Society strikes hands with the dog, even the mangy cur, if it can but attract the attention of the world to its eccentric doings. Society does not know the meaning of the word charity, only to exercise it as methods of advertising its frivolity.

A case has been thrown out of court in Chicago because one word in the indictment was incorrectly spelled. And yet there are lots of people who wonder why justice travels with a leaden heel and so frequently strikes with a velvet hand in this country.—Va. Pilot.

And this is what makes of a law a misearable fraud, not an instrument of justice, but a machine for sharp and unscrupulous lawyer to defeat justice.

It is intimated that the friends of Ex-Governor Glenn will have a talk with Mr. Woodrow Wilson relative to a place in his cabinet for him. We hardly think it will be worth while, Mr. Glenn may be provided for in some way, but not likely in that way. North Carolina will be looked after, but the way in which she will be looked after will hardly include places for all of those in North Carolina who may seek them.

It seems that the Turks were drilled and taught their military tactics by German officers, and the Turks have literally and completely failed. The men of the Balkan States were drilled and taught their tactics, and furnished their heavy artillery by the French, and they have succeeded, succeeded beyond their wildest dreams. What these things have had to do with the war, we do not know, but we are glad it is so.

The dynamite conspiracy now being uncovered by the government at Indianapolis is appalling in its recital. Further details of the part the McNamars played in blowing up the Los-Angeles Times building in which 21 lives were lost has been added to this horror, and it does seem that the Government will be able to get to the bottom of it.

Frank Ryan Paesident of International Association of Standard Bridge and Iron Works, is on trial with forty other men.

It is to be hoped that every one who in any way was interested in this great dynamite conspiracy may be convicted and duly punished. It's a pity but what electrocution could not come in as one of the methods of punishments.

A BIG TOBACCO MARKET.

We said it three years ago, we repeat it to day, that with proper and contineous effort Mebane may be made one of the biggest tobacco markets in the State. So far it's growth has been phenominal. It has already outstriped a number of towns much larger. As we have before stated Geographically Mebane occupies an ideal position.

There is one thing that should be done, and that at once, that is to encourage the cultivation of tobacco South of Mebane. There is much land adapted to the cultivation of tobacco upon which profitable crops may be made, why not? We should be glad to see this matter taken hold of in real earnest. There is no trouble to get in touch with the farmer if you try. No one appreciates a friend better than he does.

Let us all pull for Mebane as a big tobacco market, then watch the gratifying results.

When Japan conquered China in 1895, held as one of the concessions of a settlement that Japan should have Port Arthur. The ink was hardly dry upon the treaty before Russia politely but firmly informed Japan that she could not have Port Arthur, nor did she get it until she had bravely conquered it back from the Russians in 1904.

Just such cowardly tactics as Russia played has been played by a number of nations. The most recent to threaten it, is Austria. She proposes to stick her mouth in the treaty that Bulgaria will make with the Turks in her peace settlement.

WANTED TEMPTATION.

Mr. R. L. Doughton of Aleghany Co., it seems will be returned to the Legislature, Mr. Doughton served in the last Legislature and when the question came up through a bill from Mr. Wooten of Lenoir prohibiting paid lobbyist to appear upon the floor of the House, or Senate, Mr. Doughton bitterly opposed the bill giving as his reason he found that to favor such a bill would give the public the impression that the members of the Legislature was so weak they feared to be approached, that they might fall. The bill was defeated, and a great many people believed that largely the reason for its defeat was that there was members who wanted to live in an atmosphere of temptation, and this bill would put it out of their reach.

The day is past when you would make much headway hunting up characters like Potiphar's wife in a North Carolina Legislature. Everything may be as straight as a gun barrel, but it does not all ways look that way. How about E. M. Koonces bill to have a little investigation in the insurance business? Who killed it? Don't ask all at once.

THE BIG GUNS.

It is the big guns that is doing the good work for the Bulgarians in driving Turkey back to Asia. The big guns have made for them selves creditable history.

It was the big guns that battered to pieces the coalitions that was formed by combined Europe against Napoleon. The big guns help to make of Austrelitz the crowning glory of Napoleons military career. It was the worlds famous Von Mottke of Germany, with his cresant half circle of big guns around Sedan playing its fringe of fire and iron, that drove the French frantic, and at last wrung from them that coveted territory Alsace-and Lorraine.

It was the big guns at the battle of Mukden in Manchura in the Russian and Japanese war, the bloodiest battle ever fought in the worlds history in which one hundred and seventy five thousand men were killed. Eight hundred thousand were in battle. The Japanese drove the Russians beyond Tie-Pass, and opened a way for peace negotiations, which ended successfully at Ports Mouth, N. H.

The big guns will do their good work at Adrianople and Tchajla, and the insufferable Turk will be driven to the plains of Asia.

The Society Child's Lament.

Mother has gone to Reno,
Father lives at the club;
Sister is over in Europe
Hunting a titled dub.
I'm left alone with the servants;
I sit here and wonder all day
If I am father's or mother's—
King judge, won't you hurry and say?
—Puck.
