WINSTON'S PUBLIC BUILDING.

As Artemus Ward would say, the editors of the Winston dailies are "amazing cusses." They have abused, and ridiculed Mr. Blackburn, and did either one of them denounce the treatment he received at the hands of the Machine managers at the last election, when hundreds of voters were not allowed to register and vote for him? Did they endorse the action of those force bill fellows who forced negroes to vote for Mr. Buxton in order to get in a vote for McKinley? Did they denounce the hoodlums who hissed him in the theatre after he was elected? If they have, we have not heard much about it. To a reader of those papers for the last six weeks one would suppose that Hon. Bob Glenn and a few others were members of Congress and not Mr. Blackburn. After heaping these indignities upon him, after burlesquing the Republican President of these United States on your streets and last fall in an attempt to make political capital out of the disgraceful proceedings you now want them to fall over each other in coming to your rescue. As long as the Democratic party is dominated by men who abuse and denounce honorable gentlemen in the Republican party as you and others have been doing you may expect to be left severely alone. One can read the columns of your papers, and with few exceptions no good, kind or courteous word is ever given a Republican. If a Republican Editor has anything to say about your Election rascality, you denounce him as a liar and a hired falsifier. Instead of disproving the charges by bringing on your proof, you virtually admit the charges, and try to muzzle him by your contemptible, cowardly abuse. The people are catching on to the racket, and are tiring of it, and just such folks as you are going to feel the weight and force of their indignation. The Government at Washington is in the hands of Republicans, and while we want to aid in helping to build up the South, in every way possible, we are getting mighty tired of the way the Democratic Machine attempts to crush and run over us, and even the worm crawling in the dust some times strikes back at those who would trample upon it. You have abused, denounced, cheated, swindled and heaped indignities upon Republicans so long, that you think they will quietly and tamely submit to it, and then dance whenever you make the music. We know that we can expect nothing from the Bourbon element, but the business men, who desire the welfare and prosperity of this country above partisan considerations have got to be taken into the rear. We would like to see Winston have a public building, but Rome was not built in a day, and Mr. Blackburn could not do otherwise than he has done, and command the confidence and respect of the best people of this State. He has given you a dose, and it seems to be acting, and we trust it will produce good results. If it only arouses the best people of Winston to the importance of relegating certain ones responsible for the disgraceful scenes enacted in their town, to the rear, and to "innocuous desuetude," all will be well. "Nero fiddled while Rome was burning." Do you see?

THE JOURNAL.
For some time the Journal's editor has been nagging at us, and we have paid no attention to it, but we have decided to read him a short lecture on good manners and decency. The Journal has a perfect right to comment on our statements, it has a perfect right to show that statements made by us are not true if it can, but to virtually admit the truth of our assertions, by making dirty, personal flings at us shows that he cannot openly disprove our assertions, and in order to prejudice the Journal readers, it simply huris its personalities at us, without giving the reason therefor. We have been educated in a different school, if such conduct as this characterizes a gentlemen in any particular. If what we have said about the attack made on White men in Winston and other places in Forsyth County at the election is not true why don't you disprove it? You can't do it, but you can untruthfully say that we "lie for the fun of it," and when you say it you are guilty of what you accuse us. Below we give you a letter written to Justice by a white citizen of Forsyth County who was attacked on the day of the election and beaten up, by some of your crowd. Read it.

Mr. Justice:--Dear Sir: In reply to your questions as to whether I was attacked and beaten at the election in Middle Fork No 1 in August 1900, I must say that I was, and these are the circumstances: I was standing in the road not far from the voting place when I was called on to identify a voter. I went up to do as requested, when I was grabbed by Mr. Henry Riggins and others and was struck by him and Mr. McArthur, Penry and others several times and badly hurt. After beating me up they said if some one did not take me away they would kill me. John Mastin came up and took me away, I refused at first to go until I had voted, but Henry Foard and others said they would kill me if I tried to vote and my friends insisted on my staying away. After waiting awhile I started back thinking I could vote but my friends met me and insisted on my staying away as these parties still said if I put my foot on the election grounds they would kill me. Under the circumstances I stayed away and did not vote. Of all those that struck and threatened me, so far as I saw, not one was a voter at that box or a resident of that township.

