C. FRANK STROUD - Editor.

Entered at the Postoffice in Mocksville, N. C., as Second-class Mail matter, March 3, 1903.

TERMS OF SUBSCRIPTION:  
One Year, in Advance .....50c  
Six Months, in Advance .....25c

TUESDAY, - - SEPTEMBER 14, 1909.

When completed, Davie county will have a court house that will be a credit, not only to the county, but to the whole State.

The discoverers (?) of the North Pole are intimating that each other are liars, and perhaps there is some truth in their statements.

We are informed that the campmeeting at Harmony begins the second Sunday in October, instead of September, as published last week.

The people who have been losing sleep over the town clock, can rest in peace. The clock has been ordered, and in a short time will be tolling off the hours.

We never heard of any one getting rich by patronizing mail order houses, but we do know of some suckers who have been captured by Chicago concerns.

We wish to thank our Farmington correspondent for the nice things said about The Record, and hope to publish the Farmington news again in the near future.

We have added a number of new names to our subscription books in the past two weeks. If our friends will give us a little assistance, we hope to reach the 1500 mark ere many months.

A gentleman told us Thursday that if Charlotte continued to grow as in the past, he thought she would be able to take care of the Confederate Reunion in 1950. We dare the Observer to talk back to us. If it does we will sic the Winston Journal on it.

A statement of the Bank of Davie appears in this issue, and the condition this bank is in, reflects credit upon the officers and directors. No citizen of the county should deem it necessary to go out of the county to deposit his savings. Next week they will talk to you through The Record about their savings department.

**Captain Peary Finds The Pole.**

Indian Harbor, N. S., Sept. 6. - A report received here today says that Captain Peary has also reached the north Pole and is on his way home.

The information comes from Cape Race and is apparently authentic. It has been expected ever since word came that Cook had discovered the north pole that Captain Peary, his American competitor, would also be successful. The news received from Cape Race apparently confirms this expectation.

**Bad Wreck.**

A bad freight wreck occurred Saturday night about a mile and a half south of Mocksville, when eleven cars of a south bound freight train, loaded with tobacco, were ditched. Engineer Hopkins was at the throttle. The cars were torn up right much, and the track was also damaged considerably. A wrecking crew from Salisbury reached the scene about five o'clock Sunday morning, and by 4:30 p. m., the track was cleared. No. 28, the north bound passenger train was delayed nearly four hours. It is fortunate that no one was injured. We don't know what caused the wreck, but imagine it was the bad condition of the roadbed.

**Building Condemned.**

The mayor and the city fathers have condemned the Thos. Gaither brick building, a part of which fell down a month or so ago, and which took another tumble last week. The building is a menace to the citizens of the town, and Mr. Gaither has been notified of the acting of the board. It is hoped that he will take immediate action and tear the building down before some one is killed or badly crippled.
