FOR GOVERNOR
HON. CHAS. A. REYNOLDS,
of Forsyth County.

DRUGS AND WHISKEY.

In connection with the charge recently made that cocaine was being sold to boys in this city, we note an interesting statement made in New York recently by Mrs. Isabella Charlie Davis, of the International Order of King's Daughters and Sons:

"There are 2,000,000 men in America who are absolute slaves of alcoholism," said Mrs. Davis. "There are twice as many, or almost 4,000,000 men and women - an alarming proportion of these from the highest ranks of our social and professional life - who are helpless victims of the far more terrible drug habit.

"Within a radius of twenty-five miles from this hall there are at this moment 75,000 such men and women."

Time and again we heard extreme temperance men say that they would, if they could, abolish alcohol altogether and destroy it from the face of the earth. Such extreme statements have always seemed to us to be reckless, not to say sinful speaking from a religious point of view. Alcohol was put here by the good Lord, and put here for a good purpose. Of course, it is abused, and it does a great deal of harm in the world. But if there were no such thing as alcohol, the probability is that men and women would find a worse substitute. In deed, the above statistics indicate that the alcohol evil to-day is not as bad as the drug habit. All must admit that if a person must have one or the other, it is better to drink whiskey than to become a victim to morphine and cocaine. The sale of liquor and poisonous drugs must be regulated by law, but men and women are not to be saved from any sort of intemperance by legislative enactment, and those who depend upon legislation rather than upon their own will and determination to save the u, will be lost. -Times Dispatch.

We want every reader of the above to peruse it carefully, it contains information, which will open the eyes of many of our readers. Further it comes right along and corroborates the views expressed by us in the columns of THE RECORD. Cocaine, morphine and opium are worse habits than the alcohol habit, and again you cannot legislate temperance into people. The legislature can regulate the sale etc., but it can't prevent people from getting whiskey if they want it, besides we do not believe in attempting to control every act of the citizen by legislative enactments. Let the people have a say in their government, and punish those who commit crime and do injury to others. The best governed people are those least governed to a great extent. Let every father and mother instill into the minds of their children temperance in all things. You can't legislate religion and morality into the people.

Navy at Worlds Fair.

Pensacola, Fla., April 5.—The gunboat Nashville and torpedo boat destroyer Lawrence sailed from Pensacola this afternoon for St. Louis to represent the navy at the World's Fair. The vessels will reach New Orleans to-morrow and there stop for coaling, proceeding the following day on the voyage. The gunboat and destroyer have just been launched from the docks and are in excellent condition. -Times Dispatch.

Prosperous and Still Prospering.

The farmers of this section have been unusually prosperous during the year, and the prospects for another prosperous year are quite encouraging. - Goldsboro Argus.

Democratic authority, it ought to be good. In this case it is true, and yet these same Democratic papers will be trying in a few short weeks to convince the dear farmers that conditions are intolerable and a change in administration is absolutely necessary for the poor down trodden farmer to exist. Yes times are good and the Republican party is in control of this government, and it is going to be hard to convince the farmers that a change to Cleveland soup houses, Coxy armies and low prices will be for the general good of our people. Democracy has been weighed in the balance and found wanting. The sheriffs with their tax books are showing the people how Democracy can increase the peoples burdens. The Rail Road scandal and the bond issues by the Simmons-Aycock machine are eye openers and will be ventilated during the coming campaign.

THE STATE SATISFIED.

It is given out generally that "The State is Satisfied" with the verdict in the "Jones Murder Trial" just ended at Wilson. We think differently; the State's attorneys may be satisfied, but the people, who by the way is the state, are NOT satisfied, and they believe that the ends of justice have been defeated. There may have been a more atrocious crime committed in North Carolina, but there never was a more diabolical one. A set of men - 200, - in time of peace - no semblance of a quarrel, to get together and form a conspiracy for the murder of one of the State's citizens, and carry their designs into execution, deserve the full limit of the law, and anything less than that was not a compromise, but a defeat of justice. A poor devil gets in a fight and kills a man and is convicted of the crime and goes to the penitentiary for from ten to twenty years; a nigger is suspected of having killed a man, and if half proven is either sent to the penitentiary for life or hung, oftener hung. Here we have a clear case of conspiracy and murder, yet the murderers get off with light sentences, and are turned loose again on the public. We wonder if the consciences of these men that affected this compromise sayeth unto them "well done, thou good and faithful servant!" "The State" may be satisfied, but the PEOPLE will always believe the conspirators never got the punishment they deserved. -Hamlet Outlook.

