It seems that it is getting time to electrocute Harry K. Thaw, the murderer of Stanford White on general principals. The public are sick and tired of Harry Thaw, and the publicity his money brings to him. It is full time that the courts were able to set down permanently on this arrogant self-conceited professional rake. This is in the face of the sickly sentimentalism by a large number of sap-headed men, and foolish vapid women. Settle the Thaw matter and try and find something more decent to think about.

While the world is concerning itself so much about the morality of the sexes, would it not be a good idea to get a sharp stick after some of those rich goats who are keeping a regular harem of poorer men's wives. If it is a blaze of glory you wish your name to go up in, then do something that honest, and true, men and women will approve of, do not act like craven cowards in the face of money and immorality.

Society never complains of the moral delinquencies of its devotes, of its votaries, as long as their offending is fairly concealed. Society only screams its disapproval, and lifts its skirts to shun the shame when the sinning is by those who have not the money to pay the price of high living. Society is much of a fraud, but like an oath-bound band of brigands they cling together.

As a soothing salve to North Carolinians reasons for just complaint, she is told by the friends of the insurance companies, that States South of us have no better rate than we have. That is great is it not. States South of us are fleeced as much, or more than North Carolina is, and it is because the insurance companies find they have easy tools to work with in their General Assembly, just as they do in North Carolina, men who perhaps are equally as hungry after graft. North Carolina has tried her present crowd fully long enough. It is time she was making a change. Politics has grown entirely too rotten, and corrupt. The masses should open their eyes and kick them out good and hard.

Germany and a gang at Washington are doing what they can to get this country mixed up with a difficulty with England. Germany wants the United States to be permitted to feed her armies under the pretence of supplying her civilian population. Too many lies have leaked through German sources for us to attach much importance to them. We have got it good and strong in our head that there are a crowd of mercenaries who had rather see Uncle Sam pay out eight million dollars a day and lose a couple hundred men or more a day than to miss the ten or twenty million dollar trade we might have with Germany selling them goods, wares and arms. This is the view we

what opinion may be expressed to the contrary. It can not be questioned that a man with good solid gray matter in his head must admit that England is the best friend humanity and civilization has in Europe, and anything that we may do to alienate their friendship must operate to our lasting prejudice.

Our Secretary of State, the great and mighty, W. J. Bryan, who was largely responsible for the draft of the National Democratic platform had these words incorporated in it.

"The constitutional rights of American citizens should protect them on our borders and go with them throughout the world, and every American citizen residing or having property in any foreign country is entitled to and must be given the full protection of the United States government both for himself and his property."

Now, Mr. Bryan meant it or did not mean it, the presumption is that he did not care ding which way you took it, the facts are that he manifest but slight interest in Americans in Mexico. He's tried to keep too close to Villa. Now really would not Bryan make a helover of a president. No more Bryan in ours. If this sentiment offends a number of his worshippers it will not worry us.

Why do not farmers take more interest in the political conditions of their State instead of as they do sit still and let a lot of political grafters do them year in and year out? are they satisfied, do they get what they want, or do they feel keenly the injustice of their position? When people wish anything they agitate, they talk about it, write about it, and sometimes cuss about it.

What progress would the woman suffrage people have made if they had sat at home and whined and then whined some more, and waited for things to turn up. Well you know they would have not gotten far. Why do not farmers write to their local papers and commend what is done right, and complain of what is done wrong. If they expect for their own interest to advance in the scale of material progress then they must talk and keep on talking. Editors would be glad to know their opinions, and in every way they could cooperate with them.

Recommends Chamberlain's Cough Remedy.

"I take pleasure in recommending Chamberlain's Cough Remedy to my customers because I have confidence in it. I find that they are pleased with it and call for it again when in need of such a medicine," writes J. W. Sexson, Montevillo, Mo. For sale by Mebane Drug Company.

What Fishes Know.
That fish possess a certain power of reason is affirmed by many who have studied them. They often learn to recognize the voice of the one who feeds them. Fish will congregate in places where food is habitually thrown to them. If a morsel proves too large to be swallowed, they have been known to divide it on a sharp stone.—Harper's Weekly.

