General Hall's Troops Have a Sharp Fight With Filipinos. **GUNBOATS TAKE PART IN ATTACK**

Our Troops Wade Through Floods to Drive the Filipinos From Calamba-Four Soldiers Killed and Eleven Wounded-Spanish Prisoners Rescued -A Health Resort to Be Utilized.

Manila (By Cable) .- General Hail de feated General Malabar's garrison of 300 Filipinos at Calamba after a sharp running fight, cutting through the north and south avenue of the insurgents. The American losses were four killed and eleven wounded. The expedition was under the supervision of General Lawton. Four hundred Washington troops armed with Krag-Jorgensens and Hamilton's Mountain Battery left Pasig and joined Captain Eltenhead with 450 men of the Twenty-first Infantry, 150 cavalrymen and the army gunnboats Napidan and Oeste.
At 3 o'clock in the afternoon the gun-

boats skirting Talim Island headed southwest, deceiving the Calambans into believing that they were intending to attack Santa Cruz. Suddenly, however, they ran the cavalry and the men of the Twenty first Infantry ashore a mile north of Calam ba. A twelve-foot rise of the lake had flooded the insurgents' trenches, hence there was no opposition on the part of the enemy until the cavalry were at the river. The insurgents then fired volleys at the Americans. Captain McGrath and Lieutenants Bates and Swau secured a casco on which they ferried the cavalrymen across the river.

The cavalry then advanced upon the town, while the Twenty-first detachment plunged through the marshes and circled he footbills to the west, preventing a retreat of the enemy on three sides. They then swung to the southeast, flanking the enemy, who retired into the town, where after fighting in the streets, they escaped south to Santa Tomas. The Washington troops, under the cover of the Napidan's six-pounders, landed in water neck deep and got stuck in the marshes to the south consequently they were unable to co-oper ate with the other troops.

A hundred non-combatants in carriages drawn by bull teams escaped to the south unmolested. The enemy removed about wenty-five of their killed and wounded and also took with them forty Spanish prisoners. Thirty of the prisoners, including five women, were rescued by the Americans and conveyed to Manila.
