

## ITALIAN TERRORIST SENTENCED

The Camorrista Who Have Been on Trial For Two Years Are All Found Guilty

The Camorrista who have been on trial for nearly two years on the charge of having murdered Gennaro Cuocolo and his wife in June, 1906, were Monday adjudged guilty in varying degrees at Viterbo, Italy. The verdict declares Corrado Sortino guilty of both murders; Nicolo Morra, Antonio Cerrato and Marino Di Gennaro guilty of the murder of Cuocolo, and Giuseppe Salvi guilty of the murder of Cuocolo's wife. Enrico Alfano, the alleged leader of the Camorrista, Giovanni Rapi, Di Marinas and the others are convicted of being instigators of the crime and members of a criminal organization.

The President of the court immediately sentenced the condemned men. Sortino, Merrato, Salvi, Morra, Di Gennaro Alfano, Rapi and Di Marinas were sentenced to 30 years imprisonment and to 10 years police surveillance each; Di Mattio to 10 years and six months imprisonment and 10 years surveillance; Ascritore to 10 years imprisonment and three years surveillance; Vitozzi, the priest, seven years imprisonment and two years surveillance, the others to five years imprisonment and three years surveillance.

When the accused men were placed in the iron cage to hear the verdict, Di Marinas suddenly drew forth a piece of glass and cut his throat. He fell to the floor in a pool of blood and general pandemonium broke loose. The other prisoners screamed like wild animals, shouting invectives and imprecations. Rapi shouted: "This innocent blood is crying for revenge." Alfano raged around and recalled his brother's death who, he cried was a victim of justice and man who had suffered the martyrdom of innocence.

Vitozzi knelt weeping and praying. All the prisoners acted like maniacs, and the carabinieri had difficulty in forcing their way into the cage to maintain order and carry out the wounded Di Marinas.

### Insect Bite Costs Leg.

A Boston man lost his leg from the bite of an insect two years before. To avert such calamities from stings and bites of insects use Bucklen's Arnica Salve promptly to kill the poison and prevent inflammation, swelling and pain. Heals burns, boils, ulcers, piles, eczema, cuts, bruises. Only 25 cents at Mebane Drug Co.

### Wilson Will Win.

The Observer never before read the big Northern papers with quite so much delight. "Almost to a man" they are for Woodrow Wilson and predict his election. The Philadelphia Record openly says that Wilson will be the next President, and it rejoices to say so. The New York Times, The New York World and The New York Evening Post are Wilson shutters. The staid old New York Tribune gets around saying too much in praise of Wilson by diverting attention into an important direction—the effect Wilson's nomination will have upon the fortunes of Colonel Roosevelt. The Tribune thinks the victory of the progressives at Baltimore knocks the props from under the projectors of the third party movement. It holds that there is not room enough for two radical candidates in the field.—Charlotte Observer.

### It's a Pretty Good Plan to Forget It.

If you see a fellow ahead of the crowd, A leader of men, marching fearless and proud, And you know of a tale whose whose telling aloud, Would cause his proud head in anguish be bowed, It's a pretty good plan to forget it If you know of a skeleton hidden away.

In a closet, and guarded and kept from the day

In the dark, whose showing, whose sudden display, Would cause grief and sorrow and lifelong dismay,

It's a pretty good plan to forget it

If you know of a spot in the life of a friend,

(We all have such spots concealed, world without end),

Whose touching his heart-strings would play on and rend,

Till the shame of it's showing no grieving could mend,

It's a pretty good plan to forget it.

If you know of a thing that will darken the joy.

Of a man or a woman, a girl, or a boy,

That will wipe out a smile, or the least way annoy

A fellow, or cause any gladness to cloy

It's a pretty good plan to forget it

If you know of a thing, just a least little sin,

Whose telling would work up a laugh or a grin,

Of a man you don't like, for love's sake keep it in!

(Don't don't be a knocker! right here stick a pin),

It's a pretty good plan to forget it.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic.—For sale by all Dealers.

Ready to Meet Emergencies.

"Be systematically heroic in little unnecessary points. Every day do something for no other reason than its difficulty, so that if an hour of need should come, it may find you trained to stand the test. The man who has daily inured himself to habits of concentrated attention, energetic will, and self-denial in unnecessary things, will stand like a tower when everything rocks around him."—William James.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all Dealers.

Peculiarities of Taste.

The South Sea Islanders gazes with disgust upon an American eating rare roast beef, but he will eat a fish raw, especially if he is an Hawaiian, with great relish. He also finds a dozen or more relatives of the oyster on the reef at low tide and thinks them highly appetizing. There is the devil fish, for instance. The squid is regarded as being a delicacy.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all Dealers.

### THOMAS F. RYAN CONFIDENT

Man Who Bryan Denounced Pleads For United Democracy.

Thomas F. Ryan, the financier, who was a delegate from Virginia to the Democratic national convention has authorized the following statement:

"The Baltimore convention has registered the independent will of the Democratic party though its chosen delegates, and it is the duty of every Democrat without regard to past preferences to accept that decision with good will and no regrets, and to go into the coming battle with courage and determination to make Governor Wilson President.

"We should all contribute every effort in our power, dictated by good judgment and honest consideration, to accomplish this result. The party is united, and as the campaign progresses I believe it will gain the confidence of the country and that an overwhelming majority of the American people will conclude that the best interests of the republic and all its people without regard to class or condition will be best served by placing the Democratic party in power."

Naturally So.

"All the parts in this play are fat parts."

"They have to be when the play itself is laid in Greece."

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all Dealers.

**Snake Had Lived on Eggs.**  
On his morning round for eggs recently, Michael Helseman of Custice, O., reached into a hen's nest and touched an object that made him jump back quickly. A closer examination showed a big spotted snake coiled in the nest. Beating a hasty retreat, Helseman secured a shotgun and on reaching the nest noticed that the snake had swallowed a china nest egg and was gradually working it down its throat. It was but the work of a moment to blow off the head of the reptile. Helseman then recalled the fact that his egg supply had declined recently, and he thinks that the snake, with perhaps its mate, had been making forays on the roost for some time.

**Reinforced Concrete of Old Rome.**  
Although concrete has been used for many centuries, it is generally supposed that reinforced concrete is a modern invention. This, however, has been disproved, according to Popular Mechanics by the finding of bronze reinforcing rods in the concrete roof of an ancient Roman tomb, and in the construction of some of the walls of the old palace of the Louvre, Paris. The reinforced concrete in the latter dates back only 300 or 400 years, but created much comment because the walls were thought to consist entirely of ashlar and quarry stone. The discovery that the stone casing concealed a core composed in part of reinforced concrete was made while workmen were piercing the wall for an elevator installation.