QUEST OF EL DORADO.

That Elusive Land of Gold and Jewels in South America.

Guiana is bounded on the north by the great river Orinoco and on the south by the still greater river Amazon. These two grand rivers are connected with one another, the Cistiquire, a branch from the Orinoco, falling into the Rio Negro, a tributary of the Amazon. Within Guiana itself are many rivers of very considerable size.

The kingdom of El Dorado was reputed to exist somewhere between the Rio Branco and the Essequibo, called by the Indians the Brother of the Orinoco. Mana, the capital, was said to be somewhere between the Rio Branco and the Rupununi, a tributary of the Essequibo. From the thirties of the sixteenth century some eighteen expeditions had been sent by the Spaniards to Guiana in search of the golden kingdom. Diego de Ordaz, one of the captains of Cortes at the conquest of Mexico, led the first attempt in 1531. After him followed many a brave cavalier, but all was in vain, and disasters as well as failure attended nearly all the expeditions.

From a state paper in the public record office, London, it appears that in 1580 persons who traveled in America had reported that there was a place where the women wore great plates of gold, covering their whole bodies like armor. In every cottage pearls were to be found; in some houses a peck. Banqueting houses were built of crystal, with pillars of massive silver, some of gold. Pieces of gold as big as a man's fist were to be found in the heads of some of the rivers. Raleigh read accounts of these expeditions, but their want of success did not deter him from attempting to find the golden realm.—Blackwood's Magazine.

A LIGHT IN AN AUTOMOBILE.

Use One of the Spark Plugs When You Have No Matches.

Did you ever while making an automobile tour find yourself on a lonely country road, perhaps miles from the nearest house, and suddenly discover that you had no matches? If you were anxious to light the lamps or eager for a smoke such a discovery would not prove at all conducive to the smoothness of your temper.

There is a simple way in which any one may secure a light without the aid of matches. You may be anxious for a smoke or it may be getting dark and you want to light your lamp, but in any event you can secure the necessary light if you will follow these directions:

Unscrew one of the spark plugs and let it lie on the cylinder head. Wrap a small wisp of waste around the end of any small stick of wood or if there is none handy wrap it around the end of a screwdriver or any other tool. Dip the waste in the gasoline until it is thoroughly soaked. Of course you should have only a very small piece of waste; otherwise the blaze will be too big for you to handle. After dipping this in the gasoline lay it close to the spark plug sparks. This will ignite the waste and you will have a little torch sufficient for lighting your lamp. Even if there is a heavy rain or snow, you can secure a light in this manner sufficient for your needs.—Detroit Free Press.

Fear of Old Military Service.

A prisoner's appeal to the court of criminal appeal for a longer sentence, although the first on record before that tribunal, is not altogether unparalleled at the assize, for offenders who have had the advantage of inside knowledge of the working of the prisons acts have been known to ask the judge to give them penal servitude instead of a short period of hard labor. They shrink from the more Spartan diet and severer restrictions that attach to the nominally lighter sentence. A century ago, when capital punishment was inflicted for many trivial crimes, a prisoner was sometimes given a choice—death or service in the army or navy. And the services in those days had such a terror for some criminals that many elected to be hanged instead of serving their country.—London Spectator.

Government of Japan.

The government of Japan is not an absolute monarchy, the mikado being largely responsible to the parliament and, to a degree, to the people back of the parliament. Under the mikado is the house of peers, composed of the princes of the blood and the nobility and the representatives of the vested interests, and the house of representatives, which is made up of some 380 members, representing the masses of the people.—New York Journal.

An Exception.

Little Mary was coloring pictures with her set of paints. She used a tint that failed to please and exclaimed: "Oh, I didn't mean to do that! However, what's done is done and can't be undone—except shoe laces."—Chicago News.

Poor Dora.

