## OUR MOTTO.

"We will speak out; we will be heard  
Though all earth's systems crack;  
We will not bate a single word  
Nor take a letter back.  
We speak the truth and what care we  
For hissing and for scorn,  
While some faint gleanings we can see  
Of freedom's coming morn?  
Let liars fear, let cowards shrink,  
Let traitors turn away;  
Whatever we have dared to think  
That dared we also say."

The slop tub at the Cooleemee Journal office ran over again last week.

Winston is a good town all right but there are others—Mocksville for instance.

Good times are in sight? Roosevelt and the North Carolina black-berry crop are scheduled to appear at about the same time.

And now Charlotte bows her head and humbly admits that she hasn't 50,000 inhabitants, nay, not more than 35,000. We knew that it would be so.

We received from Reedy Creek last week a letter for publication, but the author's name did not appear, and it was consigned to the scrap pile. Strange that people will persist in sending unsigned articles to newspapers for publication. Always sign your name.

Every farmer in Davie county should join the Farmer's Union. It is an organization banded together to help the tiller of the soil. From a small beginning a few years ago, it has grown to be one of the largest and strongest organizations in the United States, and its influence for good is being felt through out the country.

## THAT X MARK.

Some of our subscribers are wondering why their paper bears an X mark these days. Dearly beloved, let us break the news gently. It means that for many days we have longed to see your smiling face in our sanctum, or to receive a "love letter" from you. It means that the editor hasn't starved to death up to the present time. It means also that our rents, wood bill, paper bill and ration bill remain unpaid. It means that we are a long suffering mortal, and that we look to you for our daily bread. Should you find a cross mark after your name, it means that we fear you have forgotten us. It means that the price of bread and meat have gone up, and starvation stares us in the face. It means that this is the only way we have of telling a man that he is owing us, as we are not able to buy stamps to mail each of our subscribers a letter. Yes, beloved, it is just a gentle reminder that you are owing us and that we need the money badly. Our expenses have been heavy this winter, and at the price we charge for our paper, we are compelled to get what is owing us, or suffer. If we charged a dollar a year for our paper, we could afford to lose some on bad accounts, but since the paper is only 50 cents a year, we cannot live if our subscribers do not pay us. We believe that our subscribers mean to pay us, but have just neglected to do so. There are hundreds of our friends who are owing us, and we hope they will consider this a personal appeal. We trust that no one will take offense at what we have said, as it is not our intention to offend any one. Our office is up-stairs in the Angel building, where we can be found every week day between the hours of 7 a. m. and 6 p. m. The latch string hangs outside the door.

The Record and Toledo Blade both one year for 75 cents.

As usual, a number of correspondents are crowded out this week.

Wanted to See Train Jump Track. Winston Journal, 11th.

Weldon Parker and Sam Johnson, both colored, are in jail at Salisbury awaiting a trial in the Superior court on the charge of attempting to wreck passenger train No. 28, which runs between here and Charlotte, Monday afternoon about a mile south of Cooleemee.

The negroes, it is charged, had put planks on the track and wedged them under. Special officer Newman, of the Southern, was there a short time after and tracked the negroes and caught them. They were given a hearing before a magistrate at Cooleemee Tuesday and placed in jail that night. They both pleaded guilty of the charge and gave as a reason that they wanted to see the train jump the track.