The above article tells the tale of the carnival of crime inaugurated under a Red Shirt administration of our courts. We don't have to go to the east to see that political persecution is resorted to by Democracy in order to drive people into supporting the machine. Look at Davie's criminal docket, and see who and how the courts are being used to persecute our people on slender technicalities. We will see what this will lead to in the end. Justice in deed, where;

Shuns Notoriety at Any Cost.

New York, April 5.—Believing her appearance upon the witness stand in the bankruptcy examination before a court commission would subject her to unpleasant notoriety, Mrs. Daniel J. Sully decided to-day to assign to the receiver her claim to the \$150,000 of surplus money accruing to the F. W. Reynolds Company from the sale of Sully's hypothecated cotton. -Times Dispatch.

Murderer Commits Suicide.

Charlotte, N. C., April 4.—News reached here to-day that Charles F. Campbell, who killed "Silver Creek" Sam Pearson at Morgantown, N. C., last fall, and who escaped from jail at Newton while supposed to be ill, yesterday committed suicide at Mountain City, Tenn., by shooting himself.

WHAT ABOUT IT?

A correspondent of The Winston Republican says that in the last election in this State there were only 5,000 colored votes registered, and that 3,000 of them voted the Democratic ticket; that the Republicans polled 69,000 votes, 67,000 of which are obliged to have been cast by white men. That is a nice nucleus upon which to build a party, and there are many excellent men in the Republican party in North Carolina—as good men as there are in any party; but there is no hope of an organization which hasn't an idea above trafficking in offices and quarreling over them, and thinks that the chief end of man is to get a political job. -Charlotte Observer.

We would like for the Observer to tell its readers how many pie hunters are in its party. Has any political party in the world ever shown a greater desire than the Democratic party to be at the pie counter? Look at the dozen or more Democrats at the present who are trying to get the nomination for governor. Look at the acts of the General Assemblies of 1899, 1901 and 1903 and see what a Democratic legislature will do to get an office. Think of your red-shirt paraders, Winchester toters, and rotten egg throwers, all after pie, pie, pie. Look at the criminal dockets in each and every county of this state, and see what the people are reaping from the seeds sown by your crime breeding campaigners. Democracy is in the saddle in this State, and your own judges on the bench say that crime is on the increase. Put up, or shut up.

Heart Trouble Baffled Doctors.

Dr. Miles' Heart Cure and Nerve Cured Me.

There is nothing more necessary to health than sleep and rest. If these are denied you, when you went to bed, there is an affection of the nerves plainly present. If your heart is weak, or there is an inherited tendency in that direction, your weakened nerves will soon to affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nerve is a nerve tonic, which quiets the nerves, so that sleep may come, and it quickly restores the weakened nerves to health and strength. Dr. Miles' Heart Cure is a great blood and heart tonic which regulates the action of the heart, enriches the blood and improves the circulation.

"Some time ago I was suffering severely with heart trouble. At times my heart would seem to stop beating and at others it would beat loudly and very fast. Three to four hours sleep each night in ten months was all I could get. One week in last September I never closed my eyes. I got Dr. Miles' Nerve and Heart Cure at a drug store in Lawrenceburg, after spending \$300.00 in medicines and doctors in Louisville, Shelbyville, Frankfort, Cincinnati and Lawrenceburg, and in three days have derived more benefit from the use of your remedies than I got from all the doctors and their medicines. I think everybody ought to know of the marvelous power contained in your remedies." - W. H. HUGHES, Fox Creek, Ky.
