Looking Upward.  
(In 1999)—"Marie, bring out the reprobulator, and take baby up for an airing."—Judge.

**Fortunes in Faces.**

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25 cents at Mebane Drug Co.

**Getting Even.**

Eels are the luxury of the East end, and the fish shop stuck up proudly the notice "We sell eels to the king." From the opposite side of the road the rival salesman watched his customers diverted to the shop that claimed to supply the royal table with eels. And then, after a week's reflection, he put up the rival notice: "God save the king!"—London Chronicle.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years," says Enos Lollar of Saratoga, Ind., "and consider it the best on the market." For sale by All Dealers.

**Gas.**

Mrs. Bacon—"The man was here today, dear, looking for the gas leak." Mr. Bacon—"And did he find it?" "Yes, but they haven't found the man yet."—Statesman.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For croup there is nothing that excels it." For sale by all Dealers.

**Sound Position on the  
Tariff.**

(From Webster's Weekly.)  
The Weekly's position on the tariff is that of Senator Overman, Governor Aycock, Senator Ransom and Senator Simmons. So long as the burdens of the tariff are to be borne by North Carolina and the South, it is but just and right that the duties should be so levied that there will be no discrimination against our own industries in favor of those of New England. Aycock in his last message to the people of North Carolina said he did not believe in free trade for North Carolina and protection for New England, but in a tariff that would bear equally on all sections of the country. And the Baltimore platform endorses the same view.

**More Than Brazen As-  
sumption**

Darwin a distinguished scientist claimed that man descended from the monkey, orang-outang, or chimpanzee. Dr. Forbis Ross, a distinguished English scientist not only admits the correctness of Darwin's theory, but claims that man's nature and qualities were tending back to his original ancestry, and that in a few decades the resemblance will be more marked. It has always seemed amazing to us to note the assumption of superiority, and haughty arrogance of some people when only a few centuries back their ancestors were chattering in trees, and hunting nuts for food, hiding in hollows and caves at night for shelter. Ah, if the poor things enjoy it, it is all right, but it takes something more than brazen assumption to make a superior human being.