JOHN P. MICKEY.
Mr. Mickey has told how he was assaulted and prevented from voting. Is it true or is he telling an untruth? Do you approve of such conduct? Do you think Bob McArthur, Henry Riggins, Henry Foard and Penry should go out in the country among people who have helped to build up your town and beat them up, and threaten their life should they attempt to exercise their rights as American citizens? If not Mr. Journal, why don't you denounce the crime, and the men who perpetrated it. Are you afraid to expose the crowd who stored Winchester under the Methodist church in your town to use on the day of the election? If you are, you should move out from among a people who would deny to you the God given right to defend that which you think is right, and to denounce that which you know is wrong. We are not afraid to do it, and when the time comes that we cannot defend the right and denounce the wrong, we will move among more law abiding, God-fearing people. If you have any of the instincts of a gentleman left, hereafter show it in the columns of your paper.

We are going to denounce Election rascality as long as rascality is continued. We shall take pleasure in correcting any mistake that gets into our paper, and make the proper amends for it. And when the job of roasting us is completed, and we are thoroughly done; we will extend you an invitation to the feast, with the other cannibals in the crew.

YOU KNOW WHAT YOU ARE TAKING
When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle, showing it is simple iron and quinine in a tasteless form. No cure, no pay, 50c.

ALL ALIKE.

Doctors Agree on Food
All physicians agree that good food, properly selected, is of the utmost importance, not only for the cure of disease but to maintain health even when one is well.
A doctor of Gloucester, Mass. says, "I count it a pleasure to say a good word for Postum food Coffee with which I have been enabled to relieve so many sufferers, and which I count, with its valued companion Grape Nuts, one of the daily blessings."
Coffee was banished from my own table some time ago and Postum used regularly in its place.
I frequently find it necessary to instruct patients when they take Postum Coffee for the first time to be quite sure it has been boiled long enough to bring out the clear, black color and the rich taste, as well as the health giving qualities."
The doctor enclosed the names of six patients who were formerly nervous dyspeptics but have been cured by his professional care and the discontinuance of coffee and the using of Postum Food Coffee in its place.

QUERIES.

Prof. Hodges in his letter in last week's Record failed to tell us why they could run the schools longer on \$6376.67 than they could on \$6942.87. He also failed to tell us what was done with the \$2220.78 unapportioned. He did not touch upon these matters. He did not tell the people why Mocksville township received \$322.20 less than a year ago, and Farmington township \$372.85 less, and Jerusalem \$115.90 less. These are figures taken from the records, and the people would like to have a statement showing what was done with the money. Let's have it.
\$1.50 VERSUS \$150.00.
Mess. Wooten & Co., Prong, North Carolina, say: One of our customers, a prominent man in this community, suffered with liver complaint. He consulted several physicians but they failed to benefit him. We prevailed upon him to try the Ramon Pills and Pellets. He soon bought more and is now a well and hearty man, and has gained in flesh. He says the pills saved his life and the six boxes cost him only \$1.50, while his trip to New York to consult the doctors, cost him \$150.00.

Headache

kills, not necessarily suddenly, but SURELY. It preys upon the intellectual powers more than we realize. It consumes the vitality faster than nature can replenish it, and we cannot tell just what moment a temporary or complete aberration of the mind will result. Headache and pain should be promptly relieved—but properly. Many pain cures are more harmful than the pain. Beware. If you would be safe, take

Dr. Miles' Pain Pills.

"As a result of neuralgia I lost the sight of my right eye, and the pain I have suffered is incomprehensible, being obliged to take opiates almost continually. A friend gave me one of Dr. Miles' Pain Pills and it promptly relieved me. I then purchased a box and now my trouble is gone. They have also cured my daughter of nervous headache, and I heartily recommend them to others."—W. J. COXLEY, Broomfield, Texas.
