in her feet, extended to the knees, covering the whole of the lower limbs from feet to knees, then attacked the elbows and became so severe as to prostrate her. After being treated by several physicians for a year or two she commenced the use of the medicine named above. She soon began to mend and is now well and hearty. Mrs. Poole thinks the medicine has saved her life and prolonged her days."

Mr. T. A. Ayres, of East New Market, Dorchester County, Md., youches for the above facts.

CONSUMPTION, WEAK LUNGS, SPITTING OF BLOOD.

GOLDEN MEDICAL DISCOWERY cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Astama, and kindred affections, it is a sovereign remedy. While it promptly cures the severest Coughs it strengthens the system and purifies the blood.

It rapidly builds up the system, and increases the flesh and weight of those reduced below the usual standard of health by "wasting diseases."

Tt rapidly builds up the system, and increases the flesh and wasting diseases."

Consumption.—Mrs. Edward Newton, of Harrowsmith.
Ont., writes: "You will ever be praised by me for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then went to the best doctor in these parts. He told me that medicine was only a punishment in my case, and would not undertake to treat me. He said I might try Cod liver oil if I liked, as that was the only thing that could possibly have any curative power over consumption so far advanced. I tried the Cod liver oil as a last treatment, but I was so weak I could not keep it on my stomach. My husband, not feeling satisfied to give me up yet, though he had bought for me everything he saw advertised for my complaint, procured a quantity of your 'Golden Medical Discovery.' I took only four bottles, and, to the surprise of everybody, am to-day doing my own work, and am entirely free from that terrible cough which harrassed me night and day. I have been afflicted with rheumatism for a number of years, and now feel so much better that I believe, with a continuation of your 'Golden Medical Discovery,' I will be restored to perfect health. I would say to those who are falling a prey to that terrible disease consumption, do not do as I did, take everything else first; but take the 'Golden Medical Discovery' in the carly stages of the disease, and thereby save a great deal of suffering and be restored to health at once. Any person who is still in doubt, need but write me, inclosing a stamped, self-addressed envelope for reply, when the foregoing statement will be fully substantiated by me."

Ulcer Cured.—ISAAC E. DOWNS, Esq., of Spring Valley, lockland Co., N. Y. (P. O. Box 28), writes: "The Golden Medi-

Golden Medical Discovery is Sold by Druggists.

cal Discovery' has cured my daughter of a very bad ulcer located on the thigh. After trying almost everything without success, we procured three bottles of your 'Discovery,' which healed it up perfectly." Mr. Downs continues:

Consumption and Heart Disease.—"I also wish to thank you for the remarkable cure you have effected in my case. For three years I had suffered from that terrible disease, consumption, and heart disease. Before consulting you I had wasted away to a skeleton; could not sleep nor rest, and many times wished to die to be out of my misery. I then consulted you, and you told me you had hopes of curing me, but it would take time. I took five months' treatment in all. The first two months I was almost discouraged; could not perceive any favorable symptoms, but the third month I began to pick up in flesh and strength. I cannot now recite how, step by step, the signs and realities of returning health gradually but surely developed themselves. To-day I tip the scales at one hundred and sixty, and am well and strong."

and strong."
Our principal reliance in curing Mr. Downs' terrible disease was the "Golden Medical Discovery."

JOSEPH F. McFarland, Esq., Athens, La., writes: "My wife had frequent bleeding from the lungs before she commenced using your 'Golden Medical Discovery.' She has not had any since its use. For some six months she has been feeling so well that she has

Price \$1.00 per Bottle, or Six Bottles for \$5.00.