"Dora must have suffered some terrible disappointment. One never sees her smile now. What is the matter?" "She's had two front teeth pulled out."—London Telegraph.

Up in a Balloon.

To remain motionless and watch the earth fall away from you as rapidly as a baseball falls from you when dropped from a window is the sensation of going up in a balloon.

There is only one cure for public distress, and that is public education, directed to make men thoughtful, merciful and just.—Ruskin

Sailors Well Protected.

The British coast is so well protected with light-houses that if a ship sailed right around England, Scotland, and Ireland by night, only on six occasions would it be where it could not see the flash of a light-house lantern.

Character Building.

We prepare ourselves for sudden deeds by the reiterated choice of good or evil that gradually determines character.—George Elliot.

WHAT DOES \$5.00 A WEEK MEAN TO YOU?

Bank \$5.00 a week at the Mebane Bank and Trust Co., and at the end of 52 weeks you have \$260.00 in your account here. At the end of only 10 years you have \$2,600. \$2,600.00? Yes! With that amount of money you can buy your own home—pay cash for it—no mortgage on it—no debts against it.

When you buy a home on the installment plan you pay interest. When you save for a home on the installment plan you receive interest.

Seeking Tenants.

A fellow was telling us that when he got the job as a renting man he was so green he started seeking tenants in quite an original way. He called on the fire stations covering localities where his buildings were situated and a box of cigars to the firemen gained a promise to phone him every time a fire occurred. Day or night he covered the fires. It wasn't very difficult to get tenants, as he arrived at the psychological moment when a man's store or office was in flames and anything on the way of floor of this kind was appreciated and many of these tenants became permanent. For naturally, after being secured under these exceptional circumstances, a strenuous effort is made to give them better service than they had previously.—Building Management.

Optimistic Thought.

Behind every mountain lies a valley.

To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimate of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by Mebane Drug Company.

Unexplored Ungava.

There has not been a careful exploration of the geographical formations of Ungava and such observations as have been made are so limited that they afford only the means of reaching a rough estimate of the extent and distribution of the different rocks. It is known that there are large iron ore deposits on Clerke, Armstrong and Curran islands, in Hudson bay. Two of the islands are estimated to contain about three hundred and sixty-five million tons of iron ore. From \$50,000 to \$60,000 has already been expended in the exploration of these iron deposits. The ore is said to be of the quality, the beds ranging from seven to fifteen feet in thickness.

The Ways of a Man.

Nothing pleases a man better than to be misunderstood by someone so that he can tell you about it. He may talk about his future, his prospects, his interests, his family, or his business, but when he speaks of himself he is in earnest.

No Use to Try and Wear Out Your Cold It Will Wear You Out Instead

Thousands keep on suffering Coughs and Colds through neglect and delay. Why make yourself an easy prey to serious ailments and epidemics as the result of a neglected Cold? Coughs and Colds sap your strength and vitality unless checked in the early stages. Dr. King's New Discovery is what you need—the first dose helps. For the Stomach and Liver

I. N. Stuart, West Webster, N. Y. writes: "I have used Chamberlain's Tablets for disorders of the stomach and liver off and on for the past five years, and it affords me pleasure to state that I have found them to be just as represented. They are mild in their action and the results have been satisfactory. I value them highly." For sale by Mebane Drug Company.

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and Doesn't Salivate or Make You Sick.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful to night and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Flowers of Music.

The graces—namely, the shake, the turn, the appoggiatura, etc.—are the flowers of music; and the clear, correct, and delicate execution of them embellishes and exalts every melody and every passage. But when they are played stiff, hard, or unintelligibly, they may rather be compared to blots of ink or spots of dirt.—Carl Czerny.

Health Promotes Happiness

Without health, genuine joy is impossible; without good digestion and regular bowel movement you cannot have health. Why neglect keeping bowels open and risk being sick and ailing? You don't have to. Take one small Dr. King's New Life Pill at night, in the morning you will have a full free bowel movement and feel much better. Helps your appetite and digestion. Try one tonight.

Volcanoes in United States.
