DURHAM & GREENSBORO

We always leads, never follow, in fact we make it a point in our purchases to never buy anything that will not stand the test, and do you not know there are many bolts of goods sold elsewhere that is only imitation of the real. For instance you are not advised that very much of the cheap stuff sold by our would be competitors has been chemically treated with lead, or zinc solutions that sometime gives the shody the appearance of the real. Did you ever buy a silk pattern, brilliant on first sight with weight, and pliability, which would show breaks and holes after a little wear. This is some of the stuff, don't keep on letting them fool you. We have built our trade upon merit. We keep what is real classy, and sell only the best. Our stores are as near as the nearest mail box, a letter will bring what you may wish. Everything nice that a lady wears. Order at once of

A French woman is quoted as saying that "a girl must have an ankle to wear those eight-inches from the ground shirts." Call it an "ankle" if you will, but a reprehensible acquaintance who is always careful to protect his optics from the wind-blown dust assures us that it would look just as well by any other name.
